THE MARKETS

Wall Street Leview.

Wall Street Review.

New York, Jan, 22.—The professional operators in the market made an unward turn of prices again today. The dullness of the market and the congestion of the scanty dealings into a few stocks clearly reflected the continued indifference of the outside public to the securities market and the abstention of the great banking interests which made the great bull markets of last year from any hand in the trading. Such narrow price movement as there was, was pretty much wiped out in the closing dealings, and many stocks closed below last night. Metropolitan Street Railway was the central figure and moved up late in the day an extreme 3% on a volume of dealings very unusual for that stock. The gain on the day was 254. The stock of other New York public utilities did not fully sympathize, and reacted sharply at the last. Advances of 5 points each in the Chicago and Northwestern stocks and 3% in Lackawanna were accompanied by rumors of a coming distribution of scrip. Sugar and People's Gas gained nearly a point at one time. This about exhausted the list of advances worthy of mention. The rain and snow in the winter wheat belt and the promised benefit to the crop were used by the traders as arguments for advancing railroad stocks. There was recently some speculation in Erie shares based on the assumption that the dividend on the first as arguments for advancing ratiroad glocks. There was recently some speculation in Erie shares based on the assumption that the dividend on the first preferred was to be advanced to 4 per cent. but the belief has been general for some weeks that the rate would not be changed, as proved to be the case today, with little effect on the slocks. The market closed dull and irregular. Total sales today, \$17,000 shares.

The market closed dull and irregular. Total sales today, \$17,000 shares.

The railroad bond market broadened out today, bringing forward many dormant mortgages into activity. The dealings in some of these, notably in the Rock Island 4s and the Central of Georgia income bonds and Consolidated 5's were very leavy. There were advances ranging from 1 to 2½ in the Rock Islands 6's and 4's, the Oregon Short Line 6's, St. Louis and San Francisco 0's, New Jersey Central 5's, Peorla and Eastern incomes, Central of Georgia 1st, 2d and 3d incomes, the Chicago and Pacific division 6's of the St. Paul and Texas and Pacific 1st. Total sales, par value, \$4,620,000. U. S. bonds were all unchanged on the last call.
