the breaker blew up, making a noise that resounded through the mountain gap and causing a little fright and apprehension among the occupants of the scattered houses along the country road. Considerable destruction to the breaker property was the consequence of the explosion, but happily no one was injured. One man was struck with a board, but did not sustain any injury. Luckily there were no wagons being loaded at the time, as is the rule and no one was in proximity to the scattering boiler.

The breaker was idle yesterday, but Mr. Murrin is arranging for a new engine and expects that the Interruption will be only brief.

A Good Ice Yield.

"THE PAIN FELT LIKE A KNIFE PIERCING MY LUNGS."

Coughing until the veins in the forehead seem to swell to the bursting point, the eyes seem bulging from their sockets and every muscle of the body seems knotted in the struggle against the paroxysm. Then, falling back in the chair, the sufferer gasps for air and feels the pain like a knife piercing the lungs.

The most pathetic struggle ever made against disease is when disease attacks the lungs. Other diseases may cause as much suffering, but the suffering is not so palpable nor so pitiful as this struggle, from which doctors so often stand aloof, declaring that there is no help and no cure. Because medical skill has so often proven helpless when the lungs are diseased, there is a disposition in many of those who are suffering from pulmonary troubles to accept the fatal termination of consumption as a foregone conclusion. The sufferer loses heart and gives up hope, and can hardly be induced to try new means of cure. This is the worst possible attitude of mind for any sick person, and it is entirely unjustified by facts. In the examinations of the lungs of persons who have died from various causes, physicians have found time and again the healed scars of tuberculosis, proving that at one time tubercle had attacked the lungs and the disease had been cured. That is evidence enough that the hopeless view of lung diseases is altogether wrong. Side by side with that fact put another yet more important: There are thousands of people living to-day in the full enjoyment of health and actively engaged in the duties of life, who declare that they have been perfectly and permanently cured of lung disease by the use of Dr. Pierce's Golden Medical Discovery. They had all the symptoms of consumption: cough, bleeding of the lungs, nightsweats, emaciation, weakness, etc. In many cases the local doctor, and sometimes two or three doctors, declared the disease to be consumption, and very often the sufferer was pronounced incurable. Yet these people were perfectly and permanently cured by the use of "Golden Medical Discovery." Did they really have consumption? The doctors said so. The symptoms said so. But in any case they had obstinate coughs and bleeding lungs; they were emaciated and weak, and were cured by "Golden Medical Discovery."

"I was very sick indeed," writes Mrs. Mollie Jacobs, of Felton, Kent Co., Delaware, "and our family doctor said I had consumption. I thought I must die soon, for I felt so awful bad. Had a bad cough, spit blood, was very short of breath; in fact, could hardly get my breath at all sometimes. I had pains in my chest and right lung, also had dyspepsis. Before I took your 'Golden Medical Discovery' and 'Pleasant Pellets,' I was so weak I could not sweep a room, and now I can do a small washing. I worked in the canning factory this fall, and I feel like a new person. I believe that the Lord and your medicines have saved my life. I was sick over two years. I took thirteen bottles of the 'Golden Medical Discovery' and four vials of the Pierce's Pellets."

Can man or woman read the above letter and not feel that there is hope of cure for lung diseases in the use of Dr. Pierce's Golden Medical Discovery? If Mrs. Jacobs' cure were a solitary case it would still be a hopeful augury for any similar sufferer. But so far from being a solitary case, it is only one of thousands, and only one of the moderate cases, too. There are cures to the credit of "Golden Medical Discovery" which would be incredible if it were not for the fact that the persons cured are living witnesses to the wonderful curative powers of this medicine. For example, there's Mr. Cornelius McCawley, of Leechburg, Armstrong Co., Pa., who was given up by doctors and friends to die of consumption. He had eighty-one hemorrhages-"sometimes spitting up five pints of blood at one time." It took forty-two bottles of "Golden Medical Discovery" to cure him, but he was cured and is to-day sound and well. That's an extreme case and shows what has been done by the use of the "Discovery" when the conditions were most hopeless.

"Some two years ago I was almost a helpless victim to that dreaded disease—consumption," writes Mr. Charles Fross, P. M., of Sitka, White Co., Indiana. "I was confined to my room for several months; my friends and neighbors had given up all hope of my recovery, until one day a friend advised me to take Dr. Pierce's Golden Medical Discovery, and after I had taken the contents of the second bottle I began to improve. After I had taken six bottles I was, I honestly believe, delivered from the grave and entirely cured. I am now a strong and hearty man. If you want to use my name in recommending your wonderful medicine to the world, you may.
