STATE FEDERATION FIRST CONVENTION

Provision Made for a Legislative Committee—Synopsis of the Proposed Constitution. At the third day's session of Wilkes-Barre convention to form a State Federation of Labor, it was decided that at each annual session a legislative committee of three shall be elected, and that the chairman of the committee shall attend each session of the legislative body, make a thorough report weekly of what is done, and also keep a record of how the legislators aid or oppose legislation in favor of the workmen. The chairman is to get \$5 a day and railroad fare.

The state is to be divided into seven districts, and a committee was appointed to do this work. Aid was offered the miners in their endeavor to get a fair and just settlement of the existing difficulties, and it was decided to send a committee to see the legislative committee of railroads, which meets at Reading next month, to plan harmonious action regarding legislative matters.

A telegram was received from President Gompers, approving the work of the federation. The dues for the year were fixed at half a cent a man for the local unions, \$5 for the central and state bodies, and \$1 initiation for the new unions. The convention committee of the whole discussed an amendment presented by J. Mahlin Barnes, of Philadelphia, a delegate from the Cigar-makers' union of that place, to the effect that the executive council shall constitute a legislative committee and that no member of the state federation shall at any time go to Harrisburg as a lobbyist.

The discussion for and against this amendment brought out much useful information, and after the various points had been thoroughly discussed the matter was placed before the convention to decide by vote and the amendment was lost.

An abbreviated report of the committee on constitution was given out. It is, in part, as follows: This organization shall be known as the Pennsylvania State Federation of Labor and shall conform to its rules, etc. The object shall be to encourage the formation of local central trades and labor union in all cities and towns in the state. Also to assist in the establishment of national and international trades unions.

To encourage the purchase of union label goods. To agitate such questions as may be for the benefit of the working classes, in order to obtain the enactment of such measures by the state legislature. This Federation shall meet annually on the second Tuesday of March. Delegates from ten local unions shall constitute a quorum for the transaction of business.

Special meetings shall be called by the president and fifteen affiliated unions. Two months' notice must be given. No person shall be eligible to membership unless he or she has been a member of a labor organization six months prior to the date of convention. This does not apply to unions organized six months prior to the convention. No boycott shall be approved by the Federation until a thorough investigation has been made, and a faithful attempt to remove the cause of the grievance.

MOTION WAS REFUSED. Celebrated Insulator Case Again Before Judge Archbald. Three months ago, Judge Archbald, sitting in United States circuit court, rendered a decision for the plaintiff in the contested patent case of the R. Thomas & Sons' company against Fred M. Locke.

The patent in dispute was on an insulating "old method" referred to in the opinion. Judge Archbald said that there was an old way of manufacturing the insulators, but the plaintiff company was making them by a new process and the defendant company's method of manufacture was an infringement.

Yesterday Judge Archbald heard a motion by the defendant company to modify his decree so as to permit the defendant to manufacture by a certain method, which it claimed corresponded to the "old method" referred to in the opinion. The motion was made, it was asserted, to avoid the possibility of proceedings for contempt of court.

The plaintiff company argued against the motion, contending that it was nothing more or less than a request by the defendant that the court act as its counsel. After hearing authorities quoted on both sides, Judge Archbald decided that the motion, if granted, would be equivalent to committing the court on a question brought up irregularly, and the motion was overruled.

Attorney Howard P. Dennison, of Syracuse, appeared for the motion. It was opposed by Attorney Hubert Howson, of New York city.

THE LAFAYETTE CLUB. The announcement of the coming of the Lafayette College Glee club has caused a flurry of pleasant anticipation among musical and society people. College glee appeal not only to all lovers of music in general, but in particular to all college men and those who are interested in the intellectual work of our people. These songs represent the higher social life of the student world; the esprit de corps. A very large list of patronesses has been secured and this, in addition to the large alumni and the host of friends, will make the concert of March 21 a notable society event.

The High school auditorium will be suitably decorated for the occasion. Tickets at Powell's. Business Men's Lunch. From the noon lunch menu, at Hansley's, 429 Spruce street, may be ordered: Oysters, chops or just a cup of excellent coffee.

MEISTER'S MEN STILL WINNING

ARLINGTONS TOOK TWO MORE GAMES LAST NIGHT.

They Won from the Franklins, and Are Still in First Place—Liederkrantz Team Lost to the Centrals. South Side Team Is Still Making a Try for Low Score Record—Backus Team Won Three Postponed Games, and Is Now Tied with the West Siders.

The Arlingtons, of the City Bowling league, are still keeping up their winning streak, and by taking two games from their closest rivals, the Franklins, last night, are now fast and secure in first place. The games rolled by this team were decidedly the best of the night, and had the Franklins not fallen down fearfully they should have taken at least two. The score:

Table with columns: Team, Total, and Score. Includes teams like Meister, Kiefer, Hawek, and others.

The first class total of 2,514 was rolled up by the Centrals against the Liederkrantz team. Two games were won by the former by big margins and the first was also lost by a big margin. Shaw had the only 200 score made to his credit. The score:

Table with columns: Team, Total, and Score. Includes teams like Shaw, Sothy, O'Connell, Wharton, Jones, and others.

The poor unfortunate South Siders kept up their losing streak again last night and gracefully dropped three straight to the Hample team, which rolled a superior game. The South Siders weren't in it for a minute, the highest game total they made being only 740. The score:

Table with columns: Team, Total, and Score. Includes teams like Bell, Rothel, Murphy, Bresser, Lappitt, and others.

The standing of the clubs in this league is now as follows:

PROPOSED EMIGRATION LAWS. They Call Forth a Protest from the Lithuanians. The following resolutions have been passed by an organization made up of the Lithuanians of the city:

We, the undersigned Lithuanian citizens of Scranton, Lackawanna county, Pa., representing the Lithuanian Benevolent Society, at a meeting assembled, and after a thorough discussion of the subject, on the 12th day of March, 1902, have resolved: Whereas, There are several bills before the senate and house of representatives to amend the immigration laws of the United States, introduced by Messrs. Lodge, Burrows, Scott, Penrose, Kinkaid, Johnson, Sherman, Shattuck, and William Connell, etc.

Are You Sick?

Do you suffer from Kidney, Liver, Bladder or Blood Disease or any urinary trouble, Dyspepsia, Rheumatism, Constipation, or if a woman any of the sicknesses peculiar to your sex? If so, send your address to Dr. David Kennedy Corporation, Rondont, N. Y., and they will send you absolutely free a trial bottle of

Dr. Kennedy's Favorite Remedy

The greatest specific known to medical science for the cure of these diseases of any urine acid trouble. It has been used for nearly thirty years with unflinching success. Its sale is so large to-day that it can be found at any drug store. \$1.00 a Bottle or 6 for \$5.00.

It is not involving moral turpitude—without defiling character and definitely what may be understood by moral turpitude. Whereas, They want to give to the commissioner general of immigration absolute authority to reject any immigrant, or to "deport" immigration officers for such service in foreign countries in carrying out the said purposes, as he shall direct, and such other matters. Be it Resolved, That taking these bills from a moral standpoint, we condemn them as inhuman and unjust; we try to cheer the poor immigrant of his last penny instead to help him. Such bills are unhuman in the annual world of the law of migration prevails, and no bars will prevent the migrations of men. The bills are in flagrant disobedience with the commandments of the Bible, to do unto others as you would have them do unto you. These bills are intended to protect the despotic European thrones, and not to protect us against anarchy. Social and political injustice always and everywhere bring about resistance and discontent. Even the constitutionalists of Russia, nihilists, are debarred from landing in our ports, and heeded-riders United States, and the present immigration laws are not only stringent and restrictive, but do harm to the real interests of our country. The government should help the immigrants by sending them free of charge to the west, and help those who are willing to settle on a farm as farmers, by advancing them a loan to buy a farm on easy and long terms of installment, and in this way to obviate the overpopulation of the eastern states, and at last we ask Hon. William Connell, the representative of our district, to introduce a bill to the effect, viz: That all honest immigrants and respectable persons who are admitted by the government, instead of increasing immigration officers and their salaries should create a fund to provide the immigrants with supplies of necessary farm and stock, and to distribute them equally in the states of the republic. By order of the above named society, Frank Zivakowski, President. J. W. Goodrich, Secretary.

Copies of the resolutions are to be forwarded to Senators Quay and Penrose and Congressman Connell.

SMALLPOX HOSPITAL.

Furnishings Are Being Removed and a Tenant May Be Secured. Sanitary Officer Burke was busily engaged yesterday in superintending the removal of the furnishings of the smallpox hospital to the Nay Aug engine house, where they will be stored and kept for use in case of another outbreak of the disease in this city. The hospital itself, which is not a single patient, will not be torn down, but will be left standing for use in a future emergency. An effort will be made to get somebody to live there and take care of it, and it is extremely probable that if such a tenant is secured that he or she can have the place rent free.
