THE MARKETS

New York, March 14.—There were some re-sarkable movements today among the obscure peciatries, but the important representative ocks were neglected and practically immovable. socks were neglected and practically immovable. Some important developments in the money market alturation helped the stock market to face with equanimity the forecast of a movement of currency of the week which, on its face, promised to wipe out entirely the slender surplus reserves of the banks. The rise in the call loan rate above 4 per cent, the highest of the year, indicated the presence upon the money amplies. During the day there came very heavy offerings of government bonds to the sub-treasury for redemption. This was the direct result of the withdrawal of the government's offer to redeem after tomorrow. The total redemptions today ran up to \$2,479,534, and as the payments are in cash, they will show a good day's average in tomorrow's bank statement. Consideration was also given to the fact that a Standard Oil dividend of \$20,00,000, which can hardly be without effect in the money market. Of other developments, the settlement of the Boston strike was favorably interpreted, although some uneasiness still prevails concerning the satistence of the very terms with the ancient of the stilement of the very terms with the ancient of the stilement of the very terms with the ancient of the stilement of the very terms with the ancient of the stilement of the very terms with the ancient of the stilement of the very terms with the ancient of the stilement of the very terms with the ancient of the stilement of the very terms with the ancient of the very terms with th

of the Boston strike was favorably interpreted, although some uneasiness still prevails concerning the seitlement of the yearly terms with the anthracite miners. The increase in the Southern Ratilway preferred dividend has been expected with great candicare, but the stock of that company advanced on the announcement, which also served to check a selling movement in the general list. There were some very sharp relapses among minor stocks which have been recently advanced on rumors of consolidations and absorptions, but there were other strong pints in similar rumors. The violent advance in Westingbouse Electric stocks on light transactions had nothing in the way of news to account for it.
