## THE MARKETS

#### Wall Street Review.

New York, Feb. 5.-Today's stock market was a dull affair again, in spite of spasmodic efforts by professional traders and speculative pools to waken a general movement in the market. By the time they succeeded in moving prices at one point, depression would develop in another, and in consequence the dull movement was irregular all day. Striking movement in closely held high priced investment stocks continued a figure. T. significance of these movements was not disclosed although traders sought to make the most of them for their sympathetic effect on the general list. These apparently sensational movements of a very small volume of trading are a natura onsequence where the stock of a company closely held for the purposes of control and centralized in the hands of a few conservative and powerful capitalists for investment, who are quite uninfluenced by the course of prices in the open markets. Among the stocks so moving day were the Chicago and Northwesterns, American Express, United States Express and Lacka wanna. Nashville, Chattanooga, and St. Louis, which advanced 10½ yesterday, reacted 3½ to day, but close with a net loss of only 2. The recent sensational upward movement in Lacka-wanna is associated with the rumora of control of that road in the interest of an outlet fo the Wabash system. The Wabash stocks were very firm today in the same connection.
