Pranks of College Boys.

Columbia university students have a lot of room to knock around in, without disturbing neighbors, up on the mostly unimproved region of Morningside Heights, so that their pranks and practical jokes attract less attention than they used to do when the university was further downtown. But passengers who use the Amster-dam avenue cats to carry them to and from Washington Heights frequently get a taste of the students' hilarity as they pass the university.

Not long ago a young fellow hearded a croxided open car at One Hundred and Twentieth street. At One Hundred and Sixteenth street another got on. They both sat in the smokers' seats, in which many women had also taken seats, as too much the custom among the fair sex. Neither man made any sign of recognition to the other Evidently they were strangers. One drew fro his pocket a cigar and began to light it. "Don't you dare to smoke here, sir!" ex-claimed the other, assuming a most truculent

A Concy Island excursion steamer was leaving New York with but few passengers aboard. The boat had just east off when a stout man with a very red face rushed down the pier, and, flour-ishing his stick, shouted: "Hey, captain! Put back-back her quick, Here's a large party vants to go,"

The captain was at first decisive, but finally houted from the pilot-house; "How large is he party?" For an instant the fat man hesitated, then he celled back: "Between sixty and seventy."

As soon as the captain heard this number he tantly ordered the steamer back and made fast again. The fat man waddled across the ging plank, and, picking cut a nice deck seat, fanned himself with his straw hat. Meanwhile the capain and his crew waited for the party to ive. After waiting five minutes and more the captain turned impatiently toward the stout man and asked: "Where's your party between sixty and seventy? This boat can't wait all day

"Oh, that's all right," replied the fat passenger with a bland smile; "I'm the party; saxly ive today, sir," The captain's face grew redder even than the passenger's as he furiously rang the bell to steam shead, but the fat man at once became the zero of the boat.—Collier's Weekly,

ORDINANCES PASSED SECOND READING.

Amendments Agreed Upon at the when her streets will be given away Conference Were Adopted-Principle Ones Provide for a Graduated Tax on Gross Receipts and for for Grading Damages by the Com-Considered.

Peace, harmony and good will prevailed at last night's meeting of the common council during the consideration of the street railway franchise ordinances in striking contrast to the fierce wrangling and harsh debate which characterized their consideration

two weeks before.

Amendments which had been agreed upon by the gentlemen who are promoting the new railroad companies and the members of the special committee appointed by the board of trade were presented and adopted without opposition. The ordinances awarding franchises to the West End and South Side Street railway companies were passed unanimously on second reading while action on the North End ordinance was held over until the next meeting, after the amendments had been adopted, in deference to the wishes of certain interests opposing its passage.

The amendments agreed upon at the conferences held during the past two weeks were presented by Messrs. Robathan and Calpin, respectively, and were substantially as follows:

Taxing the company's gross receipts one per cent for the years 1907-8; two per cent for the two years following and three per cent for every year thereafter, it being expressly stipulated that the company agrees to pay five per cent with the other company, providing the license tax ordinance is declared legal by the courts.

Attorney R. J. Bourke, representing the bishop and the rector of the cathedral, urged the councils not to permit the new company to run its tracks out Wyoming avenue. The cathedral property, St. Thomas' college and St. Cecelia's academy represented \$1,250,000 in value, he said, and such interests were deserving of more than passing consideration at the hands of councils. He claimed that not only would the running of more cars out that thoroughfare be of great disturbance to the services in the cathedral and to the study of the pupils in the two educational institutions mentioned but

that it would endanger the life and limbs of the thousands of men, women and children attending these places. Nearly 10,000 people, he said, attended the cathedral at various hours on Sunday and the running of cars at five minutes intervals as contemplated by the new company would be a constant source of danger and of peril. He also pleaded to have Wyoming avenue left free and open all the way out for a driveway. Mr. Bourke was followed by Attorney

T. P. Hoban, a brother of the bishop, who spoke along similar lines, and urged the same reasons as did Mr. Burke Attorney John P. Quinnan, representing the International Correspondence schools, made the same argument against the running of cars out Wyoming avenue which he made before the railway's committee. He told of the tremendous business done by the Providing that the company shall do schools and of their importance as a no grading on any street until all the contributing factor to Scranton's indusproperty owners on said street shall trial development. The ordinance awarding a franchise to the Consumers' Gas company was called up and passed on first reading. The amendments offered by the light and water committee were read and adopted when the ordinance was called up for second reading.

EIGHTY CENT GAS.

Mr. Keller offered an amendment providing that the maximum price to be charged for gas shall be eighty cents per thousand feet. This amend ment provoked much opposition.

Mr. Robathan declared it to be alto gether wrong to place such a restriction upon the company and he was supported in this position by Mr. Alworth, who thought the adoption of the amendment would have the effect of searing the new company out of business.

Mr. Keller said that if the amendment was not adopted, he failed to see in what possible way the city would benefitted and what return would be had for the tearing up of the streets. If the new company started in business, there would be such a rivairy between it and the old company, he argued, that the price of gar would be cut so low that a consolidation of both companies would be an inevitable result. There would then be no competition and no advantage accruing to the taxpayers.

Mr. Paine also championed the eighty cent price limit and declared that gas could be made and sold at a profit for much less than this. He said that the gas company in San Francisco has just entered into a contract to furnish gas for thirty-eight cents a thousand \$24.916. Harry L. Frederick, of 1217 Blair avetue, was shot and perhaps fatally wounded early yesterday morning by an unknown Italian who, with a friend, was endeavoring to force his way into disreputable resort at 1134 Providence road, in which Frederick was stopping over night.

The resort in question is kept by Mrs. Alice Williams and Frederick was enamoured of one of the inmates of the place, Nellie Allen by name. About 4 o'clock yesterday morning two Italians knocked at the door of the house and sought admittance. The Allen woman went to the door and when she saw who sought admittance told the two men that she would not let them in, They pushed the door open upon

hearing her reply and sought to force themselves by her into the house She screamed and Frederick came rushing to her assistance from a back room. He had a beer bottle in his hand and threw it at one of the men, striking him in the head.

The Italian uttered an angry cry and pulling his revolver, fired three shots. The first two were fired into the air and struck the ceiling. The last one was aimed direct at Frederick and struck him in the groin. He fell gasping to the floor and the two Italians ran down the road,

The injured man was taken to the Lackawanna hospital and later to the Scranton Private hospital at which later institution the bullet was removed yesterday afternoon. It had passed almost entirely through the body and was found lodged in the muscles of the back. The liver and parts of the small intestines were pierced and the injured man was reported last night to be in a very serious condition. Detective Lona Day and the North

CREED REVISION COMMITTEES' REPORT

down the guilty man.

Statement Issued Through the Secretary, Rev. William Henry Roberts.

By Exclusive Wire from The Associated Press. Pittsburg, Dec. 26.-The Presbyterian creed revision committee has issued the following statement through its secretary, the Rev. Dr. William Henry Roberts: "For the information of the church

I am authorized to say that the committee on credal revision met at Washington, D. C., on Dec. 4, and remained in session until Dec. 14. The work accomplished at the meeting consists of a 'brief statement of the reformed faith,' in untechnical terms and also a declaratory statement. The statement of the reformed faith is contained in sixteen articles and the declaratory statement covers chapter iii, chapter x, section 3; chapter xxv. section 6, of the confession of faith as specified in the assembly's instructions to the committee; and also additional statement as to the 'gospel of the Holy Spirit.' The work thus far done is altogether tentative, is not for publication, and is to be considered at another meeting of the committee, to be held in Philadelphia, Feb. 5, 1902. The committee also appointed a sub-committee of five, consisting of F. W. C. Humphrey, Doctors McKibbin, Fisher, Niccolls and Moffat, to prepare a tentative revision of the confession of faith on the several points contained in the instructions of the committee above named, the same to be considered at the February meeting, along

with the declaratory statement." It is generally understood by the Presbyterian ministers in this city that the plan of the committee is to report the declaratory statement to the next general assembly and sidetrack the revision movement until the assembly of 1903. The new creed men on the committee are aggressive and believe that the plan of campaign will best promote their desires and relief at once to the church.

REVENUE COLLECTIONS.

Total Receipts for the Year Ending November, 1901.

ly Exclusive Wire from The Associated Press Washington, Dec. 26.-The monthly statement of the collections of internal revenue show that the total collections for November, 1901, were \$23,178,951, decrease as compared with November 1900, of \$2,165,330.

The collections from the several sources of revenue are given as follows: Spirits, \$12,080,812, increase, \$1.- broidery and Lace. Tobacco, \$4,264,700, decrease \$640,366. Fermented liquors, \$4,973.183. decrease \$474.589. Oleomargarine, \$212, \$14, decrease \$25,813. Special taxes not dsewhere enumerated, \$58,666, increase

crease \$2,379,965. For the five months of the present fiscal year, the total receipts were \$120,654,395, a decrease as compared with the corresponding period in 1900 of \$10,625,392. This decrease is wholly due to the decrease in the rate of taxation under the revenue reduction bill passed at the last session of congress.
