## **METHODIST CHURCH**

Contract for the Re-construction of the Edifice Awarded to Joseph A. 000 That Is Needed.

The contract to rebuild the Methodist church, which was burned in November last, has been awarded to J. A. Hoole, for the sum of \$23,375. There is another item for iron trusses, the cost of which has not been ascertained, will be held. The three hours' service but which will probably be \$2,000. Mr. Hoole's figure is for construction work only, and does not include stained glass windows, heating apparatus, pews, or gan and other furnishings, which will

add about \$12,500, a total of \$28,000, The insurance received by the church was \$20,000, so that \$18,000 will be re quired to replace the church. Then has been subscribed by Scranton friends, \$2,075, and by Carbondale, \$874

There was a committete appointed consisting of Miss Hattle Pascoe and Mrs. Walter Scurry to solicit funds, in view of the fact that the Methodist people have but little wealth and that they had only just finished paying for the former church, when it was burned and that it seemed impracticable to raise \$15,000 more from our own people, Therefore, now that it is known how much will be required, the same committee will gladly report to the official board whatever subscriptions can b secured from kind sympathizing friends and neighbors.

The subscriptions to this time are a follows: C. E. Spencer, \$100; John H. Thomas, \$100; Dr. Widmer, \$5; Miss Amanda Morss, \$25; Miss Lois Morss, \$25; W. H. Peck, \$25; J. J. Jermyn, \$50; C. D. ### COFFEE PHILOSOPHY.

Don't Blame the Doctor.

The most dangerous false friend in the one that under the guise of friend ship, day by day insinuates himself into your good graces and takes advantage of the association to do you harm; that is exactly the position of coffee. It enters your sanctum under the guise of a warm, close friend and bowly, day by day, works away at your destruction.

Why this should be no one can say but it is a fact nevertheless. Hundreds of thousands are testifying to the terrible straits that coffee drinking has

The support which the Methodist hurch seeks is sure to be forthcoming, as this community fully appreciates the heroic sacrifices of this congregation in rearing a house of worship i which to fasten the influence of their work in the religious life of the city. The letting of the contract to Mr. Hoole is quite a compliment to him, and it is a source of general satisfaction to know that the work is to be

#### WORLD FAMED TENOR. Ben Davies Who Will Be Heard by Many Carbondalians.

No artist from England has ever met ith the success achieved during the past few years by Ben Davies, first visit to this country was brought bout by a special engagement at the World's fair, Chicago, and so great was his success on that occasion, that every year since then, he has visited this country for a limited number of engagements. In addition to a voice of magnificent quality, he possesses the greatest art in singing, which, on the ontinent of Europe and in America has placed him at the head of the list of tenors now before the world on the concert platform. An idea of the standing he now holds in the musical world is instanced by the fact that the board of directors of the Cincinnati festival of 1898 brought him specially from England at enormous expense to appear at their festival (his third appearance at these concerts) and again engaged him as the principal tenor for the festivals of May, 1900.

Mr. Davies will sing in the concert for the benefit of the Home for the Friendless to be held in Scranton on Thursday evening, April 3. Blauvelt and Fritz Kreisler, the renowned violinist, will likewise be heard n this concert, which will be a great nusical event. Many Carbondalians intend to be patrons of the concert, and already seats are being bought at Clark's Drug store.

#### DROVE THROUGH SNOW.

A Story Calculated to Make One Smile, but a Fact Nevertheless.

One would scarcely credit that the oadways a few miles from Carbondale are still partly choked with snow leaving dust-covered driveways in Carbondale and encountering snow drifts. a few miles in the country, that the horse broke through to his knees.

Supervising Principal John B. Delaney, of the Fell schools, and School Director John Mooty, of Simpson, were making a visit among the schools After leaving Crystal lake they turned into the short road that leads to Forest City. During the short drive, of about three miles, they encountered a snowheaped road until they reached Richmondale. In some places the snow was as solidly packed as in the midst of winter, and there was what could be called good sleighing. In more than one place, the snow was so high, the horse had to break through the drifts. To the surprised and bewildered occupants of the carriage, their experience seemed more like a dream than a reality. There was no doubt, however, about the stern reality of the thing, for it took them over two hours to cover the three miles.

This stretch of roadway is so located on the mountain top that it is sheltered from the influence of the sun. The fact that there has been little rain since the last snow fall is another factor in the snow's presence on the moun-

#### MINE SETTLINGS AGAIN.

Mayfield Yard the Scene of Two More Disturbances.

The vicinity of Mayfield yard, which has been affected more by settlings of mine workings than any district hereabouts, was the scene of more disturbinces this week.

Wednesday, there was a cave-in in front of the "cottage" homestead, and yesterday two big holes broke the surace close to the round house of the Ontario and Western.

The cave-in in front of the "cottage" was the lesser of the two. The settling was directly in front of the building, the sinking ground involving the steps of the house. The hole is about five feet deep and covering an area of about thirty-five feet.

The holes near the round house are midway between that building and the roadway. They are considerably greater in area and in depth. Each is about ten feet, while they cover an area of forty feet. The ground first settled in the latter spot some time ago, but the depression was not noticeable until the drop of yesterday, which was the result of gradual set-In the evening Father Bader, of the tlings since the first disturbance. and general weakness so commonly experienced in

the spring of the year naturally suggests the need

of a tonic. In the choice of a spring medicine to

tone up the system the selection should be made

judiciously with a view to the needs of the debili-

tated system. The true tonic will take from the

system the accumulated waste which it does not

need and give it what it does need-vitality. The

true tenic will cleanse the blood of the impuri-

rities which are so productive of boils, pimples,

blotches, and other skin eruptions. It will stimu-

late the sluggish liver, invigorate the heart, and

put the whole body in a condition of perfect health,

every requirement of a true tonic. Its blood-puri-

fying properties are notable. It carries out of the

blood the particles of effete matter which poison it.

It stimulates the liver into new activity and invig-

orates the heart. It promotes a healthy appetite

and cures the diseases of the stomach and digestive

and nutritive tract which prevent proper nutrition

of the body. Thus it takes away from the body

the dead waste which clogs and corrupts it and

supplies new vitality through perfect nourishment.

Dr. Pierce's Golden Medical Discovery is the

best medicine for spring, because it is the best

medicine in any season of the year for weak,

makes men and women feel like "new"

#### HAD SPOTS ON THE FACE.

"When I commenced taking your 'Golden Medical Discovery,' I felt so weak and bad could hardly drag writes Mrs. Emma West, of Windy, Wirt Co., "Face seemed to be covered with brown spots but before I had taken one bottle of your medicine the spots were all gone, and I began to feel like a new person. Took four bottles and have felt well ever since, My husband has also taken the 'Golden Medical Discovery,' for stomach trouble, and it did him more good than anything he ever tried,"

FEELS NEW ALL OVER. "For five years I was troubled with liver complaint," writes Mr. Hiram A. Severance, of East Washington, New Hampshire (Box 36). "Had no appetite from 1897 to 1900; vomited every night; could not sleep. My weight went down from two hundred and forty to one hundred and seventy pounds. I doctored with home doctors, but got no relief. Wrote to Dr. Pierce and at once received an answer, saving my trouble was indigestion, also liver complaint. He advised me what course to pursue and what medicines to take. I commenced their use June 13th, 1900. Have taken thirteen bottles of Dr. Pierce's Golden Medical Discovery and seven vials of his 'Pleasant Pellets,' and have increased in weight from one hundred and seventy to two hundred and ten pounds. When I commenced Dr. Pierce's medicine, had not done a day's work for a year. Since last November up to the present time (November 18th, 1901,) I have worked hard, and I owe it all to Dr. Pierce's medicines. Am well and earty; eat three good meals a day. I lost flesh and strength, was not able to do a good day's work. I commenced taking Dr. Pierce's Golden Medical Discovery, and when I had taken one bottle I could sleep and my appetite was won-derfully improved. I have taken five bottles and am still improving."

### NEW BLOOD AND NEW LIFE.

"I have recommended Dr. Pierce's Golden Medical Discovery to many friends," writes Miss Bertha Ebeler, of 1415 Benton Street, St. Louis, Mo., "and they all think it will do just what is claimed for it. It is the best thing for nervousness and for a weak, run-down condition that anybody would want. I was very nervous and weak ast summer. I took five bottles of Dr. Pierce's Golden Medical Discovery and it just made me feel like a new It gives a person new life and new blood, can work all day long without feeling the least bit tired.
