NO. 18 SCHOOL OPENS TODAY

QUARANTINE ON THE BUILDING HAS BEEN RAISED.

Children Must Present a Certificate of Vaccination Before They Will Be Admitted—Sloan Mine Second Outlet Used Yesterday—Weekly School Deposits—David Jones Going to Pittsburg—House-Warming Party—Events of This Evening, Notes and Personals.

The quarantine has been raised from No. 18 school building, at the corner of North Summer avenue and Sweland street, and the regular sessions will be resumed this morning.

It was intended to have everything in readiness for the opening yesterday, but the building was not sufficiently heated, and in consequence the opening was deferred until today.

The school was closed several weeks ago on account of the close proximity of several cases of smallpox, but the victims are now out of danger, and there is no apparent fear of any further spread of the disease.

All the children who attend the school are required to furnish a certificate setting forth that they have been vaccinated before they will be permitted to resume their studies. All those who have not been vaccinated will be required to undergo the ordeal before they will be allowed to attend school again.

with the firm on March 20, and leave for Pittsburg, where he will become the resident manager of the Clark, Hutchinson company, of Boston, Mass. He was formerly a road salesman for the firm, and his many friends will be pleased to learn of his selection for such an important position. Mr. Jones will assume the duties of his new position on April 1. He was recently married to a charming young lady from Wilkes-Barre.

Second Outlet Used.
The whistle for "all over" was blown at the Sloan mine yesterday at an early hour. The reason for this is the same as is common at this time of the year, namely, the shortage of railroad cars. The great snow storm of last week has interfered much with traffic, especially that moving north and south.

Advantage was taken of the occasion to make all persons working inside acquainted with the second outlet to the surface, which is required by its connections. Therefore, the inside men came out before noon through one of these escape-ways, so that in the event of an accident taking place in future by which the hoisting machinery at the main shaft is crippled, all those who are at present employed inside could readily leave the mine immediately without assistance or guide.

It is found necessary to resort to this practice once in a while, in order that new hands may be initiated into the ways of the particular mine in which they work.

While this practice inflicts some labor on the men, the information they gain thereby for their own safety is very valuable.

Perfect Health Restored.

"Several years ago I met with an accident which caused falling of the uterus," writes Mrs. F. H. McMillan, Secretary of the Young Women's Tennis Club, and residing at 113 Newberry Avenue, Chicago, Ill. "Did not pay any attention to it until I felt pain, and ulceration and inflammation set in. Was so weak that I was obliged to be in bed most of the time. Luckily for me I tried Dr. Pierce's Favorite Prescription, which cured me completely after using it only a little over three months. I have had perfect health since, and have every reason to believe that your medicine will surely cure female troubles."

In Excellent Health, Now.

"In the fall of 1897, I was troubled with nervousness, headache, heart trouble, and female weakness," writes Miss Blanche M. Bracey, of Sala, Oswego County, N. Y. "Last summer I wrote you and you advised me to try your 'Favorite Prescription' and 'Golden Medical Discovery.' I did so and I began to improve rapidly. Continued taking the medicines, half-a-dozen each of 'Favorite Prescription' and 'Golden Medical Discovery' for the space of four or five months, and in less than a year had regained my former health. You have my heartfelt thanks for what your remedies have done for me. I am in excellent health now, but am still using your 'Pleasant Pellets.'"

"Sick Women Made Well."

How much that sentence means. The difference between the life of a sickly and healthy woman is the difference between the darkened room and the out-door sunshine; the sick-bed and the bicycle; the tennis court and a parlor. And to that difference must be added the aching back, headache, nervousness, and general suffering inevitably associated with womanly diseases. A sick woman is like one who has fallen into a pit in the midst of a beautiful landscape. As she lies there crippled and helpless she can see the blue sky and sunshine overhead, and hear the songs of happy birds, and in an agony of longing to be free, she cries feebly for help to lift her once more to the fair world and human companionship.

That is the one need of the sick woman—HELP. She cannot regain lost health without it, and it should be a comfort to every sick woman to know that the help she needs to lift her up from sickness to health is to be found in the use of Dr. Pierce's Favorite Prescription. The history of this remarkable medicine is written by women themselves in multitudes of grateful letters. These letters reveal experiences of great suffering from womanly diseases. But the motive of the letters is not to dwell upon past suffering, but to say a word of gratitude and praise for perfect health and healing by the use of Dr. Pierce's Favorite Prescription. Some of these letters we have the privilege of publishing in spite of the aversion of many women to even this slight publicity, because as they write, "I want other sick women to know of this wonderful cure of womanly ills, and to find health as I have."

Let it be remembered that every promise made for "Favorite Prescription" goes hand in hand with performance. Do you doubt that it would cure you? Whatever your case or condition, if it is curable by medicine, like cases have been cured by "Favorite Prescription." It establishes regularity, dries weakening drains, heals inflammation and ulceration, and cures female weakness. Women who are weak and run-down, whether from work or worry, will find in Dr. Pierce's Favorite Prescription a perfect tonic and nerve. It restores the appetite, tranquilizes the nerves, and induces refreshing sleep.

Any sick woman who is suffering from disease in aggravated and chronic form is cordially invited to consult Dr. Pierce, by letter, free. All correspondence is strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

"Favorite Prescription" makes weak women strong, sick women well. Accept no substitute for the medicine which works wonders for sick women.
