THE NORDICA CONCERT.

Great Interest and Enthusiasm Is Being Shown.

The great interest and enthusiasm which has been shown in the coming of Mme. Nordica on Nov. 14 was demonstrated yesterday, when the sale of seats for subscribers opened at Powell's music store, from 9 a. m., until long past noon, a constant stream of subscribers were anxiously awaiting their turn to secure reserved geats. The immense scating capacity

of the New Armory makes it possible for all to secure desirable seats. The prices range from \$1.00 up and all seats are desirable, as everything possible is being done to make the accoustics

recital tour, under the exclusive direcion of Manager Loudon G. Charlton. On her arrival in New York, Mme. Nordica found a cable message informing her that all her conditions had been accepted and an engagement closed, engaging her for the Covent Garden season next year, beginning in

Paris has been negotiating for Nordica to sing in "Triston und Isolde" and "Gotterdammerung" there next summer, but the engagement in London, during the coronation, and in Munich, will preclude the possibility of her appearing in France at all.

Her forthcoming tour will include Canada, Texas and Pacific coast points, and every indication gives promise that her American season will be a series of brilliant ovations. All reports and statements to the conwill positively not make a single apcarance in opera in this country, her ecital tour being so fully booked and so extensive that she will return to the East only in time to sail to fill her Covent Garden dates.

Cars on Green Ridge People's Line Run Yesterday for the First Time Since Strike Began.

For the first time since the strike bean, cars were yesterday run on the Green Ridge People's line. Repairs were contemplated on this line, and when the strike set in the company proceeded to make them. The repairs were completed last week, and yesterday the line was reopened.

There was considerable stone throw ing alone the line, especially on Capouse avenue, and at various points obstructions were heaped on the track. One car was assailed with a volley of siones from a house-top. Two of the sen in the crowd fired a shot from a wife's death, revolver. The New United States Ten Dollar Note Is a Beauty. The Third National bank has just re-

cived early issues of the new United States \$10 note recently issued from the bureau of engraving and printing at Washington. This note has been christened the "Buffalo Bill," not after Colonel Cody, but because its distinctive character is the figure of a gigantic buffalo. On the note the buffalo is headed westward, his shaggy head well down for a charge, his tail in a pugnuclous attitude and his matted mane sweeping the ground. To obtain the sketch for this note the artist visited the National Museum, where there are several stuffed specimens of the buffalo, The finest was selected and posed and the drawing made from it. On the reverse of the note is an archway of artistic design. In this note, as in the others of this series, there is much open work with a handsome design, the silk threads in the paper forming one of the greatest safeguards against counterfeiting. In many of the older notes the threads were obscured almost entirely

by the scroll-work. It was suggested that a picture of the battleship "Maine" be used on the iendollar notes, and the suggestion was at first adopted. Later it was rejected as not distinctively American and not to be distinguished from any other battleship. The department is still searching for suitable subjects for new twenty and fifty-dollar bills.

DEFECTIVE DECLARATION IN IMPORTANT CASE.

In the Suit of Keogh and Others to Enjoin the Operation of the Scranton and Pittston Railway Company in the Borough of Old Forge, the Defendant's Attorneys Point Out an Irregularity in the Pleadings That Will Probably Defeat the Case-Other Court Notes.

The case of Charles J. Keogh and others against the Scranton and Pittston Railway company was taken up by Judge Edwards yesterday in equity

court. The plaintiffs are citizens of Old Forge, who sought unsuccessfully to ecure a franchise for a trolley road through that municipality. The Scranton and Pittston company, an adjunct of the Scranton Rallway company, came after them and succeeded in se curing the franchise.

The plaintiffs went into court with an attack on the franchise alleging that it was secured by fraud and corruption. The testimony showed that councilmen who voted for the franchise ordinance were given passes by the company. Judge Gunster held that this was improper and granted the injunction rary notwithstanding. Mine. Nordica prayed for to prevent the company from operating the road under the provisions of the tainted ordinance.

When the case came to be heard esterday it was found that the declaration was framed to assume the second ordinance indirectly through very strongly that the declaration was defective and that the suit must drop. Adjourning time arrived before a deision was finally reached. The plaintiffs are represented by H. M. Hannah and Cornellus Comegys. The defendant's attorneys are Major Everett Warren and Joseph O'Brien.

The case of Mrs. Elizabeth Kraft against Charles D. Neuffer and Minnle Meyers was also heard yesterday. William Meyers, father of Mrs. Kraft, the plaintiff, was the owner of a property on the corner of Jefferson

Inventor Brings Suit.

Through Walker & Hill, suit for \$1, 00 was instituted yesterday by Joseph Walker against the Walker Automatic Steam Coupler company.

The plaintiff, who is the inventor of the coupler, claims he was promised \$1,000 if he demonstrated the capability of the machine to do what he claimed for it. A test was made and the experts declared it efficient in every respect, but the company has never made good the promise to pay him \$1,000. The other \$100 sued for is cash advanced by the plaintiff to the company, at the company's request.

FELL TWENTY-FIVE FEET. But Sarah Kelly Escaped Without Receiving an Injury.

Sarah Kelly, a servant employed at the Lackawanna hospital, fell out of a second story window of that institution on Tuesday afternoon and escaped without receiving an injury of any kind,

She was cleaning a window at the time and was sitting on the sill with her back to the street. She lost her balance and fell out backward, striking the ground twenty-five feet below. She landed on her side and got up laughing, having sustained no injuries whatever. She was the "observed of all observers" at the hospital yesterday.

DYNAMITE WAS USED.

Joseph Soby and Kill Himself and Wife.

A fiendish attempt to blow up to home of Joseph Soby, a well known resident of Third street, Jermyn, was made shortly before midnight on Tuesday. Mr. and Mrs. Soby had retired to sleep when they - re awakened by a loud report, the concussion of which almost threw them out of bed. Investigation yesterday morning showed the damage had been done by dyna-

It is believed a cap was placed in the dynamite to which a fuse was at-tached and that it was intended to throw it in the bed room window. The flend who threw it must have taken poor aim and instead of going through the window it struck the siding alongside the frame and then fell on the roof of the porch, where it exploded, blowing a hole about a foot in diameter through the porch roof, and broke the glass in the front windows.

A piece of fuse about four inches in length was picked up yesterday morning. The explosion was heard in all parts of the borough, and at first many thought it was a celebration of the Democratic victory.

The affair was given under the direction of Miss Frances Moses and Miss Minnie Driesen and the attendance was limited only by the size of the hall. F. H. Widmayer, the well known vio-

linist, rendered three violin solos in his usual capable and artistic manner and two tenor solos were given by Ralph D. Williams, whose wonderfully sweet voice was heard to especial advantage in the rollicking "Bandolero" song. Miss Cora M. Griffin entertained with several recitations, revealing her rare gift of dramatic expression and the programme was concluded with two "coon" songs sung in a clever manner by Miss Freda Kann. FOR CURE OF CONSUMPTION

INSTITUTION ON THE MOUN-TAIN AT WHITE HAVEN.

It Is Situated on a Farm on a High Plateau a Portion of Which Has Been Under Cultivation-Only Early Cases Are Treated and with These a Large Percentage of Cures Are Effected-Plenty of Rest and Nourishment for the Patients Is the Treatment.

"In company with Dr. Lewis H. Taylor, a Record representative recently visited the consumption camp at White Haven—a camp which seems destined to develop into an extensive sanitar ium in which the poor who have contracted tuberculosis can find treatment Only early cases are treated, and experience in other like institutions shows that in early cases a large percentage of cures is possible," says the Wilkes-Barre Record.

"It occupies a farm on a high plat eau just above the borough of White Haven, the farm comprising some 213 acres. The plateau portion has been under cultivation, but there is a lofty eminence adjoining-Green Mountain-which admirably protects the plateau from the northwest wind.

"The movement originated in Philadelphia and at the last session of the egislature it was voted an appropriation of \$40,000. With this money and other to be received later it is purposed to fit up an institution similar to those in effective operation in Ger-many and Switzerland and in several of the United States. The patients are not to occupy a single large building but cottages will be erected, each to ecommodate eight persons.

MERELY A CAMP.

"At present the movement is represented merely by what might be called camp. The only hospital building is an old barn, and through the cracks and windows, which are never closed, the wind whistles in a manner as to almost frighten the visitor. The cracks are all covered on the side from which the storms come, but apart from this it is practically wide open. Inside are twenty beds, all occupied. More beds will be put in the hay loft. The barn is to be slightly warmed from a hot water plant, but only up to a temperature of 40 degrees.

"The only other building is the old farm house, and here the food is prepared and served by a competent colored cook, whose kitchen is a model tients occupy the barn only for sleep-(for it is intended to keep them pleasantly employed whenever possible) the patients start out to spend the day in the open air. A semi-circular shed

as to keep the wind and storm out. "The front is open. In the shedsage of an ordinance amending the klosk it is technically called-are easy one just signed, by remedying the al- chairs, in which the patients, wrapped in warm blankets, sit and read or play games. If they feel cold they build a big outdoor fire of logs in front of the klosk and thus a few degrees are taken off the temperature. The patients thus far manifest a marked improvement. Attempt to Blow Up the House of They are fed well and in addition to an abundant diet of substantial food, each patient is expected to take six raw eggs and drink three quarts of milk. With such a diet they all gain weight in spite of their illness.

HAS NO NURSES.

"The institution has no nurses, for ases which require nurses are not admitted. The oversight of the place is in the capable charge of salwell Stockdale, a young man who was cured by similar methods in Germany and Switzerland. Every other week Dr. Lawrence F. Flick of Philadelphia, one of the leading spirits in the enterprise,

visits the camp. "At present the water supply comes from a nearby spring, but an artesian well is to be sunk. Then an acre is to be planted with pines and as soon as they are large enough the mountain side is to be set out with these healthgiving trees. This will be under the anspices of the State Forestry Depart-

ment. "The camp was opened nearly three months ago. The site is 1,400 feet above the sea. The patients rise at and retire at 9. They are taught to be careful about their expectorations and all these discharges are collected and burned. All the patients are glad to work at anything they can do, and therefore the only paid employes are the superintendent and the cook."
