INDUSTRIAL AND LABOR

PRESENT CONDITION OF AN THRACITE COAL TRADE.

Those Interested in It Are Directing Their Attention to the Convention Now in Session in Shamokin. Capacity of F. S. Barker & Co.'s Scale Works Is to Be Doubled-F. E. Zerby to Become Division Superintendent at Wilkes-Barre for Lehigh and Wilkes-Barre.

A brief spell of cold weather and high winds stimulated retail buying during the week and was responsible for the consumption of a lot of coal. But for the cold wave the market would have been very quiet. It is not yet certain that the spring price list will not be out about April 1, consequently dealers are buying only for immediate needs. At the mines things are slowly getting in shape after the recent floods. The Reading has all but a small fraction of its collieries running, and is sending out a pretty heavy tonnage.

Interest just at present centers in the convention of representatives of the United Mine Workers at Shamokin, where the question is to strike or not to strike. The chief producing companies last week posted notices announcing a continuation of the ten per cent, advance in wages given after the 1900 strike, and a willingness to discuss any grievances with their employes. The delegates to the convention apparently are of various minds. Most of those from the Schuylkill region seem to be opposed to a strike, those from the Wyoming and Lackawanna regions are more outspoken and talk of striking unless the operators grant straight-out recognition to the union, make uniform rates of wages for different mines in the same district and give an eight-hour day to all mine-helpers, firemen, engineers, mule drivers and workers in the breakers. The indications are, as wages are good and many miners have been idle more or less all winter from interruptions of production, that the radical element in the convention will have difficulty in forcing a strike, which, at this time of the year, is likely to have but one outcome-total defeat. - Engineering and Mining Journal.

To Double Capacity.

F. S. Barker & Co. have purchased three acres of ground adjoining their plant on the Diamond Flats, near the power house, and have plans prepared for new buildings that will double the capacity of the works.

The demand for the scales manufactured by the company has been so great that the present capacity of the plant would not permit the company to fill all of its orders. Work on the addition will begin in a short time.

F. E. Zerby Promoted.

Eli T. Conner has resigned his position as division superintendent of the Lehigh Valley company's collieries in the Wilkes-Barre district, to become general superintendent of the Webster Coal and Coke company, of Cressona,

His successor is F. E. Zerby, superintendent of the Hazleton division.

D., L. and W. Board for Today. The following is the make-up of the Delaware, Lackawanna and Western

The Economy's Annual Gift Carnival

Tomorrow, Tuesday, March 25th, From 1 to 6 p. m.

.00 Worth of Homefurnish= ings Given Away. .

Without the expenditure of a cent, in eelebration of the Twelfth Great Year of "Economy" Progress.

Rules Governing the Economy's Annual Gift Carnival. "Keep to the Right, with Eyes Open."

On entering the store Tuesday afternoon, a numbered ticket will be handed to you---Be sure you get one at the door---In the circle, on this ticket, you will find a number, printed in red. The tickets being consecutively numbered, no other ticket bears the same figures.

For the purpose of illustration, let us suppose that the number of your ticket is 2879. With ticket in hand,

as a constant reminder of the figures it displays, you proceed through this store, always "Keeping to the Right, with Your attention will at once be attracted to the large numbered placards, attached to various valuable pieces of furniture, the figures on which correspond to those on tickets, given out at the door.
"Look at that Bedroom Suit, what is the number on it?"

No, the figures are different. it is not yours. There is a Sideboard and a Parlor Rocker, numbers are pretty close to yours-but not quite. How the blood courses through the veins, as from the excitement of the chase.

"What is the number on that elegant Center Table?" "2?" Yes. "8?" Yes. "That's it, 2879 CLAIM IT, IT IS YOURS, WITHOUT THE EXPENDITURE OF A CENT.

Save Your Ticket for Free Souvenir.

If you do not secure a large gift, retain your card, as every holder of one, will receive a handsome present, within a few days thereafter, as the card will explain. No Sales Made after 11 a. m. on Gift Carnival Day.

Do Not Request It. TUESDAY, MARCH 25, 1902. Music by Lawrence.

A Weak Stomach

Is a Source of Danger—A Vigorous Digestion is a Great Safeguard.

Do not think for a moment that the inconvenience and distrose is all there is to dyspepsia.

The disagrecable symptoms of dyspepsia are of the least account. Hecause the health reports do not list dyspepsia as causing death people seem to think it is more disagrecable than dangerous, but the retories is true. Some other disease, as consumption or typhold fever, is credited with the fatal illness, but dyspepsia made those diseases possible.

Imperfect digestion was responsible for a state of chronic starvation, the half fed this sues possessed little power of resistance and were an easy proy to the germs of consumption.

Imperfect digestion permitted germs in swall-swed food and water to get through the and digested by the powerful gastrie juice, and enter the lowel in the second many provided into the blood and by it carried to every part of the body. In some cases this poles fatal, in other cases this poles for the permit is settled in some tissue and, if near the surface, resulted in boils or the so frequently fatal carbincle; or if in deeper tissues formed an abosees with its attendant distress, dishgors, often fatalities. In still other cases this polson from putrid, fernenting but partially diseated food, overfaxed those organs called upon to climinate it and inture the lungs, the liver, or doveloped Bright's disease in the kidneys.

Yet, mind you, none of all these deaths were credited to dyspepsia; no one was warned against indigestion; all were left to suppose it to be only a disagreeable condition devoid of danger.
