"Way Down East."

"Way Down East," a play by Lottie Blair Parker, elaborated by Joseph R. Grismer, is to be produced at the Lyceum for three performances beginning Friday night. "Way Down East" for seven months crowded the Manhattan theater, New York, at every performance and was after-wards transferred to the New York Academy of

Music (the largest scating capacity of any the-ater in America), where it was given for 437 consecutive times, and its success in the metro-polis has been repeated in every large city where

it has beeen. There is a snow storm in the third act, an in-vention of Joseph Grismer's, said to be the most realistic ever presented on any stage. Every role has been placed in the hands of an actor, pecu-liarly fitted to the character, while all the mechanical effects, the appurtenances and the cele brated village choir that tend to make the

prated vinage coor that tend to make the metropolitan production a success, are retained and will be given identically the same at the coming engagement in this city. The sale of seats opens tomorrow morning at 9 o'clock.

accorded such an enthusiastic reception as no musical composition has obtained in years, it is a logical sequel to "Robin Hood."
