on team with Blaker in left, Gaston in center and Nickels in right field. Manager Lawson feels sure that this combination will give a good acof themselves after the season opens

Baby Bazaar Removed to 118 Washington avenue

BENNETT SERIOUSLY INJURED.

Thrown Down by the Colliding of Freight Cars. Benjamin Bennett, employed in the Lackawanna's transfer freight station near the West Lackawanna avenue

rossing, was injured in a peculiar

manner yesterday morning.

A coupling on a train being pulled orth broke, after the train had passed the crossing, and the rear end of the train started back along the track. A switch was set to let cars from the main line into the freight house and into this switch dashed the cars, crashing against cars that were standing at

the freight house.

Bennett was in one of these cars, and vas thrown heavily to the floor and seriously injured about the head. Several of the cars sustained considerable

#### TROLLEY CAR RAN AWAY.

Motorman Lost Control of It on the Mulberry Street Grade-Philip Ghen Injured.

A trolley car on the Prescott avenue line had a wild time of it yesterday morning. It was one of the large double track variety and it was laboriously climbing the grade that leads from Mulberry street up to Gibson. About Pine street the motorman los control of the car and it started back toward Mulberry street at a terrific pace. At the turn at Mulberry street the car left the track and flew straight forward until it landed against the wall of the new Grace Lutheran church where it came to a sudden stop and in the stopping was badly wrecked. The damage done to the church was slight The conductor, motorman and one passenger jumped in time to escape injury When the car started on its reckles

ace down the grade, Philip Ghen of 1116 Linden street, a driver for H. A Kaufhold, was going up with a horse and single wagon owned by his employer. He was unable to clear the track in time to avoid the runaway and the wagon was struck by the car and badly wrecked. Mr. Ghen was thrown some distance but fortunately escaped with a few bruises and a severe shakng up. The horse escaped injury.

#### ELECTRIC LIGHT CO. SOLD.

Crescent Passes Into Hands of

Lackawanna Valley Company. The plant of the Crescent Electric company has been sold. The sale was onsumated Thursday when the Lackawanna Valley Electric Light and Supply company took possession.

What the consideration is cannot be escertained at this writing, but it is said to be in the neighborhood of \$20,-000. The power generated at the plant, hesides being used for lighting purposes, was used in the operation of the coal mines of the Elk Hill Coal company, located nearby,

The new company is composed largely of people living in the vicinity of Carbondale. J. B. Russel is president of the company. It has contracts now with the city of Carbondale and the boroughs of Forest City and Jermyn. The Crescent Electric company has been in existence about eight years. Its principal share holders are Thomas E. and Edward S. Jones and James J. Williams of Scranton.-Archbald Citi-

#### NEW PAROCHIAL RESIDENCE.

To Be Erected by Congregation of Holy Cross Church.

The congregation of the Church of the Holy Cross, at Bellevue, has decided to way and Fifth avenue, on a property pose. It is directly across the street

the site will be removed and a three-Lawson has added one more player to the Scran- story residence of Colonial style erectton ball club. The new man is Joseph Nickels, ed. The house will front on Broadway, of Philadelphia, an outfielder. Nickels began his professional career at Norristown, Pa., where he played during the seasons of 1898-99. In 1969 congregation assist him in the work of arranging for the construction of the residence, and the following have been

Mrs. Kate Berg, Secretary Ladies' Auxiliary of Knights of Pythias, No. 58, Commercial Hotel, Minneapolis, Minn., After Five Years Suffering Was Cured by Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM: - Whatever virtue there is in medicine seems to be concentrated in Lydia E. Pinkham's Vegetable Compound. I suffered for five years with profuse and painful menstruation until I lost flesh and strength, and life had no charms for me.

Only three bottles of your Vegetable Compound cured me, I became regular, without any pains, and hardly know when I am sick.

Some of my friends who have used your Compound for uterine and ovarian troubles all have the same good word to say for it, and bless the day they first found it."-Mrs. KATE BERG.

\$5000 FORFEIT IF THE ABOVE LETTER IS NOT GENUINE. When women are troubled with irregular, suppressed or painful menstruation, weakness, leucorrhoa, displacement or ulceration of the womb, that bearing-down feeling, inflammation of the ovaries, backache, bloating (or flatulence), general debility, indigestion, and nervous prostration, or are beset with such symptoms as dizziness, faintness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, "all-gone" and "want-to-be-left-alone" feelings, blues, and hopelessness, they should remember there is one tried and true remedy. Lydia E. Pinkham's Vegetable Compound at once removes such troubles. Refuse to buy any other medicine, for you need the best.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address Lynn, Mass.

## UNMUZZLED DOGS ARE ORDERED SHOT

Department of Public Safety Takes Radical Steps to Prevent Spread of Rabies Among Dogs of the City.

est standing have written to Dr. Allen, sation of the present outbreak, superintendent of the bureau of health within the past week, notifying him that rables is becoming epidemic unong the dogs in the central of the city. As a precautionary measure an order was is sued yesterday by Director of Public Safety F. L. Wormser, directing the police to "summarily dispose of," or n other words, shoot all dogs found on the public streets without being muz-

zled or held by a chain. The first letter received by Dr. Allen came early last week from Dr. Jacob and was killed. Another developing disposed of by the police. You are directed t symptoms of the disorder left its own-

er's keeping and never returned. The body of a third dog, which was kept under close observation until it died, was sent to the laboratory of the State Live Stock Sanitary Board in Philadelphia for microscopic and bacteriological examination. The follow-The buildings at present occupying ing telegram was received by Dr. Hel-

> Examination of dog head completed. Unquestionably rables. Leonard Pearson, The doctor reported that four dogs

> are known to have been bitten by dogs suffering from the disease but states that it is impossible to tell the exact number of canine victims as a dog suf fering from rables roams miles away from home, biting other dogs and ani-

PERIOD OF INCUBATION. The period of incubation in dogs, the goes on to say, is on an average from twenty-one to forty days. It crecy on this point, may be as short as six or seven days. He said that three and occasionally exceeds one hundred days. Continuing the doctor writes: There is no doubt but that more

than the number of dogs which I have bite, mentioned are victims. In the face of such an outbreak it becomes necessary to assume this to be the case in orde that every precaution may be taken. It is plain that danger will exist not

"Finally as to the control of the sit uation, I am not permitted to speak. But in behalf of the safety of the people and the protection of valuable dogs. the idea of publicity suggests itself as a defensive measure. Again, if every owner of a dog would take the precau tion of efficient muzzling during an outbreak, the spread of the disease would soon be brought to an end. Authentic statistics can be furnished to show his. And whatever arguments may be advanced against muzzling, the results that have been obtained by it justify its adoption wherever there is an out-

break of canine madness." The second letter was received yes terday from Dr. H. A. Paget, who rethe past seven weeks, or more than he has previously had in his six years' practice in this city. The doctor reports that his diagnosis has been confirmed in several of the cases by the bacteriologist of the State Live Stock Sanitary Board and by the assistant hacteriologist of the New York city board of health. He suggests the advisability of ordering muzzling within the city limits until such time as there i

ORDER TO POLICE.

Superintendent Allen and Director of Public Safety F. L. Wormser conferred over the matter vesterday and decided that decisive and prompt action should be taken. The director accordingly issued the following order late yesterday

Lona B. Day, Superintendent of Police. Dear Sir; In view of the fact that several well authenticated cases of rabies have been reported to this department by two veterinarians of high standing who have had microscopic and bac Helmer, who reported an outbreak of teriological examinations made of the heads of rabies in that part of the Seventeenth animals who have died from hydrophobia in this ward bounded by Olive street, Clay city and of the fact that other dogs have avenue, Gibson street and Jefferson been bitten by these diseased animals who are avenue. The doctor reported that one new running at large, thereby causing great dandog in the vicinity of No. 33 school all dogs found in the city streets without being was found suffering from the disease muzzled or held by a chain will be summarily see that this order is strictly enforced. By order of

Director of Public Safety,

There is to be no delay in the enforcement of this order. It will be begun today, and owners of dogs are warned by Director Wormser to keep their dogs tied up or secure muzzles for them at

Dr. Paget, when seen last night by a Tribune man, said that to his knowldge six persons in this city have been bitten by dogs afflicted with the rables during the past two months. A seventh person, a man who was about nine weeks ago, died of hydrophobia in its most violent form. The doctor said that this man died in the presence of several local physicians, who stated to him that his sufferings were horrible beyond description. The doctor refused to state who this man was, saying that he is pledged to se-

He said that three of the persons who have been bitten have taken the Pasteur treatment within the proper time limit-ten to fourteen days after the never turned a deaf car to an apocal for help. Many there are who can bear testimony to his generosity and bountcous aid in all cases of

#### RABIES PREVALENT.

People should awake to the seriousless of the situation," said he. "Genuine rabies is prevalent in this city and prevalent in all parts of it. The disess than sixty days, although practi- | ease is not confined to any one particucally it will disappear in about six har part of the city. I have had cases in every part, north, east, south and west, and they have not been cases in which I have only my own diagnosis to go by. In the majority of instances : have sent nervous tissues of the dead animals to Dr. Revenal, the bacteriologist of the state live stock sanitary board, and he has confirmed my diagnosis after careful examination.

"Many people imagine that there is no such thing as rables possible in the winter, but this is only one of the many false ideas which prevail among the masses regarding this disease, which is just as likely to develop one month as another. I think the director of public safety has done a wise thing in ordering all dogs muzzled or leashed, for there is every reason to believe that ports having had seven cases of rables in varied parts of the central city in bitten in the last few weeks by mad dogs and that a great many of these animals will contract rables.

"The majority of the cases of the disknown as 'dumb rables.' The animals manifest no furious symptoms. They are simply sullen and dull, and for this reason their owners do not think there is anything wrong with them.

ADVICE TO SUFFERERS.

"I would advise all persons who are bitten by a dog, who is pronounced to be suffering from rables by a competent veterinarian, to go to New York city at once, before ten days elapse, ame in my joints, in fact all over my and become inoculated at the Pasteur body, that I could hardly hobble institute. This is the only preventa-around, when I bought a bottle of tive of hydrophobia known to science, Chamberlain's Pain Baim. From the and persons bitten by mad dogs, who first application I began to get well, fall to take the treatment, run a great and was cured and have worked risk of becoming afflicted with this steadily all the year."—R.
