THE MARKETS

Wall Street Review.

Wall Street Review.

New York, Jan. 25.—A successful turn was made against the sherts in today's stock morket. How far the day's demand for stocks represented new lauring from outside sources can only be conjectured. Conditions which were made the ground for seiling yesterday remained unaltered today, without affecting the strong tendency toward recovery. The weakness is the grain markets, which yesterday was made the basis of rumors of financial troubles, was turned to a buil argument today as showing good conditions for the winter wheat crop. The formulation by the United Mine Workers of last demands for higher wages, which depressed the coalers yesterday, was ignored today. The report of December decreased earings of the Eric and the Reading system were equility gorord. These stocks were quite conspicuous for activity and strength. It is thought that part of the recent selling of the Coalers has been anticipation of this showing and that today's buying was short covering. These vagaries of sentimeat indicate the professional character of the trading. The most important influence in the advance was the stimulating effect of the strong recovery of three more points in Amalgamated Copper. The dealings in this stock were almost twice as great as those in any other one stock. The advance in Amalgamated Copper was taken by speculators to indicate a sentiment in favor of an advance by the Standard Oil party, which has long been supposed to favor quietude in speculation. Coupled with a published uiterance of J. P. Morgan, expressing confidence in the maintenance of the country's prosperity the effect was to give speculators the impression that the great financial interests were again in accord in favoring high prices for stock. The upward movement broadened and gained force up to the close which was at about the best and strong. The reported agreement to maintain rates among western railroads and meat packers was a strengthening in fluence. As an incident of the advance there was a renewal of many old rumors of cons school is in a flourishing condition under Pro-fessor Fryer, who is the right man in the right place.
