The Senate Will Probably Conclude Its Work on the Chinese Exclusion Bill and Give Attention to the Philippine Government Bill-Conference Over the Oleomargarine Measure-The Great Battle Over Cuban Reciprocity Will Be Fought Out on the Floor of the House. Both Republicans and Democrats Are Divided Upon the Issue, but the Ultimate Passage of the Payne Bill Seems a Foregone Conclusion.

Washington, April 6 .- The expectation of the friends of the Chinese exclusion bill is that its consideration by the senate will be concluded by the middle of the present week, if not be-The Philippine government bill fore. will be taken up immediately afterwards. This bill probably will occupy attention for a considerably longer time than has any measure since the Philippine tariff bill was passed, and the Democratic members of the committee on Philippines are now very industriously engaged in preparing for the debate. They do not profess to be able to defeat the measure, but say they will make strenuous efforts to secure material amendments. They object to various features of the bill and will

charge that its primary p bose is to permit the granting of franch.ses. They also will take exception to the unqualified continuance of the administration of the affairs of the archipelago, without making any provision looking to any form of self-government for the Philippine people. Other points of controversy will be the disposition of the friars' lands and of the public lands. Strangely enough, in view of

It is their hope that on the final vote the bill will be passed by Republican votes. The Chinese exclusion bill, which will come to a final vote tomorrow, will command practically every vote in the house. The Accident at a Foot Ball Game Results in the Death of Twentyone Persons at Glasgow.

By Exclusive Wire from The Associated Press. Glasgow, April 6.-The casualty lists of the Ibrox park disaster, when a number of persons were killed or injured by the collapsing of a spectators' stand during the international foot ball game yesterday afternoon between England and Scotland, have been completed today. They eclipse all the reports and estimates of the casualties which were current last night.

The disaster has resulted in the death of twenty-one persons and the injury of two hundred and fifty. Nearly two hundred of the latter were so seriously hurt that they were taken to infirmaries for operations and treatment. One hundred and fifty of them still remain in the nfirmaries. A large proportion of the injured had limbs broken, bodies crushed and mangled and heads and

faces gashed. Several more deaths will undoubtedly result from the most criti cal cases of fractured skulls.

History of Leo XIII.

His eminence then briefly outlined the personal and ecclesiastical history

of Leo XIII, dwelling especially upor his encyclicals, of which he said: The first encyclical to which I shall allude "Christian marriage" which was published in 1880. The holy father vindicates in strong and cornest language the unity, the sanctity and the aliseolubility of the marriage bond. He tells us that the married couple are the source of the family, and the family is the source of society Social life cannot be maintained in its purity and integrity unless it is sanctified at the foun-tain head of the home.
