CASEY SITS UP NOW.

The Man Who Suffered from Hiccoughs Is Almost Better.

To the many who were interested in the case of Edward Casey, of Powderly road, who it was feared was afflicted with fatal attacks of hiccoughs, it will be assuring to learn that he is on the road to rapid recovery. Since last Saturday, he has shown continued Improvement. The hiccoughing lessened on that day and has grown less, until now it has quite ceased. The patient has become exceedingly quieted and is now able to sit up. He has commenced to take nourishment and partakes quite liberally of solid food each day. There in no indication of a recurrence of the attacks, and his recovery seems assured.

Singularly enough, the cessation of the hiceoughs cannot be attributed to any of the many remedies that were tried. The attacks stopped of themselves as they often do, and just when everyone despaired of Mr. Casey's recovery. Everyone hereabouts will be pleased to hear of the patient's favor-

HULL IS IMPROVING.

Small-pox Sufferer at Waymart Seems to Be Getting Better-The Situation Quite Satisfactory as Incubation Period Is Passed.

The small-pox situation in the vilage of Waymart is quite satisfactory. the period of incubation, two weeks, is hopeful.

Bert Hull, the young man who is turn for the better. Word received satisfied men would not accept. The from Waymart last evening brought Hansen's also offered to replace the the cheering news that he was improving and his recovery is looked for.

As mentioned before, the physicians interested in the case are hopeful that they have controlled its spread. It is two weeks today since Hull's case was diagnosed as small-pox. This is the limit of the period of incubation, and if there was anybody who came in contact with him and in a condition to get the disease, the symptoms should be developed by this time. The fear is removed, therefore, of any one becoming affected outside of the Cliff family, where Hull is quartered, by reason of contact with the sufferer. If there is any danger from Hull's case now, it is perhaps only among those in the same household.

The quarantine, however, will not be removed from the affected house until all possible danger has passed. It was due to the quarantine being established so soon as Hull was taken sick that the spread of the disease was prevented, and it is proposed to rigidly maintain the quarantine while the danger

AFTER WEEK'S IDLENESS.

Big Coalbrook Breaker Resumes and

Gives Hundreds Employment. The longest period of inactivity at the big Coalbrook breaker of the Delnware and Hudson was this week, when the machinery was idle for four days, or since Monday of this week. Work will be resumed this morning, thus allowing the employes in the mines about the city, who were on enforced idle

ness, to go back to their places.
On Monday of this week the breaker was idle, owing to the observance of the day dedicated by the United Mine Workers to the eight-hour day cause. This idle day was taken advantage of by the company to make badly needed repairs. They were not completed as soon as expected and were carried from day to day until vesterday afternoon when word was sent to the men to report for work this morning. This will be good news to the employes.

TO YOUNG WOME

A Denver, Colorado, Young Woma recently Wrote a Letter to Mrs Pinkham, which Aptly Pictures the Condition of a Great Many Young Women. Read What She Says:

"DEAR MRS. PINRHAM: — This is the first opportunity I have found to write and thank you for the good your Vegetable Compound has done me. I feel better than I have for years. It seems a 'seven days' wonder' to my friends. Where I used to be pitied, everything is the opposite now, and there is not a day but some one wants to know what I have done to make myself look so well.

"Before taking Lydia E. Pinkham's Vegetable Compound I had constant headaches, was constipated, bloated, eyes weak and watery, bearing-down pains, pains in the small of my back and right side; took cold very easily, which always caused intense pain in the ovaries, and I did not want to go anywhere or see any one. I was called cross, but I could not help it, feeling as I did. I could not lift anything or do any hard work without suffering for days afterwards. Menstruation lasted for eight or ten days, the first three or four days being almost constant pain day and night."

Nothing in this wide world has relieved so much female suffering as has Lydia E. Pinkham's Vegetable Compound; no medicine can produce such positive proof of cures and good results; therefore, no other medicine can be "just as good." Office women are frequently afflicted with sickness brought on by constant work in one position. Perhaps in go-ing to the office, they get their feet wet and sit all day long with damp shoes and stock-Nothing in the world is so injurious. Wet feet, hard work, and confined positions have made invalids of a great many robust and ambitious young women.

A Richmond Girl's Experience.

"Dear Mrs. Pinkham:—I have just purchased a bottle of Lydia E. Pinkham's Vegetable Compound but am advised to write you before

treating myself.
"I hardly know how to express myself. At times I feel well, and in less than ten minutes I am actually wretched with headache, that tired feeling, and so nervous that the sound of a door bell will make me start. I cannot walk two blocks without feeling fatigued. Menstruation has never been regular, have a slight discharge of leucorrhoea. I would like your advice, and sincerely hope I may find relief in your medicine."—MISS CLARA PORTEWIG, Richmond, Va. (Oct. 26, 1900.)

Statement No. 2.

"Dear Mrs. Pinkham: — It gives me great pleasure to thank you for the benefit I received from your Vegetable Compound.
"When I wrote to you I could not go up-stairs or walk a hundred yards without being completely fagged out, but to-day I can easily walk two miles. I was also very nervous and suffered from a misery in my back but these

troubles are all a thing of the past. I was at a loss to describe my feelings, but now thanks to your Vegetable Compound I am a well woman. I advise all suffering women to write to Mrs. Pinkham, and I shall never fail to recommend your remedies to my friends."—MISS CLARA PORTEWIG, Richmond, Va. (March 26, 1901.)

Miss Thompson's Pains are Cured. "DEAR MRS. PINKHAM: — I want to tell you what Lydia E. Pinkham's Vegetable Compound has done for me. For several years I had suffered with loss of appetite, nausea, vomiting, constipation, palpitation of the heart, headache, pains in nearly all parts of the body. My physician said it was only indigestion, but his medicine did not help me any. I began the use of

your Vegetable Compound. I have taken four bottles and now those troubles are cured. I cannot praise it enough."-MISS BELLE S. THOMPSON, Box 14,

Asheville, N. C., March 8.

In the mountains of the western par of North Carolina, in the far-famed "Land of the Sky," is a resort not only of pleasure, of comfort and rest, but one of health, the key of happiness. It is Asheville and the surrounding country, where the air is purer, the sky bluer, the clouds whiter, the mountain peaks finer, and the climate more delightful than any other place known in the South. Here is the haven for those who would for a little while lay down the cares of life drink in the ozone of the mountains, and attempt to satiate the desire for the beautiful by gazing upon the picturesque panorama of mountain scenery. Impelled by the irresistible desire and longing to again see this levely spot we have left the cold March winds of the North behind and upon that great main artery of the South, the Southern Railway, have sought this place which was made for those who have felt the blighting hand of disease, those who have grown weary with life's labors, those who want the fresh invigorating air, those who love the picturesque in nature, those who seek seclusion and retirement from the busy world and who for a brief time wish to revel in the delights which here abound.

Aside from the charms of Asheville as resort of health and pleasure, it is found that nestled in the hills and valleys of this mountain region, there is a world, a place of teeming activity, a type of many thriving towns which have been built up along the line of the Southern Railway, a people steadily pushing forward with an energy and
