The Great Winter Circus.

Don't make a mistake about this. Don't think for a moment that it is an amateur affair. It is not. The only feature filled by amateurs is the big spectacular march of twenty men and a band of the circus. All the other artists, of which there are not less than one hundred, are professional men and women who are connected in the summer with the biggest circuses on the road, athletes, gymnasts, riders, and the performance is guaranteed to be one of the best ever seen in this town.

The Satornomo Japanese troupe are real Japanese, the company appearing in this city for the first time, a family of nine men, women and children and are the best artists in their line of business that ever came to this country.

The Satornomo troupe are well known throughout the United States as the most intrepid and daring performers of the flying trapeze before the public. The Tord Judge family of acrobats are second to none in their line and the three Fortuna brothers, grotesque eccentric but performers of artists of great ability. There are many other acts too numerous to mention but every one is a pleasing and of a high class order. If any one hesitates attending the show for fear that it is an amateur circus let them banish that idea at once, for the amateur portion of it is only in the management, being for the benefit of the latter national Correspondence Schools' association who have undertaken this method to raise money for their benevolent ends.
