DITSTON.

Special to the Scranton Tribune.

Pittston, Jan. 7.—The smallpox epidemic, after circulating in the towns on either side of this vicinity, has at last reached here, and two well-developed cases have been reported, one in Pittston city and the other in West Pittston. The cases were reported to the health board of the respective places this morning. In Pittston the victim is Ruth Morgan, the 14-year-old daughter of Mr. and Mrs. George Morgan, who reside at Frothingham and Tompkins streets. The child first became sick on Sunday, complaining of a sore throat. Dr. Jennings was called in last evening and was immediately suspicious of smallpox, and called in Dr. Newth for consultation. This morning the case was reported to the board of health, and steps immediately taken to that body to prevent its spread. The entire block, including about eight houses, have been quarantined and guards placed on duty. Residents of these houses are not permitted to pass in or out of their homes to the street, and all pedestrian and wagon traffic in that vicinity is prohibited. A special meeting of the health board has been called, and a physician will be engaged to look after the case. John Allen, who lives on Exeter street, near the Clear Spring colliery, is the patient on the West Side. Dr. Troxell was called in to attend him this morning, and diagnosed the case as smallpox, although he says he will not be able to state positively until Wednesday morning. It is thought the disease was brought to this place through the medium of one of the nurses employed at Plymouth—Mrs. Williams, of Luzerne avenue, West Pittston. Mrs. Williams, since attending the cases at Plymouth, has traveled back and forth frequently, and it is thought she has brought it to the Morgan house. A relative and having visited there recently. A child of Mr. and Mrs. Chester Quinn, of Third street, West Pittston, is quite ill with diphtheria. Dr. Underwood administered anti-toxin today. While accompanying the militia to Washington to participate in the inaugural parade recently, Daniel McAdade, colored coachman for J. Hughes Blackman, located the whereabouts of his parents, whom he had lost trace of for over twenty-five years. Mr. McAdade left today to visit them. The Pittston ice company is preparing to cut ten-inch ice on its ponds at Moosic.

Joseph Kostoski, a miner, was severely burned by an explosion in the Twin shaft this morning. While at work in No. 8 colliery yesterday, Patrick Marion, of Market street, a miner, was slightly injured about the head and arms by a fall of rock. William Bannon, a 16-year-old driver boy in the Twin shaft, was seriously injured yesterday by being dragged beneath the wheels of a mine car, under which he had fallen.

The lake yields a fine quality of ice. Mrs. Caroline Bingham (nee Benson), one of Jackson's most noble women, suffered a paralytic stroke early yesterday morning. She is over 80 years of age, and it is doubtful about her rallying. There was a lively runaway in town Saturday. As Mr. Conrad, driving the spirited team of H. S. Brown, of Jackson, came down from the depot and turned into Jackson street, the sleigh careened and the box, with contents, was landed on the walk in front of C. R. King's store. The team ran on through town and came upon W. E. Babcock, of Jackson, who, with a lady, was driving toward home in a cutter. Somehow, when the team hit upon their cutter, one horse fell. Mr. Babcock sustained bruises and two ribs were broken. The lady was somewhat bruised and frightened, and the cutter was demolished. J. N. Monroe, who has been the butchermaker at the creamery the past year, has been engaged for another year. Fred Clinton, of Jackson, is said to be suffering with pneumonia. John Chandler and W. P. Mrs. Jerome Sterling, who has been leaving his horse barn door open

THE MARKETS.

Wall Street Review.

New York, Jan. 7.—The stock exchange became decidedly reactionary today. There was some active trading, but the market was yesterday between the factions working for an advance and the reactionists. United States steel stocks led the rally, but the price of the bulls and were dealt in to an enormous extent. The rest of the market kept slipping away, however, and the momentum of the advanced grade. The bulls were alert to avail themselves of any opportunity of creating any speculative strength by impressing a favorable view on the market. No such effective factor came into play, however, and the market closed at the New York Central dividend yesterday, and the market closed active and easy at about the same level as yesterday. The reaction in sugar in the midst of the season which carried it up 4 points. The movement was apparently based on the falling point for the entry of Cuban sugar and the entry of Cuban sugar free of duty. Amalgamated Copper was active and advanced 1/2 point. The market for London. Both of these stocks yielded, however, before the close. There was a rather palpable reaction in the commodities market into the industrial, while the railroads were held to take profit. The United States Steel stocks were made the standard on the strength of the general expectation that a very favorable showing of earnings would be made at the meeting of the directors, which was not held, however, until the market had closed. The reaction in commodities was practically untroubled, and in the preferred 5's. When they began to slip, in common with the rest of the market, the reaction was not very marked. The stocks of the various express companies made notable advances, reaching 10 points in American Express and 4 1/2 in United States Express with no other explanation than the fact that extra dividend distributions and very high quotations. The market for gold and silver seemed to be based on general considerations of distrust of the money outlook and of the present level of prices. Total sales today, \$1,200,000. Government bonds were all unchanged on the last call.
