STORIES OF THE STREET.

A Boy Who Was Looking for Thyme and Came Near Having a Warm Time—An Enterprising Salesman at the Postoffice.

There's a druggist's assistant in the town who recalls the mention of a word that sounds like thyme. It doesn't make much difference whether it's rag-time or noon-time or just plain thyme, it's all the same; anything that sounds like thyme recalls a few days ago when he made himself the object of merry laughter of some of his friends.

depressed by his loss. Any effort to assist him will be a worthy one.

Of the several changes of time-table that went into effect on the Delaware and Hudson road yesterday, the most popular are the holding of the last night train at 11 o'clock, and making the middle afternoon train from Honesdale connect with the 3:50 train for Scranton, the train that is known as the "Saratoga."

The last train out of Carbondale has always been 10:51, with the exception of the rush six or seven weeks, or since the street car strike commenced.

The other change will be even more appreciated. Heretofore the Honesdale train reached here at 4:18. This was twenty-six minutes after No. 2, the "Saratoga Flyer," pulled out for Scranton.

LEAKS AND LOSSES

The grocer thinks he is filling the cask, but he isn't. He has to take account of that open spigot with its steady leakage and certain loss. The man who would ignorantly permit this waste and loss would be simply put down as heedless and careless.

Every time man or woman puts food into a diseased stomach there is a repetition of the folly of the merchant in his effort to fill his leaking cask. We eat to live. Physical life is sustained by food and by food alone.

The proof of this loss of nutrition when the stomach is diseased, is that it is generally accompanied by loss of weight. It naturally would be. If life is sustained by the nutrition derived from food, and part of this nutrition is being lost and wasted, there will be a corresponding waste of flesh and loss of weight.

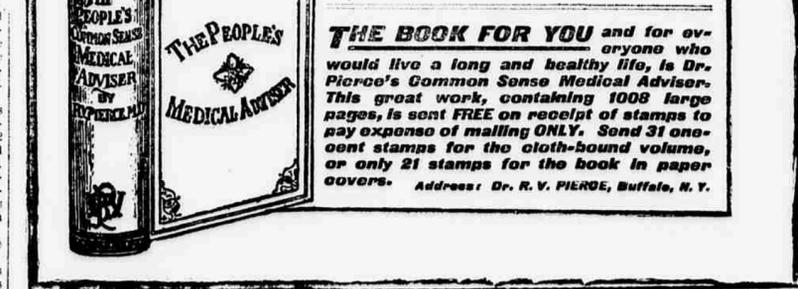

If you are weak, run-down and losing flesh, the most probable cause of your condition is disease of the stomach and digestive and nutritive tract. Probably this cause of disease has not occurred to you.

The simple, sensible thing to do is to stop that leak and loss of nutrition, then the logical result should be the regaining of lost flesh and lost strength. This is just the result that follows the use of Dr. Pierce's Golden Medical Discovery.

"I was weak, nervous and dizzy, with a fainting sensation when walking," writes Jesse Childress, Esq., of Samuel, Sullivan Co., Tenn. "Could not walk any distance; always felt bad after eating; felt as though something was sticking in my throat; always uneasiness in stomach."

"I wish to say to the world that Dr. Pierce's Golden Medical Discovery has proved a great blessing to me," writes Mrs. Ellen E. Bacon, of Shutesbury, Franklin Co., Mass. "Prior to September, 1897, I had doctored for my stomach trouble, for several years, going through a course of treatment without any real benefit."

Sometimes a dealer, tempted by the little more profit paid on the sale of less meritorious medicines, will offer the customer a substitute as being "just as good" as the "Discovery." It is better for him because it pays better, but it is not as good for you, if you want the medicine that has cured others and which you believe will cure you.

THE BOOK FOR YOU and for everyone would live a long and healthy life, is Dr. Pierce's Common Sense Medical Adviser. This great work, containing 1008 large pages, is sent FREE on receipt of stamps to pay expense of mailing ONLY. Send 31 one-cent stamps for the cloth-bound volume, or only 21 stamps for the book in paper covers. Address: Dr. R. V. PIERCE, Buffalo, N. Y.

will be given Friday evening by Rev. Robert L. Clark, of Forest City. His subject will be "The Heart's Expression" and will be a chalk talk.
