BOARD WANTS THE VIADUCT

MEMBERS INSIST THAT THEY HAVE RIGHT TO DEMAND IT.

Feel That Recorder Connell Is Not Dealing Justly with the People of West Scranton - Resolutions Passed-Some of the Arguments Advanced-Many Believe in Making It a Political Issue-Pupils' Percentage-Woman's Narrow Escape-Social Events.

Again and again the West Side board f trade has gone on record as favorng a viaduct on the southerly side of West Lackawanna avenue, and again at their meeting last night they reiterated their views on the subject, and, furthermore, impressed upon Councilmen Robathan, Oliver and James, who were present, their honest belief that an appropriation for that purpose should be included in the present bond

To further emphasize their strong be lief in the necessity of such legislation, the special committee appointed at the last meeting to wait on Recorder Connell, offered their report, in the form of resolutions, which were unanimously adopted. They are as follows:

The West Side board of trade, at a regular meet ing held on March 11, 1902, believing it expresses the demand of West Scranton for a viaduet over the Delaware, Lackawanna and Western railroad tracks on West Lackawanna avenue and that i voices the general sentiment at to the kind of viaduet aforesaid, hereby declares;

Whereas, An ordinance, file of common coun cil No. 67, 1991, now before the city councils, provides for the issue of \$285,000 of city bonds, for the making of certain improvement in the

Therefore, be it Resolved, That the West Side Board of Trade for itself and the citizens of West Scranton, here by demands that a sum sufficent for the constru-tion of a viaduct on West Lackawanna avenu over the Delaware, Lackawanna and Wester tracks as aforesaid be included in the bond ordi-nance now before councils; believing that the opportune time for the securing of the appropriation and for the construction of a viaduct he present time, when general improvement ar contemplated for the entire city. Further be it

Resolved, That the councilmen of the city, and articularly the councilmen from West Scranton vards be asked to withhold their support from the present bond ordinance unless a sum sufficient fo construction of the viaduct aforesaid be it luded within the terms of the ordinance.

(Signed) D. D. Evans, T. Fellows Mason, W. Moser, John R. Farr, Robert J. Williams, Com-T. Fellows Mason, who submitted the resolutions, spoke in favor of them. It is the duty of the board, he said, and the duty of the recorder, to help get this viaduct, as it is vastly of more importance than any other item in the present bond ordinance.

President Daniels called the attention of the board to the fact that the ordinance has contemplated improvements in it for every section of the city but West Scranton, and while he did not want to be construed as being antagonistic to Recorder Connell's views in the matter, still he was of the opinion that there must be some reason for such an evident omission.

In the first place, he said, the recorder did not want the ordinance amended by any "riders," and thus informed the committee when they waited on him. Then it came to pass that \$13,000 was needed for South Scranton, and now it appears that \$49,000 additional is re-

quired for new bridges, etc. There is something behind all this that the board is not conversant with," he said, "and if the recorder wants a separate ordinance for a viaduct, why not have separate ordinances for these additional appropriations. We have a right to ask questions, and in justice to the people of West Scranton we should demand reasons for this appar-

ent neglect." W. Hayden Evans expressed his surprise at the recorder's attitude in the natter, and was heartily in favor of the resolutions and in persuading the West Scranton councilmen to insist upon the appropriation being included in the or-

Select Councilman Joseph Oliver said that it strikes him that the recorder

cannot veto items in the bond ordinance after they have been passed by councils. There is only one item in it, he said.

Mr. Mason here informed Mr. Robathan that the structure is wanted or the south side of the street, and that \$225,000 is needed to cover the cost of construction and consequent damages, stion and threw some hot shot into the board and the recorder to help get the viaduct," he said, "as it is of Miss Louisa Williams, of North tem in the bond ordinance, I am happy tack of grip the past few days. o say that I am not thin-skinned, and want this appropriation, and I want Home and Foreign Missionary society record in the matter. "We want a viaduct, and we don'

want to be sat down on by any counilmen or recorder. The appropriation should go through or fall with the rest, week, and if need be, we should make this natter a political issue."

D. D. Evans contended that the argunents advanced against a viaduet on the south side of the street are very limsy. E. W. Thuyer, who was elected o membership along with John R. Edvards, expressed the opinion that it vill be necessary to make the viaduct

B. G. Morgan also favors making it political issue, and William Farrell ays it will enhance the value of proprty on the northerly side of the street. After all the discussion, a motion was passed instructing the secretary o notify all the West Scranton counilmen that the board favors the erecion of a viaduet on the southerly side

Rev. H. C. McDermott, of the Simpon Methodist Episcopal church, West Scranton, delighted a large audience last night with his lecture to the young men of the Brotherhood of St. Paul, of the Providence Methodist church, in the church parlors.

The speaker referred to the unforunate tendency of many young men to frequent the saloon, and said a far

better place for them would be the church. The purpose of the Brotherhood of St. Paul is to gather young men into the church. They need attention, for now the most devoted church workers are the women. Men, would save them from much temptation and much evil. The following officers are in charge
