NEWS OF THE STAGE.

Information About Dramatic People Well Known to Carbondalians.

The Nina Repertory company, which was next to stranded when it reached Carbondale about a month ago, made known the fact last week that it was still in existence in quite an unique way. In an advertisement in the New York Clipper, the manager said:

"The Nina Repertory company still on the road, in spite of..."

This has some local significance, inasmuch as the company manager said this after having been in this city and Avoca. But as it is likely that Nina will do no more fancy paper-tearing in this city and the sad voices of the cent-leaves comedians and the fabled voice of the lean william, will be heard here no more, the theatre goers of Carbondale, like Dorrance Burdette, will let the sun go down on an anger that has cooled.

Miss Mildred Holland, who will be here the day after Christmas in her new play, "The Power Behind the Throne," is a most versatile young woman. She is an expert linguist, and as a stage manager is surpassed by few men. She is essentially an emotional actress, and has the rare power of attracting women. In "The Power Behind the Throne," Miss Holland will be seen as "Arla," the daughter of a count musician. The play is a romantic drama, and a large amount of money has been expended by Manager Edward C. White upon the mounting. A large company of well known actors will support Miss Holland.

Manager Byrne has been fortunate in securing Elita Proctor Otis as the Christmas attraction. This actress achieved a standing among the players of the county that means a good deal and her appearance assures a treat for those who care to enjoy the theatre on the great first day. Many Carbondalians have seen Miss Otis and enjoyed her work when she starred in "The Crust of David." She will appear this time in David Belasco's "La Belle Russe."

The leading musical entertainment of the season will be the concert by Ernest Gamble, who will be the next number in the Smith-Singer course. Gamble has not been heard in Carbondale, but he comes here with the stamp of the artist and will be given a reception in keeping with his merits. He will be here on the 27th.

DR. WHALEN'S TALK.

Some of the Sound, Truthful Thoughts of His Talk to the Teachers.

In his talk to the teachers on Tuesday night, which was referred to in The Tribune yesterday, Rev. Dr. H. J. Whalen expressed sound and vigorous truths that the following of them are printed that they may be read by The Tribune's readers:

"The oneness of the race, the equality of all men before God and the law, has been the basic principle of Christian civilization. Civilization reaches its highest point in those nations where the principle of equality is most widely recognized.

When Saul of Tarsus declared to the Greek philosophers gathered on Mars Hill in the first century of our era that God had made of one blood all nations of men, one-fourth of the world held the other three-fourths in slavery. The adoption of Jefferson's sentiment by the congress that we hold that all men are created equal was but the recognition of the old truth hatched upon the sea of heathen philosophy in the first century by the Silician tent maker.

In all heathen countries the laws of caste have existed humbly through all the centuries; in the European states there has been, and there is now, a continual struggle between the principle of royalty and the principle of equality; the history of England and her dependencies is the record of conflict between the so-called divine rights of the kings and the actual divine rights of the common man.

The ultimate triumph of this principle of equality, which shall issue in the general happiness of the whole human family must ever be a matter of vital interest to all true hearts.

The primary force that is making for equality is organized Christianity. Men may criticize the church as they will; the undeniable fact remains that the church in all the essential features of religion is bringing all men to a common level.

IT IS IMPORTANT.

To Know What You Are Taking When Using Catarrh Medicines.

Catarrh is the short route to consumption, and the importance of early and judicious treatment of catarrh, whether located in the head, throat or bronchial tubes, cannot be too strongly emphasized.

The list of catarrh cures is as long as the moral law and the forms in which they are administered, numerous and confusing, from sprays, inhalers, washes, ointments, and calves to powders, liquids, and tablets.

NEW YEAR'S EVE OBSERVANCE.

President Kimball, of Cycle Club, Arranging for Banquet and Watch-night Exercises.

The elaborate programme of entertainments which President George S. Kimball has arranged for the season at the home of the Carbondale Cycle club, comprehends an observance of the dying of the old year and the welcoming of the new-born, such as has never before marked the occasion.

There will be watch-night exercises and a banquet. The banquet will be the earliest in the order of the evening and aside from the epicurean delights there will be a flow of soul that will make the evening edifying and helpful. The speakers will be Carbondale's best and the happiest thoughts that they can most happily express can be expected to be offered. The names of the speakers promise this. They are: Hon. John F. Reynolds, Hon. James J. O'Neill, Dr. Wheeler, John W. Dimock, Dr. W. W. Fletcher, Attorney H. D. Carey, of Jersey, and Mr. Kimball.

The list of toasts is now being prepared by Mr. Kimball.

This event will be an interesting one, and the undertaking of it attests further the wise selection the club made when it bestowed the office of president on Mr. Kimball.

On Saturday night, commencing at 8:30, there will be music at the club. It will be provided by a splendid quartette from Wilkes-Barre, which will sing that same evening at the Mitchell fair.

After a half-hour's entertainment by the quartette, there will be selections of the Carbondale Cycle Club. I. Val Hollenbach, of this city, will also entertain.

LABOR TROUBLES.

Two Employes in D. & H. Shops Dismissed.

Two employes in the Delaware and Hudson blacksmith shops were dismissed yesterday by the foreman. Trouble may follow by reason of their discharge.

The employes claim that for the past few months the foreman has compelled them to work ten and one-half hours a day for ten hours' pay. This has caused much discussion among the men and several of them decided to refuse to start their fires in the morning any earlier than seven o'clock. It lacked but a few minutes of seven yesterday morning when the foreman approached the men and employees, John Sontag and James Shannon. They had not yet started their fires and the foreman ordered them to do so. The two men refused to obey his orders and were told that their services were no longer needed. Nothing was said to any of the other hands.

The two men claim that they have another grievance, respecting an increase in wages. They were promised a raise several months ago but as yet the expected has not arrived. It is feared that more men may be discharged today should they refuse to start work before seven o'clock.

Teachers to Be Paid.

The teachers of the city schools will receive their salaries tomorrow afternoon. This is not the usual time for the teachers to be paid, but the change was made to enable the instructors to make extra holiday purchases. The teachers appreciate the thoughtfulness that suggested the change.

A Welcome Visitor.

W. J. Silverstone, genial "Billy," manager of the Central theatre in Honesdale, was a welcome visitor to Carbondale yesterday. "Billy" has friends among the newspaper men of the town and took time to visit among them during his brief stay.

WATCH DOGS.

Ever on the Alert—Alive to Every Form of Oppression—Kept on Edges, Burdened Beyond Endurance, Nerves Give Out.

The machinery of a mill that grinds day and night has to shut down now and then for repairs. It is the same way with your nerves. Overwork, close application, our way of living bring about nerve waste that sets up symptoms of various kinds. It may be failing strength, weakness, languor, headache, sleeplessness, etc. Whatever it is, nerve force is lacking and the nervous system is suffering with Dr. A. W. Chase's Nerve Pills. A great many people in Scranton youth for this.

Among them is Mrs. Joseph Mitchell, of No. 916 Linden street, West Scranton, Pa., who says: "Dr. A. W. Chase's Nerve Pills are fine. I was all out of order, nervous, and could not sleep, weak and miserable. The kidneys were sluggish and the back lame. Nothing seemed to help me until I got a box of the nerve pills at Matthews Bros' drug store, No. 229 Lackawanna avenue. Since I took them I sleep well, don't jerk and talk. My nerves are steady. I feel strong, and the kidneys are working well again. I am more than pleased, and glad to recommend the medicine."

Dr. A. W. Chase's Nerve Pills are sold at 50c. a box at dealers, or Dr. A. W. Chase Medicine Co., Buffalo, N. Y. See that portrait and signature of A. W. Chase, M. D. are on every package.

TOOL HOUSE DESTROYED.

Blaze in D. & H. Yard Causes Flurry of Excitement.

The burning of a tool house in the Delaware and Hudson yard, about dusk last evening, attracted an excited crowd to that part of the town, as two alarms, the second calling out the Columbus, were sent in.

The shed was about 12x20 and was destroyed, together with what tools it contained.

The Mitchells and the Columbus both responded, as the building, which had more or less grease and oil about it, caused a great smoke, one that caused a little apprehension.

The Mitchell Fair.

The third night of the Mitchell hose company fair was another flattering one. The Archibald Hose company were the guests of the evening. The programme was highly enjoyable. Selections by a quartette from Providence were well received and the soloists were warmly applauded.

Davis, another member of the quartette, sang a tenor solo and a selection by the quartette concluded the programme. Dancing was then in order. POSTOFFICE LOITERERS.

Lads Who Fill the Lobby with Smoke Become a Nuisance.

The lobby of the postoffice is the meeting place these cold evenings of lads who find its warmth a comfortable shelter from the night's cold blasts.

They congregate in a good-sized group, and while they are orderly they indulge in one habit which makes them an intolerable nuisance. This is the smoking of cigarettes, which they vigorously consume until the air is heavy and fumes are wafting to those who have not cultivated a taste for the nicely rolled smokes. The circumstance of there being no transom for the escape of the tobacco fumes aggravates the trouble created by the generous indulgence of the lads' appetite for this kind of smoking.
