THE MARKETS

Wall Street Review.

New York, March 19.—It is not often that the stock market witnesses such a spectacular and sensational movement as it was today. The market was buoyant and active, and in fact the dullness in the general list was extreme and prices of the important railroad stocks continued very heavy and the fluctuations favorable. But it was among the stocks which are traded in only at intervals of weeks as a rule that the speculation was fierce and the movement violent. There was nothing in the way of news to explain why buying orders for 4,500 shares of Colorado Fuel should make a wide opening in that stock all the way from par to 100, compared with 98 last night. Neither the high point of this range nor the low point was touched again during the day, but the dealings continued very heavy and the fluctuations favorable. Activity was revived in New York All-Drake with a jump of 10 1/2 in price and a subsequent recovery of fully half that amount. North American suffered from realizing after the opening advance but forged upwards again to 84 above last night and closed at 84 1/2. The rise in General Electric and in Westinghouse were due to rumors of consolidation but both of these reacted sharply. American Ice rebounded 2 1/2 from its recent violent decline. In the railroad list Chicago, Indianapolis and Louisville was an interesting item, directly connected with the fact that it was to be placed on a 4 per cent. dividend basis. Late in the day St. Paul, Erie and Pennsylvania showed activity and strength with an advance of nearly 4 per cent. due to published reports that the Pennsylvania was practically the first railroad stock in the list of first importance which moved as much as a point. There was considerable demand, however, for Baltimore and Ohio. The price of 2 1/2 in Sugar was an interesting item, reaching at Washington upon the question of the Cuban sugar tariff, and also to the certificate of condition filed by the Massachusetts State treasury showing large increase in resources. Meanwhile, American Sugar advanced 1/2. The market has enjoyed recent periods of strength, the losses being caused by the marketing of only a few shares of the stock. The market is now in a state of uncertainty generally that the trading became neglected. The conference of coal and iron makers at Philadelphia, which is expected to be held in the near future, is expected to be a success. Total sales today, 200,000 shares. The bond market was dull and irregular. The total sales were \$1,000,000. The following quotations are furnished The Tribune by Haight & Freese Co., 314-315 Mears Building, W. D. Rung, manager.
