

yesterday morning and were still out at adjourning time. Ignotz Konocko, of Keyser Valley, was returned not guilty of assault and battery on Walter Shemunski. The costs were divided.

John Hall escaped trial on the charge of criminally assaulting the 14-year-old daughter of William Hawkins, of Priceburg, the girl refusing to testify. A verdict of not guilty was directed by Judge Edwards in the case in which

Peter Castallano, of Dunmore, was charged with criminal assault on the 13-year-old daughter of his neighbor, Vincenzio Dibiaso. The girl, with another of her own age, was playing about an excavation where the defendant was at work, near Nay Aug tunnel. They took his coat and hid it. When he could not find it, he playfully took hold of them, threw one of them down, threw the other on top of her, and declared he would not let them up until they told him where the coat was hidden. The father of the Dibiaso girl happened along and as a result Costallano was arrested.

The story as told by the girls convinced Judge Edwards that there was no crime attempted, and he directed a verdict of not guilty to be entered. Assistant District Attorney Thomas advised the court that the commonwealth did not wish to press for a conviction. Costallano was married to the prettiest girl in the Italian settlement in Dunmore a week prior to his arrest. VERDICT OF NOT GUILTY.

A verdict of not guilty was taken in the case of Roland Bellis, charged by Robert Staff with false pretense. was settled out of court. A verdict of not guilty was also taken in the case in which Joseph Davis charged Howell Thomas with assault and battery. The defendant recently enlisted in the army. The same disposition was made of the case in which Peter Gaverick was charged with receiving a cow which William Terkiscavage is alleged to have stolen from Michael McDonough. There was no evidence to connect Gaverick with the crime.

nission Merchant Joseph J. Brune by alsely representing that his brother had agreed to back him up. A jury was out at adjourning time

young men have done all the electrical work and will continue to do so. The superintendent has planned everything himself, and when it is borne in mind that every device and appliance is of special design, it will be understood what an achievement has been that of this young superinterdent and his corps of young assistanta. They have done the electrical work in the most complete electrical plant in this country, and ing regarding the new catarrh cure,

have had many opportunities for the display o original genius. "After suffering from catarrh of the The men who control the industry did not come head, throat and stomach for several years, I heard of Stuart's Catarrh Buffalo because they were asked to come, hey had known of the advantages of Buffalo Incy before ther attention was called to them and had practically decided to locate here. The double advantage of a fine receiving point and a support distributing point appealed forcefully to the men whose plant at Scranton was constantly Tablets quite accidently and like every thing else I immediately bought a package and was decidely surprised at the immediate relief it afforded me and the men whose plant at Scranton was constantly proving more inadequate to the business. It was, in a word, decided to erect the finest and largest plant in the country, and Stony Point was se-lected as the ideal spot, especially so because of the new breakwater which was then in process of construction. The announcement caused as much glocmines in Scranton as it did rejolcing in Buffale; for, notwithstanding that the Scranton establishment was less then a more the second still more to find a complete cure after establishment was less than a quarter the size of the plant now building, it was the chief industry f the Pennsylvania city and had been for many

> ave taken up homes in Buffalo. The entire en-tineering corps moved here a long time ago; he various foremen, the machine shop, carpenter shop and roll shop men, in short all the regu-lar employes who could be used during the construction period, are now here, and the others will come as soon as places are created for them, Most of them have brought their families and are living in South Buffalo, in Limestone, in West Seneca, on all the roads which form a network in the town of West Seneca.

National and District President of

in the Metropolis Next Week-Dis-

Coal Found at Milnesville.

INDUSTRIAL

It is understood that President Mitchell was given assurance a year ugo that a conference will be held this "ear, provided he succeeded in sup-pressing the petty strikes which from a. m., Hoboken, Stevens; S. a. m., F. L. Rogers; time to time have been a source of 9 a. m., Hoboken, W. J. Mosier; 10 a. m., W. treat annoyance to the operators. Invitations have been sent to the operators from the national headquarters of the United Mine Workers of America in Indianapolis, but the place and date of the expected conference has not yet been made public.

Arranging for a Conference.

'A meeting of the executive board of the United Mine Workers of Amer-Ica has been called for Monday in this vity, when the existing trouble at the lottingham colliery will be discussed nd acted upon.

President T. D. Nichols stated yesterday that work has been resumed at the Nottingham at the solicitation of the officials and that he expects the matter will be satisfactorily adjusted. The trouble arose several days ago, when two of the mine employes were discharged for taking up working cards among the men. The colliery is operated by the Lehigh and Wilkes-Barre Coal company.

Hampton Colliery Still Idle.

The officials of the United Mine Workers of America have directed the driver boys employed in the Hampton mine to resume work and obey the orwhich caused them to suspend operations will be taken up for adjustment by the executive committee board.

The colliery is now shut down, and some needed repairs are being made, a business trip to New York and Philaduring the enforced idleness. Just when operations will be resumed cannot now stated, but in all probability work will be commenced there again next week.

Another Vein Located.

The mines of Milnesville, which for many years have been regarded by the coal workers as the best on this mountain to work in, but which seemed to have seen their last, if not their best days for active operations, are once again in possession of a coal vein which will increase the number of employes there and again enable the operators to send out large shipments of the Mammoth vein. The interior workings of the mine proper, like the excavations on the surface, have been very exten-

Doing Good.

A great deal of good is being done in all parts of the country by Chamberlain's Cough Remedy. The most flattering testimonials have been received, giving accounts of its good work, of aggravating and persistent coughs that have yielded to its soothing effects, of severe colds that have been broken up by its use, of threatened attacks for trading stamps. of pneumonia that have been warded off and dangerous cases of croup that 28 had postoffice boxes in the different It has cured. The great popularity and extensive sale of this preparation can acquainted with its goods qualities, distributed, Use it when you have need of such a remedy and it will do you good, For sale by all druggists,

which is conducted by his son, Louis In April, 1901, Mr. Weintrobe, of New York, had a claim against him for about \$100. He negotiated a settlement

of the claim on the basis of tifty cents on the dollar. Attoney Okell was engaged by him to consummate the settle- 000 for the number of store keepers, servants, nent. May 11, 1901, Mr. Okell went be- and others who would find employment as a refore Alderman Kasson and represent-ing himself to be the attorney for Wein-So South Buffalo is destined to become a city ng himself to be the attorney for Weinrobe, began an action on the claim igainst Freedman. When judgment was directed against

When judgment was directed against Freedman his son went to Mr. Okell to nquire what the action meant, and was told that it was merely a part of the plant will not be the only industry. So far as procedure necessary to effect a settle- is known there are at the present time no plans ment and that it would also be necessary for him to permit judgment to enter and to enter a stay of execution. Attorney Okell represented that Weintrobe insisted on this manner of arranging the settlement. Freedman allowed judgment to enter without attempting a defense, and entered a stay of execution. To enter a stay of exe-

cution it was necessary for Freedman to give security for the judgment, interest and costs. August 5, 1901, Attorney Okell pur-

chased the claim from Weintrobe and had it assigned to "R. Williams." Execution was had on the note. The stay of execution expired yesterday. Mr. Freedman now asks that an in-

junction issue restraining Attorney Okell and "R. Williams" from collecting on the judgment or transferring it. and compel them to accept \$50 and cancel the judgment. Court granted a rule to show why an was made returnable next Wednesday.

Asking for a New Trial.

Attorney John J. Murphy yesterday applied to Judge Weand for a new convicted Wednesday of stealing \$3 from his room-mate. It is alleged that the charge of the judge was partial and that he omitted to charge the jury on the matter of

reasonable doubt.

Election Appointments. Peter Korba was yesterday appointed inority inspector in the Second ward of Mayfield, vice Andro Ivanok, who has moved from the ward. M. J. McGowan was appointed inspector of election in Throop borough, vice Stephen McDonald, who is a candidate for justice of the peace.

Disagrees with Former Decisions. Judge A. A. Vosburg yesterday hand-

ed down his report as auditing judge in the estate of Letty Ann Richard, deceased. The claims of Abel Tonkins are partly allowed, but a portion are disallowed, as being barred by the statute of limitations, Judge Vosburg holds that this statute can now be pleaded in the orphans' court, notwithstanding some old decisions to the

contrary. The claim allowed Mr. Tonkins is for the sale of a house which the decedant was to have "her own time" to pay for,

the circumstances of the transaction, this money was not due for six years,

the ships. The facilities for handling the material will be absolutely perfect; they will be just what the owners of all steel mills would like to have. Of course all the output will not be shipped by People's Street Railway, General lake; the great bulk of it will be hauled over the company's own road to the junction of other lines and then distributed over the country. The company has a road of its own seven miles long and on the line of which are seven overhead and ca the line of which are seven overhead bridges. When the equipment is complete, elec-trical locountives will be

trical locomotives will be used to replace the strain engines now employed.

Electricity will, in fact, be used to a much greater extent than it is used in any other steel plant in this country, or, for that matter, in the world. The towering gantries which slip along on rails, set three or four rods apart, are manipulated entirely by electricity. Power is trans-mitted by cables which are stretched in conduits beside the main rail. These gantries, or cranes, as they are more commonly known, are employe to elevate and move massive pieces of machinery

Eventually they will be used also to lift rails, One of the biggest of these devices lifts 30 as gracefully as a man lifts a pound.

the shops which is now up is run with electricity. In the carpenter shop, the planers, the table saws and all the other appliances are operated with motors; likewise are the lathes in the ma-chine shop, the holler shop, in brief in all the factory buildings, run by electricity. The uower is transmitted in underground conduits and is conveyed to various parts of the structures with all the care of concealment observed in the finest

kind of electrical work. Nothing is poorly done athing is done in a manner which can elicit and thing but the wonderment of laymen and th highest admiration of experts. Effectricity is been and will be employed wherever it is adva-
