## IN ALDERMAN'S COURT.

### The Bonnetts and the McNulty's in the Public Prints Again.

There were two families in Alderman Jones' court last night, who are familiar figures in the alderman's courts of the town. They were the Bonnetts, of Belmont, and the McNulty's, of the West Side.

"Mike" Bonnett was on hand as the prosecutor of Sam Cost. The charge was assault and battery. It appears that Cost's son went into Bonnett's store, on Belmont street, and according to young Bonnett, who was in charge, began to swipe candy. Bonnett, Jr., stopped him, and Cost, who was a customer, went home and told his father, who came to Bonnett's store and thrashed Bonnett, Jr. Cost waived a hearing and entered bail for court.

Baker, Isaac Singer, Frank S. Brown, John W. Shannan, Frank Hubbert, Frank Kiefer, Robert McMillan, Frank Winters, of Carbondale; William Parks, John E. Williams and A. E. Chase, of Jermyn. ## "Bennie" James in Town.

Benjamin James, of Wilkes-Barre, who is known among the miners in this section as "Bennie" James, was in the city yesterday.

Mr. James, it will readily be recalled, was the pioneer in the United Mine Workers' cause in this vicinity. He was the first representative of the union to visit this city and vicinity, and it was he who organized the first local in Carbondale. Since that time, he has been a constant presence in the mining and Forest City and the surrounding territory.

## VALUE OF WARM BREAKFAST BEVERAGE.

### Explanation by Physician.

The high grade physician always stands ready to guide one's habits and prevent disease, even if by that means, he loses many a fee.

Food and drink are important factors relating to health.

Dr. Wm. H. B. Wood, 852 N. Third St., Philadelphia, Pa., writes on the subject and remarks about the need of some warm drink for breakfast but deprecates the use of coffee because of its effect on the health. He refers to the fact that the best of a warm breakfast beverage is important in causing the necessary active evacuation which should invariably follow breakfast.

"Personally, I had been quite nervous from overwork for a time and neither coffee nor tea seemed to agree with me, consequently I looked around for some other pleasant breakfast beverage, for a long time without success, until I got hold of the article under consideration (Postum).

This proved pleasing to the taste and was also very strengthening. Its flavor is so nearly that of a really good coffee as to completely take its place after beginning its habitual use. I attach much importance to that word 'habitual,' for if you desire to have all of the benefits mentioned in this article you must stick to it right along. I have proved to my own satisfaction that Postum is all right if persevered in.

Some of my acquaintances and patients have taken up Postum and after a first trial abandoned its use, then some have afterward formed the habit of drinking it when shown how really simple the preparation is which results in a fine cup of Postum containing nutritive elements.

The doctor's relations in confidence, two cases of severe prostration from alcoholism which were ultimately cured and the patients restored to health through his treatment and taking away all whiskey, coffee and tea and giving them in place Postum Food Coffee.

The doctor concludes his letter with this statement, "Believing that a letter from a physician, who has studied dietetics many years in different climates and among different races, would be of some value, I write to do what I can to further the use of this excellent product which surely must be of great advantage to invalids as well as to the general community."

## MR. HUMPHREY TO ENTERTAIN

### Select Councilman-Elect Will Be a Host to His Faithful Workers.

Select Councilman-elect Dunne W. Humphrey, of the Second ward, won a handsome victory in his election on Tuesday, being chosen from a ward which is perhaps the most closely divided in the city. He also won out against Chairman Collins, of common council, who in the last contest was victorious against Alvo Stamm, the strongest candidate available on the Republican ticket. This circumstance added appreciably to Mr. Humphrey's victory. Now, to bring about these results, it called for the heartiest cooperation on the part of the Republican workers of the ward. Mr. Humphrey appreciated this more so than any person, and to show his appreciation, he has decided to entertain the successful Republican candidates of the ward and the ward workers at dinner.

The dinner will be given at Hotel Harrison on Monday evening next, commencing at 8.30. Covers will be laid for fifteen. Mr. Humphrey's hospitality is well known and as the host of the evening he is sure to generously provide for his guests. There will be some impromptu speaking to close the evening.

## the patrons of the Normal Lecture course.

No quartette ever appearing here gave more universal satisfaction to a critical audience than did the Ottumwas. There was, in ensemble, a richness of harmony and melody that would, however, its highest perfection in "A Father's Lullaby," although all the selections were well adapted to the quartette.

"Tonight 'The Bohemian Girl' will be sung.

## The Popular Price Seats.

The idea of Manager Hand in providing a number of seats for the Padewski concert on Monday night was a popular move. This has been demonstrated by the demand for these seats that has been made since the announcement. There was a number of persons who were eager to hear Padewski, but who were not inclined to pay for the highest-priced seats. The dollar seats, therefore, was what was awaited, and that the provision is being appreciated, is evident in the brisk sales at Clark's drug store.

George Sutton Kills Gertrude Gothie and Then Attempts Suicide.

By Exclusive Wire from the Associated Press.

Philadelphia, Feb. 20.—Confined to her bed with a badly injured ankle, the result of a fall last week, Miss Gertrude Gothie, aged 22 years, was shot dead today by her lover, George Sutton, aged 19 years, who, with his mouth open, had come to the young woman's home in West Philadelphia, to pay a visit. Still standing beside the bed Sutton sent a bullet into his own breast, but his attempt to end his own life was defeated by hospital physicians who say he will recover.

The young couple had been friends for years but differences in religion, youthful age and parental objections prevented them from becoming married. Today Sutton and his mother visited the girl's home and were shown to her room by her mother. After a short stay, the parents retired to another room, leaving the lovers alone. A few minutes later several shots were heard. The two mothers hastened to

## STOMACH TROUBLE OURED.

"When first I commenced taking your remedies," writes Mr. E. F. Cingmars, 318 Penn Ave., Minneapolis, Minn., "I was under treatment of a well-known specialist of this city and had been four months for catarrh, and especially stomach trouble, and I was rapidly getting worse. Got so bad that I could not eat anything but did not distress me terribly, and I was obliged to quit the doctor's treatment entirely. I wrote to you, and after taking five bottles of Pierce's Golden Medical Discovery and one vial of Pleasant Pellets, I commenced to improve, and decided to continue the medicines and observe your instructions regarding hygienic treatment, and I can say that I am well and never felt better in my life."

## "Stomach Trouble."

The popular term for a disordered or diseased condition of the stomach and digestive and nutritive system is—"stomach trouble." Like most popular phrases this is expressive. The word "trouble," though it describes nothing includes everything, from the minor discomforts of slight indigestion to the aggravating misery of chronic dyspepsia. The condition of those suffering from disease of the stomach in aggravated forms is very completely described in the letters of Mr. Cingmars and Mr. Lever. Great distress after eating, pain in the side, nervousness, loss of flesh, irritability, alternate cold and heat of the extremities; these and other symptoms mark the aggravated form of disease of the stomach and its allied organs of digestion and nutrition. The cases of these two men are fair specimens of those cured by the use of Dr. Pierce's Golden Medical Discovery. "Family physician" and "well-known specialist" try to cure and fail. As a last resort, Dr. Pierce's Golden Medical Discovery is used and it cures.

## NERVOUS INDIGESTION OURED.

"I was afflicted with what the doctors called nervous indigestion. Took medicine from my family physician to no avail. In looking over one of Dr. Pierce's Memorandum Books," writes Mr. Thos. G. Lever, of Lever, Richland Co., S. C., "I found my case described exactly. I wrote to you and made a statement. You sent me a descriptive list of questions, also hygienic rules. I carried these out as best I could, but I thought myself incurable, as I suffered so much with pain under my ribs and an empty feeling in my stomach. At night would have cold or hot feet and hands, alternately. I was getting very nervous and suffered a great deal mentally, thinking that death would soon claim me. Always expected something unusual to take place; was irritable and impatient, and greatly reduced in flesh. I could scarcely eat anything that would not produce a bad feeling in my stomach. After some hesitation, owing to my prejudices against patent medicines, I decided to try a few bottles of Dr. Pierce's Golden Medical Discovery and 'Pellets.' After taking several bottles of each, I was improving. I continued for six months or more, off and on. I have to be careful yet, at times, of what I eat, in order that I may feel good and strong. I fully believe if anyone suffering with indigestion or torpid liver, or chronic cold would take Dr. Pierce's Golden Medical Discovery and 'Pleasant Pellets,' and observe a few simple hygienic rules, they would soon be greatly benefited, and with a little perseverance would be entirely cured."
