CHARGED WITH BURGLARY. William Foster Accused of Breaking Into the Office of the Lackawanna Mill Company.

William Foster, of Park Place, was arrested yesterday afternoon by Detective Deller, on the charge of burglarizing the office of the Lackawanna Mill and Elevator company on Providence road, on Monday night. When the company employees came to work yesterday morning they found that the office had been broken into and money amounting to \$8 had been taken from a top shelf, where it had been placed. The place was broken into before and the safe tampered with so that when there is only a small amount of money on hand it has been customary to put it in a bag and toss it up among a lot of rubbish on an upper shelf, the safe being left unlocked. The storehouse was also entered on Monday night and several bags of flour taken. Foster, who has been doing odd jobs about the place for several days, was suspected as it was known that somebody with an intimate knowledge of the building had broken into it. Detective Deller made an investigation and went to Foster's house, where he discovered several of the stolen bags of flour. He placed him under arrest and took him to the central police station. He will be given a hearing this morning.

Spring Wretchedness, Misery, and Suffering Permanently Banished When You Use PAIN'S CELERY COMPOUND.

A Cared and Grateful Farmer's Wife Declares That Paine's Celery Compound Almost Raised Her from the Grave. A few words to weak, broken-down, nervous, and sick women at this time, and the portrait of Mrs. Shepherd's letter, will, we trust, kindle hope and inspire fresh confidence in many a home where some loved mother, wife, or daughter is hovering between life and death. At this season, thousands are nearing the grave; all can be saved by the prompt use of Paine's Celery Compound. Mrs. Virginia Shepherd, Powellton, W. Va., writes as follows: "I have been sick for eight years, and no tongue can tell what I suffered. I would have spells of nervous headache when I would keep my bed five and six days, and could not raise my head off the pillow. Then I would get numb all over, and they would have to rub and work over me to keep me alive, and I would have sinking spells and palpitation of the heart, but thanks to Paine's Celery Compound, and I cannot praise it enough, I have not had a headache for six weeks, a thing I could not say before in eight years. Your compound has almost raised me from the grave, as I had given up all hopes of this life until my husband read one of your pamphlets. After I had been using it I felt better than I had for three years."
