It is extremely probable that Director of Public Safety Wormser will agree to the adoption of Food Inspector Widmayer's plan for the improvement of the milk supply of the city by permitting the granting of certificates of endorsement to dealers whose milk meets all the standard requirements and who secure their supply from dairies in which scrupulous cleanliness is observed.

Since the publication of the article dealing with the question in The Tribune about two weeks ago a number of dealers have expressed their approval of it and have manifested a desire to secure such certificates. An official announcement from the director bearing on the matter is expected in a few

Physical Culture at Its Best.

The training of a sound body is considered of as much importance at Swarthmore College as intellectual culture. It receives the same discriminating direction and care. The handsome gymnasium recently built is the latest evidence of this. But physical culture at Swarthmore

is intelligently conducted. A course of training is prescribed for each tadividual case to meet the individual need. As a result the health record of Swarthmore is remarkable.

In this, as well as in every other department, the advantage of the "small college" is manifest. It makes possible that close personal relation between instructor and student that awakens and develops the best there is in a man or

FIREMEN ARE SUSTAINED.

District Board of the United Mine Workers Adjourn.

After three days spent in considering various grievances, the district board of the United Mine Workers adjourned yesterday afternoon.

At the conclusion of the session President Nicholls stated that the poard had decided to give out nothing for publication except that it had sustained the action of the Petiebone and Avondale firemen in refusing to agree to a "swing" shift of eight hours when changing on Sunday from night to day work, instead of a twenty-four hour straight shift every two weeks. What this action signified or what would follow if the discharged fremen

are not taken back, Mr. Nicholls said he was not at liberty to state. Nothing would be told as to what ac ion was taken on the grievance from the Nottingham, which was shut down by the Lehigh and Wilkes-Barre com-

ny, when the board demanded the cinstatement of three men discharged, supposedly, for inspecting working

Mr. Nicholis was also dumb as to hat was done regarding the complaint hat the Delaware and Hudson company has increased the size of the cars at its newly acquired Florence colliery, without making a commensurate inrease in wages.

Mr. Nicholls says that nearly all the

ompanies endeavored to have their fremen agree to the "swing shift," but that the Delaware, Lackawanna and Western is the only one which attemptd to force such an agreement. President Nicholls went to Nanticoke yesterday afternoon to join his wife and children, who are visiting her

parents there. POSTMASTER AT DALTON.

Mr. Tiffany Still Doing Business at the Old Stand.

In The Tribune of February 12 an Associated Press dispatch from Washington, dated February II, announced the appointment of W. K. Frost as postmaster at "Dalton, Lackawanna county." This looked strange, but as the dispatch came too late for investigation that night it was printed.

Inquiry was made next day of the postmaster general. The following letter received yesterday from Hon, J. L. Bristow, fourth assistant postmaster eneral, shows how the error happened: "William K. Frost was appointed stmaster at Hallton, Elk county, Pa., on February 11, 1902. The published list of postmasters appointed on that date was in error, as it stated that Mr. Frost vas appointed at Dalton, Lackawannna

VOTED THE OTHER WAY. Select Councilman Vaughan Placed

in a False Position. Unintentionally The Tribune placed Select Councilman D. W. Vaughan in a false position yesterday morning, when it said that he voted in favor of striking from the Consumers Gas company's franchise ordinance the amendments providing for 85 cent gas and limiting the franchise to forty years. Mr. Vaughan voted against knocking off these amendments, having consistently taken the position with reference to the ordinance that the city's interests ought to be well safeguarded in grant-

No Record of Hydrophobia Case Appears on Health Records.

It is interesting to note that there is no record in the bureau of health of any person having died from hydrophobia in this city within the last six months, though Dr. Paget positively asserts that he was assured by three well known physicians that a man did die from that disease in this city some three months ago and that they witnessed his death.

It would seem that the attending physicians reported the disease under some other head than hydrophobia for the purpose of preventing a public agi-

JURY OUT.

A jury went out late, yesterday afternoon, in Judge Ferris' court, to determine the guilt or innoncence of Justice of the Peace James Bell, of Winton, charged by Peter Kramiski with embezzlement. Kramiski borrowed \$200 from Thomas J. Mack and gave a note in Bell's hands for collection. The balance of \$119 was paid by Kramiski to Bell, but he, it is alleged, failed to turn it over to Mack. The latter issued execution on the note, and sold out Kramiski, whereupon the latter had Bell arrested for embezzlement Bell's defense was that he offered the money to Mack to be applied upon this note, but Mack refused to take it, under this condition, insisting that it be applied to the liquidation of another debt, which Kramiski owed him. For his own protection Bell would not pay over the money.

Assistant District Attorney Gramer and Attorney Joseph F. Gilroy represented the prosecution Attorney Herbert L. Taylor is attor-

ney for the defendant, An embezzlement case was also tried Eppstein. before Judge Wheaton. Albert Smith, a newsboy, was charged with embezcompany. J. A. Curtis was prosecutor. The prosecution alleges that the boy was short in his collections to this amount. The defense was that the boy was not an employe of the company but a commission agent, and consequently could not be guilty of embez-

zlement. The jury was out at adjourning time. Assistant District Attorney Thomas epresented the prosecution, and D. B. Replogle the defendant.

Similar disposition was made of the ase in which Louis Rupprecht was charged by George M. Okell with emezzlement. The proseutor stated that the loss of certain papers made it impossible for him to prove his case, at this time, and as it has been on the list for four terms, District Attorney Lewis moved to have a verdict of not guilty taken.

Repp Would Escape Costs.

On motion of Attorney C. Comegys, Judge Frank W. Wheaton, yesterday, granted a rule to show cause why the ourt should not relieve William Repp. of Old Forge, of the costs placed on him, by the jury in the case of the mmonwealth against Frank Silliman, ir., in which he was the prosecutor. O'Brien & Martin and Willard, Waren & Knapp, who were attorneys for the defense, will oppose having the rule made absolute.

The costs on the defendant's side amount to \$210. The commonwealth's costs, together with sheriff and jury fees and the like, will run this figure up to \$500.

Mrs. Noll Wants a Trial.

February 13, last, Attorney H. S. Alworth, acting for William Noll, brought divorce proceedings against Elizabeth Noll, alleging that she deserted her day, had to be continued. These cases husband, February 7, 1894, after six months of cohabitation.
