

BARCELONA MOB STORMS A JAIL

Several Rioters Are Killed in Attempting to Rescue Their Imprisoned Comrades.

BAYONETS CONTINUE TO PREDOMINATE

Ordinary Necessities of Life Are Falling and the Distress Is Accentuating—Labor Troubles Spread Through Spain and Martial Law Is Extended—Agitators Receiving Aid from London—Jesuit College in Saragossa Attacked.

Barcelona, Feb. 21.—Forty persons have been killed since the disturbances broke out here. The strikers yesterday attacked the jail in an attempt to rescue their imprisoned comrades, but they were repulsed by the troops after several rioters had been killed or wounded.

The ordinary necessities of life are falling, and the distress is accentuating. The strikers are said to be receiving large sums of money from London. In the neighboring towns the disturbances are spreading and are increasing in gravity.

The predominance of bayonets here has had effect, and the most turbulent spirits have been driven off the streets. Outside the city is assuming an aspect of comparative quiet.

The most stringent measures have been prepared to protect traffic and business. The strikers have few rifles, but they are well supplied with revolvers and daggers. The search of suspected houses continues, resulting in the arrest of large numbers of anarchists and revolutionists of all kinds, who are considered to be the prime movers in the troubles.

Martial law has been proclaimed at Tarragona. The strike is spreading in the Hlobregat and Cardona valleys. There is a general cessation of work at Castellon de la Plana and at Garve, and there is great excitement at Saragossa. Forces of gendarmic have been dispatched to those places.

Delegates from the labor societies of Saragossa have declared themselves opposed to the strike.

London, Feb. 21.—Dispatches received here from Madrid and Barcelona and from various frontier towns in close touch with the scenes of the disturbances in Spain discredit the report that a fierce battle had been fought between troops and rioters in a suburb of Barcelona, that the artillery raked street after street and that 500 persons were killed or wounded on both sides. Up to last evening the total number of persons killed throughout the disturbances was only forty.

Advice received here direct from Bilbao, Valladolid, Coruna, Gijon and other industrial centers of Spain show that the attitude of the miners and other workers is distinctly threatening. The greatest excitement prevailed everywhere, and the general situation is extremely grave. The garrisons of Burgos and Vittoria have been ordered to be in readiness to start for Saragossa at a moment's notice. All the railroads are guarded by troops.

Bilbao, Spain, Feb. 21.—Several anarchists have arrived here with the object of inciting a strike. The Socialists have refused to cooperate in the movement.

Saragossa, Feb. 21.—Rioters attacked the Jesuit College here last night. The fathers fired on the mob, believing their assailants to be thieves.

Valencia, Feb. 21.—In a conflict here yesterday between rioters and the police three persons were wounded. Fourteen arrests were made.

Castellon de la Plana, Feb. 21.—The employers and their employees reached an understanding this afternoon and the strike here is ended.

Seville, Feb. 21.—Several Italian anarchists have arrived here. The authorities have taken all the necessary precautions to prevent an outbreak.

BANKER SHOT BY A JUDGE

Tragedy Grew Out of Feud Between Lawrenceburg Residents.

Lawrenceburg, Ky., Feb. 21.—As the result of a pistol duel, Albert Witherspoon, president of the First National bank of this city, lies seriously wounded in his home, and Judge Porter Walker is under police surveillance awaiting a change in the wounded man's condition.

The trouble was begun last fall, when Witherspoon recklessly fired his revolver through windows. He was arrested, and Walker, as judge of the police court, fined him \$200. Since that time, it is said, bad feeling has existed between the men.

Walker had occasion to go to a dry goods store yesterday and met Witherspoon there. Witherspoon insulted the judge, who made no response, but went away. Later he returned, and finding Witherspoon still there, asked him to retract his language.

Witherspoon refused to retract his language, and Walker attempted to draw his revolver. The weapon had caught in his pocket and he was compelled to turn sideways while using both hands to release it. Meantime Walker drew his revolver and fired three times at Witherspoon. Two of the wounds are mortal, but the third probably will result fatally.

Witherspoon comes of a wealthy family and is a leading business man. His brother, Horace, after killing two men, was himself killed by a man named Portwood.

SMALL-POX BARRED OUT

Patient Taken from Chester to Lima and Back Again.

Chester, Pa., Feb. 21.—When James Warner, colored, applied for admission to the Chester hospital today, it was discovered that he had smallpox and he was not admitted. The hospital authorities had the case in their hands, and undertook to get rid of it. Warner was taken in a wagon to the county hospital at Lima, several miles away, but Steward James W. Barker had orders not to receive him, and the wagon was stopped at the entrance to the grounds.

He was then hauled all the way back to Chester, through the snow drifts, and delivered to the board of health officials. Dr. Hoopman, president of the board of health, said tonight that he had placed the invalid in a private house and quarantined it until other arrangements can be made.

ROSEBERY'S ATTITUDE

Rumors of Coalition Between Unionists and Imperial Liberals—Important Letter to the Times.

London, Feb. 21.—Lord Rosebery's announcement in a letter to the London Times this morning of his final separation from Sir Henry Campbell-Bannerman's section of the Liberal party forms a fruitful topic for afternoon editorials and for discussion in all quarters of Great Britain. One of the most noticeable phases in the various effect of the letter produced on the wording of the Times' editorial on the subject. Its friendliness to the ex-premier might easily be explained on the ground of the opposition ranks, but its declaration that "what the country wants is not a brand-new set of principles, but a new set of men capable of replacing the present set, without upsetting the policy of the empire," is followed by the statement that Lord Rosebery's chief aim is to bring about a coalition to infuse business energy and capacity into the prosecution of an imperial policy. It concluded with the following remarkable utterance:

"If the fruition of efforts in that direction may seem to be remote, we can only say that it may come sooner than anybody expects."

That oracular assertion has started rumors of a new coalition between the Unionists and Imperial Liberals, under the leadership of the Duke of Devonshire and Lord Rosebery, and of the possible defection of the Times from support of the present government. Something of that is visible in the Globe's editorial this afternoon, which, while congratulating Lord Rosebery on his "emphatic and strong" declaration of the pertinence of the differences between his policy and that of the Unionists.

The Pall Mall Gazette follows other Tory opinion in declaring that a "man who can write such a letter as a reply to Sir Henry Campbell-Bannerman has the self which the empire expects of those who lead it."

The Westminster Gazette, hitherto divided in its allegiance, comes out in favor of Sir Henry Campbell-Bannerman, but sorrowfully admits that Lord Rosebery means another term of government for the Unionists, while it fears Lord Rosebery's group may be liable to absorption in that party.

The letter of Lord Rosebery was the result of Sir Henry Campbell-Bannerman asking, in a recent speech, whether Lord Rosebery spoke "from the interior of our political tabernacle, or from some vantage ground outside."

It was announced last night that as an outcome of the polemic concerning the relations between Sir Henry Campbell-Bannerman and Lord Rosebery, the latter had written a letter to the London Times, declaring frankly that he "remains outside of Sir Henry's tabernacle," but not, he thinks, in solitude.

The charge which I have just referred to, at the request of the war department, was most vague. It was made by a soldier, and to the effect that he had helped administer the water cure to 160 natives. That is the kind of rot a soldier is apt to write home when business is dull and he has had three or four drinks to help his imagination. Nothing of the kind ever took place with the knowledge of the officers, or ever occurred at all, for that matter."

The verdict would not be known until it had been confirmed by Lord Kitchener.

NAVAL CADETS ARE ADVANCED

Premature Graduation Has Been Ordered by Secretary Long in Several Cases.

THE FIRST-CLASS ARE NEEDED AT SEA

By Order Issued This Week to Commander Wainwright Nearly One Hundred Young Officers Will Be Detailed for Watch Duty on Ships at the Asiatic Station.

Washington, D. C., Feb. 21.—Secretary Long has issued an order to Commander Richard Wainwright, superintendent of the Naval academy, directing him to graduate the first-class naval cadets on May 1 next and be prepared for orders assigning every member of the class immediately to sea duty.

The graduation of the class prematurely has been under consideration for two weeks, due to the urgent necessity of securing additional officers for ships now in commission, but met with objection for the reason of interference in the course of studies, will detail all cadets now at sea, including the class that will be commissioned ensigns next July, to watch duty, and the cadets that will leave Annapolis in May will relieve senior cadets of their present duties and thus make available nearly 100 young officers.

Both classes now at sea will be retained on ships and the class coming up for final graduation this spring will be examined on the stations instead of at the Naval academy.

An order has also been issued directing Commander Wainwright to relieve every officer who can be spared from the Naval academy for duty at sea. The effect of these orders and the graduation of the cadet class will enable the authorities to detach about 100 officers with the Asiatic fleet whose sea tenure has expired and who are now entitled to shore service or station on ships not in the Philippine waters.

At least three-fourths of the graduates will be assigned to duty with ships on the Asiatic station, while the remainder will be distributed among vessels on the other stations. Every man will be sent to sea for a two years' cruise. The Asiatic station will detail all cadets now at sea, including the class that will be commissioned ensigns next July, to watch duty, and the cadets that will leave Annapolis in May will relieve senior cadets of their present duties and thus make available nearly 100 young officers.

FANNY DAVENPORT'S SARDOU PLAYS

Her Husband's Efforts to Annul His Bill of Sale to Them.

St. Paul, Minn., Feb. 21.—The case of W. Melbourne MacDowell and May D. Seymour, as executors of the will of Fannie Davenport MacDowell, deceased, against Clarence M. Brune, L. N. Scott and C. E. Beech, has been taken up by Judge Bunn.

Fannie Davenport, in her life, owned certain so-called "Sardou" plays and bequeathed them to her husband, MacDowell. He gave a bill of sale to the defendants and the present suit is to annul the bill of sale, on the ground that it was fraudulently obtained, and to join the defendants from presenting the Sardou plays.

Judge Bunn has already denied the motion for a preliminary restraining order. The case now comes up on its merits.

Washington, Feb. 21.—Mr. Tawney (Minn.) in the house today asked unanimous consent for the consideration of the following resolution:

Resolved, That the secretary of war be requested to furnish the house such information concerning the number of acres of land in Cuba purchased by non-residents of the island since the date of the American occupation as is shown by the reports to and the records of the war department, and by the records of the military government of Cuba, giving the consideration, the names and places of residence of purchasers, the number of acres contained on each tract conveyed, the total acreage of cultivated sugar land owned by citizens of the United States and by citizens of other countries foreign to Cuba.

Mr. Payne, the majority leader, said he did not think the precedent should be established of considering such resolutions before they had been considered by a committee. Mr. Tawney denied that it was unusual to adopt resolutions of this nature, but Mr. Payne, nevertheless, objected.
