Wall Street Review.

New York, Jan. 29.—There were a revulsion of speculative sentiment in the stock market today and the movement to sell gathered force up to the close which was active and weak. Generally speaking yesteriay's gains were wiped out. The movement had no other obvious cause than the desire to take profit on the part of the professional traders, who had bought yesterday or carlier. It took only about half an hour of trading after the opening to demonstrate that the slightly increased demand attracted by yesterday's sharp advances was being so fully fed by profit taking sales as to repress any tendency to advance beyond small fractions. The contingent of bear traders was quick to take advantage of this situation and to offer down prices, taking the market away from the sellers. The charaster of the whole market thereupon relapsed into the rut of dullness and professionalism. The speculation felt acutely the lack of the atimus claims of the continued easily the leader of the market in point of scittity and made an initial advance of a fraction. FUNSTON AT KANSAS CITY. The Philippines Campaigner Suffers from Sinus of the Appendix.

By Exclusive Wire from The Associated Press. Kansas City, Mo., Jan. 29 .- General Frederick Funston, who arrived here yesterday from San Francisco, to undergo medical treatment, was in the hands of his physician for an hour today. Later the physician stated:

"General Funston is suffering from a sinus in the appendix, an after result of an operation performed in the Philippines for appendicitis. "I have given the wound some treat-

ment, and it may be that a formal operation will not be necessary.' "My leave of absence expires about March 10," said General Funston today, "and unless I receive further orders I will sail for the Philippines about that date. I am in hopes my three years' service in the Philippines will result in an order permitting me to remain in the United States for a time, perhaps in command of one of the departments here."
