INDUSTRIAL AND LABOR

NEW FORM OF LACKAWANNA TRAIN ORDER.

Manner in Which It Is to Be Used. Stand Taken by the Firemen and Engineers at the Pettebone and Avondale Collieries-Traffic on the Lakes During the Year 1901. Building Underground Dams in Lehigh Valley Mines-The D., L. and W. Board for Today.

The agents, operators, conductors and enginemen on the Lackawanna railroad have been notified that the "19" form of train order will be used on double track, in accordance with the rules, for conferring train rights. (The "31" form of train order will invariably be used to restrict train rights.) When the "19" train order is ready for delivcry, the operator will go on the ground, with two hoops provided for the purpose, with a copy of the order and a clearance card (Form A) attached to each, and, if the train order signal has been properly acknowledged by the engineman, be will deliver one each to the engineman and conductor.

The engineman and conductor will catch the order hoop on their arm by passing the hand through it; they mus not attempt to grasp the hoop by hand. After receiving the "19" train order the engineman must not pull his train past the telegraph office until given a 'proceed" signal by the conductor. If the engineman fails to catch the order, or to receive "proceed" signal from the conductor, or if the order is illegible or not addressed to the train receiving it, he must stop the train and obtain or ders or a clearance card.

Operators having "19" train orders for delivery will place them in the clasp of the hoop, to deliver as explained

Andrew Mack's New Play. For some years, Andrew Mack has struggled for recognition as something more than an Irish-singing comedian. He played his new play, "Tom Moore," at the Lyceum yesterday after noon and last night, to two standing room-onl uses. This when considered in connection with

the church calendar is significant. Mack has attained his ambition as far as Scranton is conplaces will be filled by others. Owing to these firemen and engineers quitting, erned. the remaining working forces were "Tom Moore" is the most pretentious thing compelled to suspend, and in conse hat Mack or any other actor of his ilk has ever essayed. In the matter of story it is on a par and religiously along the lines of "Richard Savquence the collieries were shut down. The new order calls for one shift to idge" and "Oliver Goldsmith," more particu-larly the latter. As to presentation it is so far go on duty at 7 a. m. on Sunday and work until 5 p. m., when they are re-lieved by another shift, who work until in advance of anything Mack has ever before been the central figure of, that there is no com-parison. Heretofore Mack has been in the midnight and they in turn are relieved by the first shift, who work until 7 Scanlon-Olcott-Murphy class, 11e is now actm. In this way the long 24 hour

ing; his singing is incidental. There is a pretty though rather forced story o "Tom Moore." Some almost appalling sacri-lees are made for melodramatic effect, but on The men who refused to comply with the order have not been discharged, the whole it is really artistic. Moore's pic-turesque life-story is told in the main-with some slight violence to history-and his songs neither have their places been filled as yet, but unless they are prepared to resume their duties when the company are made use of in an exceedingly clever way to embellish the story, and, incidentally, to give is ready to start up the collieries, other Mack an opportunity of using his wonderfully sweet tenor voice. Some of the most effective scenes are those in which Moore is portrayed as

he singer. The reports of Lake Superior traffic was the wont of Mack to be well satisfied for the season of 1901 again show that with himself in measuring the quality of the cast of characters. He and a pretty child or rying off the barrels. The defendants in the chain of the Great Lakes the United States has the most extensively two and some very ordinary filling in the way of used system of waterways in the world, a loveress, villain and the like, when bathed in cen moonlight was deemed amply sufficient to and the cheapest transportation. The make up the makers of the entertainment. In report shows that the traffic passing "Tom Moore" he is content to be one of several. His leading lady, Miss Josephine Lovett, the villain, George F. Nash, and the comedy ser-vant, Edward J. Heron, are most capable play-ers. The work of Mr. Nash is especially comthrough the Sault Ste. Marie canal between Lake Superior and the lower lakes-which is estimated to include bout half of the total business on the lakes-amounted last season to 28,403,mendable. Sheridan, Beau Brownmel and the rince of Wales are portrayed as leading roles 065 net tons of freight, valued at \$289. and they are essayed in an apprepriate manner by Giles Shine, Harry P. Stone and Myron Calice, The transportation of this freight amounted to the enormous toespectively. A dozen children form a part of tal of 23.383.861.987 ton-miles, the averthe company and they add much to the fun and picturesqueness of the school room scene with age distance it was carried being \$23.3 miles. The average rate paid for

picturesqueness of the school room scene with which the play opens. "Love's Young Dream," "Evelyn's Bower," "Love's Young Dream," "The Last Rose of Summer" and "Believe Me if All Those Endearing Young Charms," are the Moore songs rendered by Mr. Mack. The third act in which the last named song is sung, was interrupted for fully five minutes by the unrea-sonable demands of the upper part of the house for encores. Mr. Mack same the score scene bed for encores. Mr. Mack sang the song as an incifor encores. Mr. Mack sang the song as an inci-dent of the play. To repeat it, as if it was a topical ballad would destroy the effectiveness of the song and its setting. Mr. Mack declined to do more than bow his acknowledgments of the applause. The upper house insisted on having more singing but Mr. Mack proceeded with his meaking hiss and husing failed them has his

speaking lines and having finished them left the stage. Two of the other characters attempted to proceed with the dialogue, but the applause Building Underground Dams. The Lehigh Valley Coal company has drowned their voices. They ceased speaking of boys overturned his wagon, took looked up to the flies and waited. above, and be particular to hand only to engineman and conductor of train addressed. Order hoops received by enginemen

and conductors will be delivered to the offices designated by the superintendent. Night operators will report to the train dispatcher each night, between 9 and 10 o'clock, the number of order hoops on hand. Not less than five nor more than ten order hoops should be supplied to or kept on hand at any telegraph office. The chief train dispatcher will direct distribution accordingly.

Enginemen must not place order hoops on the boiler head or steam pipes, as it will cause them to dry out and become brittle.

Operators delivering a "19" train order by hoop at night will use a white lamp and hold it so that the light will shine on the circle of the hoop, in order that enginemen and conductors may see the hoop plainly.

At night the conductor will display his white lamp while approaching a telegraph station where the train order signal is displayed, to enable the operator to locate him.

That Sunday Shift.

The stand taken by the firemen and engineers at the Pettibohe and Avondale collieries, which are now idle, is believed to be the forerunner of the fight to be made for a uniform eighthour day. Some time ago the Delaware, Lackawanna and Western company, the Erie, and Delaware and Hudon companies issued an order to the effect that all engineers and firemen employed at the various collieries should change their shifts, so that the men could be relieved of the arduous double shifts, whereby they worked twenty-four hours every second Sun-

day. The order was complied with at all the collieries except the Pettebone and Avondale. Ic means an nicrease of 71/2 per cent, in their pay.

The order will be enforced, the com panies say, and if the men at these two collieries refuse to obey it, their
