Brilliant Spectacle.

How the armory could have been made more attractive with anything like reasonable expenditure is difficult to even imagine. It unquestionably presented the most charming picture of its kind ever seen in Scranton. The decorations at the military ball, with which the armory was formally opened, were magnificent, but they were surpassed in many a degree by those of last night's ball.

To fill that immense hall with color and avoid anything garish, was a task of no small magnitude, but the decorators succeeded in this task most admirably. A Few of the Gowns.

The gowns worn by many of the ladies were exceptionally elaborate, and there were several Paris creations to be seen in the boxes. Light colors, of course, predominated, though there were several dark blues and two bright red gowns showed up quite strikingly. Among the more conspicuous gowns was one worn by Mrs. F. O. Megargee. It was made by Armand, of Paris, and was of sky blue silk, with panels of net applique, cut en traine. The bodice

white watered silk with chiffon trim ming and pearl ornaments. Mrs. Wil-liam Kelly wore lavender figured slik, and Mrs. Joseph O'Brien wore a handsowe gown of figured silk with chiffon trimming.

Mrs. Fred Stegmaler, of Wilkes-Barre, was attired in a magnificent gown of black satin with elaborate bead trimmings and wore diamonds. Mrs. George Stegmaler wore black satin with chiffon trimming. In the adjoining box was Mrs. M. E. McDonald, who wore a beautiful gown of white silk. Mrs. Thomas C. Melvin, attired in dark blue silk, was one of the most attractive of the matrons. Mrs. Joseph Levy was attired in a

gown of black lace over while silk. The dance music was all that could be desired. Bauer had thirty-two picked men, led by himself, and with the aid of the huge sounding board with which the armory is equipped. they filled the big room to overflowing

with melody. The programme contained twenty four numbers, but this was easily stretched to forty by the encores, which the band graciously granted at each demand.

The grand march, shortly after 11 o'clock, was a most picturesque spectacle. It was participated in by 600 couples, led by R. J. Bourke, chairman of the general committee, and Mrs. R. . Wills, president of St. Joseph's society.

The marchers formed in couples, and 'ollowing the directions of Master of

Ceremonies J. Frank Siegel, paraded round the outside of the dancing floor at the extreme edge of the armory floor the line extending all around the room They next formed in fours, and then in eights, and while thus formed ascended to the dancing floor, the alternate lines separating right and left, and then meeting at the head of the platform, returned down the center sixteen in a line. They halted after all the marchers were massed in a solid quadrangle, and then, as the music changed, they broke away in waltzing couples. At the conclusion of the march the dancing was continued until after midnight, when there was an intermission

or supper, which was served by Caterer P. H. Durkin, in the upper corridor of the administration room. Dancing was again resumed at 1 o'clock and proceeded with until late. 1

St. Joseph's Society.

The society under whose auspices the ball was given is composed of the leading Catholic ladies of St. Peter's cathedral parish and some from adjoining parishes. Its principal work is the maintenance of St. Joseph's Foundling Home, one of Scranton's most bene ficent charitable institutions. The president is Mrs. Robert C. Wills; vicepresident, Mrs. John J. Brown; treasurer, Mrs. A. M. Cusick, and financial secretary, Mrs. B. T. O'Malley,

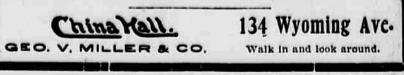

To even mention by name only those who were especially generous in contributing to the financial success of the ball would be to make a long list of names, which would include most of Scranton's usual contributors to affairs of this kind. Several of our wealthy men paid \$100, for their tickets; a number of others bought boxes and then au thorized the committee to re-sell them if they could secure purchasers; every body from whom the committee pur chased anything made rates that were almost like giving the things away.

At 9 o'clock the guests began to arrive in numbers and from that time until 11 o'clock there was a constant stream of people ascending the stairways. As each carriage drove up, it was given a number and when the guests were ready to go a stentorianvoiced footman with a megaphone called the coachmen by number, thus doing away with the confusion often attendant at large gatherings.

On reaching the main floor, the guests were directed to cloak rooms, and when ready to enter the hall were escorted by members of the reception committee and floor committee. When it was seen that the attendance was to be so unexpectedly large there was a fear that the dancing platform would be constantly overcrowded. This,
