## END OF THE HATTON CASE TO SUPPLANT

Concluded from Page 4: at the Thomas hearing was incriminating in its character and could up therefore be a basis for a prosecution for perjary.

In answering these objections, Mr. of counsel for the league argued that to take advantage of the statute of limitations the defendant must have pleaded it at the hearing before the alderman, and that the same rule applied to the other objection, and that the defendant having volunteered his evidence then, could not now claim that he was asked as to matter which would incriminate him. Further, that these pleas were personal, and that as to the plea of the statute. Thomas was the real party entitled to take advantage of it and had he not done so, Hatton's evidence would have been ma

terial. The objection to the admission of the evidence was sustained, mainly on the ground that it was a year earlier than the indictment, whereupon the commonwealth rested, and a verdict of not guilty was directed, the disposition of costs being left to the jury, which placed them on the county.

## **OLD COMPANY**

NEW TROLLEY SYSTEM FOR THE CITY OF SCRANTON.

Three Companies, Headed by Congressman Connell and Allied with the Big Lackawanna and Wyoming Valley Rapid Transit Company, Will Tonight Ask Councils for Franchises to Build and Operate Fifty Miles of Street Railway Tracks-Old Company's Franchises Alleged to Be Defective.

Ordinances granting franchises for lifty miles of Scranton's streets to three electric railway companies, which Congressman William Connell is the head, will be introduced tonight in common council. The Scranton Railway company operates thirty-six miles of road within the city.

The companies that will ask the franhises are the North End Street Railway company which will serve the entral city, Providence, Green Ridge, Dunmore and Petersburg, with its runk on Wyoming avenue; the West End Street Railway company, which will serve the West Side by way of the Mulberry street bridge, and the South Side Railway company, which will use the Linden street bridge and in measure supersede the Connell Park and Speedway company.

The Central Rapid Transit company promoted by the Messrs. Brooks, Lewis and others, will be absorbed by th new companies.

The members of these companies, be sides Congressman Connell, are Theodore D. Connell, Dr. A. J. Connell, Senator Benjamin K. Focht, of Lewisburg, and George A. Lee, of Philadelphia. The roads will be operated in harmony with the Lackawanna and Wyoming Valley Rapid Transit company. the big trolley enterprise that is to build 204 miles of railway in Lacka wanna and Luzerne countiezs.

#### Nominal Capitalization.

The nominal capitalization of the new companies is \$500,000. It will cost between four and six million dollars to build the three roads.

These companies are chartered under the provisions of the Focht and Emery bills, passed at the close of the last legislature. Under these laws a company can, with the consent of the municipality, seize any street not occupied by another company. In this city, the old company has franchises for many streets on which it has never built tracks within the prescribed two years. The new companies may enter upon these.

But the new companies will not stop at taking unoccupied streets, it is believed. A defect, so it is said, has been discovered in the title of the old company to nearly every street on which it operates. This defect results from the merger which combined all the old companies into the Scranton Railway company. Under the law a company subjects itself to the revocation of its grants if it violates the provisions of its charter. One of the provisions of every street railway charter is that it shall build and operate a continuous line. The Scranton Railway company as is well known, operates a patchwork system. Its nucleus is the People's Street Railway company. When the merger came, some seven years ago, it absorbed the Scranton Passenger Railway company, the Nay Aug Crosstown Rallway company and the Valley Passenger Railway company, The various lines were connected up and its present system completed by building a piece of road here and anfranchise of the Valley Passenger company.

Sought to Buy. The promotors of the new companies it is said, sought to buy out the Scranton Railway company with a view of onsigning it to a scrap heap and supplanting it with a modern street railway system, but this was made impossible by the Scranton Railway company. The new companies thereupon decided to proceed with their enterprise without regard for the old company. Eventually, it can be said with some degree of certainty, the new allied companies will entirely supplant the

Scranton Railway company. The new companies will offer no bonus to the city other than the usual grants of a franchise ordinance. The five per cent. tax on the gross receipts, is felt, is sufficient to pay for the privilege of giving the city a \$5,000,000 street railway system.

#### LIEDERKRANZ IN OPERA. Creditable Performance at Music

Hall Last Evening. "Der Schatzgraeber." a German opera by Fritz Lorenz, was given a very creditable performance in Music hall last evening by members of the Scranevening Rev. D. J. Stafford, D. D., of ten Liederkranz, before an audience that taxed the capacity of the house.

The story of the opera deals with a burgomeister who had agreed with a friend that their children should wed. During the action of the play, the scenes are laid in the burgomeister's house, which is used as temperary quarters for the town council while the town half is being rebuilt.

The plot arises from the fact that the grandparents of "Particulier Dietchen"

Weinss, Victoria Gruener, Emma Palmedo, Fred, Engich, Wilhelm Emrich, Phil. Martin, and Fred J. Widmayer. The chorus was made up of members f the Llederkranz.

The costuming and stage settings were features of the production, and the music by Bauer's men, under the direction of Prof. Theo. Hemberger, added intich to the effectiveness of the production.

"Der Schatzgraeber" is a comiopera of surprising merit, full of melody and surprising musical effects, and reminds the hearer of Gungle, Suppe, and others of the same school in the pleasing melodious solos, duets and choruses. Theo. Hemberger deserves great credit not only for the excellent manner in which he has trained the amateur musical talent of Scranton, but also for bringing to the notice of the musical public an operetta hereto fore unknown.

Dancing was afterwards enjoyed to music by Bauer's orchestra. The committee in charge of the production was D. Petri Palmedo, stage manager Frank Becker, Jacob Ferber, Joseph Albrecht, Victor Wenzel and Nathan
