Our graded school closed today for the holiday vacation. Good news has come from Thompson, from the authorities who have the Free Methodist camp meeting in charge. They have decided to close the gates on the Sabbath, by a unanimous vote. This action will be taken as an offering for good by every good citizen, and those interested in the salvation of men will take heart in that a great stumbling block has been removed.

Manley M. Latham, the young man blown from his engine in the Erie yard at Elmira, some time since, is with his parents now and is being congratulated by his townsmen, young and old. He bids fair to come out of it without injury or scar, but he is not in a hurry for another like experience.

H. Crozier and Rev. P. R. Tower drove over from Connor yesterday to see Rev. A. G. Oliver, pastor of the Methodist Episcopal church there, who had run a runaway last week. They found him sitting up very cautiously, because of two broken ribs and several severe bruises, caused by being thrown from his carriage, which was no fault of his nor of his horse. Most horses get out of the way when the harness gives out and lets the wagon onto them, and most mortals, in cloth or otherwise, come to the ground after being tossed in the air by the rebound of a carriage plunging over a modern waterbar on a mountain road. Mrs. Oliver, true to her wifely instincts, followed her husband's gyrations on the ground and sustained serious, bruises. Their many friends will be glad to hear that they are doing well.

The pupils of the graded school having the highest average percentage to their monthly examinations this week were Miss Grace E. Tower, 96; Master Henry Crozier, 93, and Miss Eliza Galter, 91.

THE MARKETS

Wall Street Review.

New York, Dec. 20.—The stock market showed its largest relief today from the disturbing effects of the recent evictions of American and Copper. There were further indications that stock for a short time after the opening, but it settled down into a condition of quiet. It was not long seen for many weeks that investors had been so quiet. The market was at 88, and the net gain was a point. The statement issued by the directors might indicate that the market is still in a state of equilibrium.

Very fortunate for the residents of Second street that the trouble was discovered before the fire had gained any headway as the scarcity of water and quite high wind would have caused the destruction of a larger part of the town.

Our roads were badly washed during the recent heavy rains and the supervision has been kept quite busy making necessary repairs.

E. B. Mitchell is recovering after a week's illness.

The newly elected officers for the AMity club are: President, H. E. Bassett; vice-president, N. B. Spencer; secretary, Frank Frailey; financial secretary, John H. Smith; treasurer, William Katz. The membership numbers seventy.

Honesdale does not need a citizens' alliance, but a secret society of far more importance has been organized which may be called the "Wayne Club" or "100 Society." It has already quite a large membership. Their secrets are not divulged to the public, further than that their object is to distribute their benefits for the purpose of bringing light into the homes of many.
