R. R. Y. M. C. A. FUND. A Record of Thirty Days Progress.

The Delaware & Hudson Pledge Their Support.

The canvass for the building fund of the railroad department of the Young Mens Christian association was thirty days old yesterday. Some delay has been caused by sickness and other obstacles, but in spite of that, the committee was yesterday able to report that the Lackawanna company's condition had been fully met. At the meeting of the building committee held last night total assets of \$25,110 were reported. This makes binding the Delaware, Lackawanna & Western pledge and provides the committee with a sufficient fund to begin building at

Architect L. C. Holden was present at the meeting last night and counseled with the committee concerning plans and specifications. As soon as the plans are completed, which will be in the course of a few days, the committee will advertise for bids. The question of temporary quarters for the railroad department during the summer has not yet been settled but will be soon. A fund of \$5,000 is still needed

for the completion and furnishing of the building, and this will be raised while the building is being crected. A particularly encouraging feature of the canvass came in the form of a letter from the D. & H. company which announced a subscription of \$1,000 towards the building and \$10 per month towards the current expenses of the work.

Considering the small number of Delaware & Hudson employes centering here this is considered a liberal contribution. The Lackawanna engineers have made a splendid showing having raised \$1,000 with over half of their number yet to be heard from. The committee will send a representative to New York this week to submit the result to President Truesdale for his approval. It is believed that the work of construction may be begun as early as May 1st, or possibly before.

MINERS' EXAMINERS.

DEPARTMENT OF MRS, J. E. O'DONNELL

ING THE LAST YEAR.

Shown in the Reports That Were Laid Before Councils Last Night in Connection with the Annual Message of Recorder W. L. Connell-Suggestions and Recommendations Made to the Recorder by F. L. Wormser, Director of Public Safety, as to Improvements. F. L. Wormser, director of the de-

partments. The report of Mr. Wormser follows: Department of Public Safety City of Scranton, Pa., Feb. 1, 1902, Hon. W. L. Connell, City Recorder: Dear Sir: I have the honor of submitting to you a report of the condition of the department

of public safety, with such recommendations and suggestions as appear to me of greatest import-ance to be considered and acted upon at this time. The report herewith enclosed furnishes a de-tailed statement of the administration of affairs in the several bureaus of the department, a

provided by law. It is needless for me to point out to you th necessity in the immediate future of a new fire house for Chemical company, No. 1, and for the housing of the engine formerly in commission at Engine company No. 1, and now held as a re-serve engine for the central city; also for the

housing of the ladder truck now held in reserve The lease on the building occupied by Chemica company No. 1 expires on October 1st, 1904. The owners of said building are crowded for room and are anxiously awaiting the time when our lease with them will expire. Thus you will see the necessity for new quarters for the Chemical company, which should be in the neighborhood

where they are at present located. It would be difficult to procure suitable quar-ters for the company on upper Laekawanna ave-nue or vicinity, and if such a place could be found, the rental for the same would necessarily be expensive.

NEW ENGINE HOUSE.

I do not think that a house, such as the department requires, could be rented for less than 8000 per year. I would therefore recommend the purchase of a suitable site for a new engine house somewhere near the intersection of Lackawanna and Adams avenue. In this house, the book and ladder truck or reserve engine could be placed. The lot in the year of the city hall, originally surchased as a location for an engine house, should be improved and a building creditable to the city creeted thereon. This new house should ie known as fire and police headquarters.

In this building should be housed Engine com-pany No. 4, and such other spparatus as would be most desirable for the efficiency of the burcau of fire. Headquarters for the chief of the burcau of fire and bunk rooms for the burcau of police should be provided in this building. Provision should also be made for superintendent of fire alarm telegraph system; also ample room for the police patrol wagons and horses, In my estimate of expenditures for the bureau

of police, I have included an item of \$9,000 for ten regular patrolmen, the necessity for which is more than apparent. While this small increase in the police force is not adequate for the protection of the city, yet this small number will greatly add to the efficiency of this important The response of the contributors has thus branch of the department of public safety experience of other cities demonstrates that for proper protection there must be at least one affeer for each 1,000 inhabitants. I suggest that the force be increased from year

inancial condition.

year, so as to reach the above minimum at the

PUBLIC SAFETY Was Sick Eight Years with Female Trouble and Finally Cured by Lydia E. Pinkham's Vegetable Compound. **AGAIN ELECTED** GIVEN AN UNANIMOUS VOTE

"DEAR MRS. PINKHAM :- I have never in my life given a testimonial before, but you have done so much for me that I feel called upon to give you this unsolicited acknowledgement of

STOR OTHER 11.3

MRS. JENNIE E. O'DONNELL. President of Oakland Woman's Riding Cinb the wonderful curative value of Lydia E. Pinkham's Vegetable Com-pound. For eight years I had female trouble, falling of the womb and other complications. During that time I was more or less of an invalid and not much good for anything, until one day I found a book in my hall telling of the cures you could perform. I became interested : I bought a bottle of Lydia E. Pinkham's Vegetable Compound and was helped; I continued its use and in seven months was cured, and since that time I have had perfect health. Thanks, dear Mrs. Pinkham again, for the health I now enjoy."-Mrs. JENNIE O'DONNEL, 278 East 31st St., Chicago, III. - \$5000 forfeit if above testimation is not sending. Women suffering from any

form of female ills can be cured by Lydia E. Pinkham's Vegetable Compound. That's sure.

Mrs. Pinkham advises sick women free. Address, Lynn, Mass.

luded an item of \$3,600, instead of \$1,000 as pe last year's appropriation, for five permanent en gineers. To my mind, this proposed change is an abso

lute necessity for the good of the service. I have also asked for \$5,000 for the purchase o se, which amount should by no means be reduced.

TO STOP STREET CARS. I would suggest that an ordinance be passed as

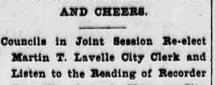

oon as practicable, making certain regulations and providing adequate penalties for their in-Another burst of applause followed fraction. There should be a law providing that in case of an alarm of fire from any of the city exes, that all street cars give the right of way to any apparatus, ambulace, police patrol or company's emergency wagons running to duty, nd that cars shall stop until such vehicles shall

have passed, and that at all times when passing fire houses, employes on cars shall so reduce speed as to avoid an accident in case of appara us coming out of quarters. The need of regulating the running of cars on our city streets, in case of an alarm of fire, is so apparent, that no comment is necessary to point out the wisdom of this provision.

Providing that the Scranton Board of Under-writers furnish the superintendent of the bureau of fire a schedule of losses on building and per sonal property by any fire within thirty days after the same shall have occurred. adjourned.

Providing that property owners or fenants of any building or buildings shall remove rubbish and all combustible waste materials within twenty-four bours after being notified by the uperintendent of fires. Providing that owners of buildings shall clean

heir own chimneys at least once a year. The passage of an ordinance covering the proisions suggested, seems to me timely,

VETERAN CLERK

Listen to the Reading of Recorder Connell's Annual Message-City Fathers Burst Forth in Applause and Call on Clerk Lavelle for a Speech-The Meeting Was Held Under a Flag of Truce.

Under a truce between the warring factions of the lower branch of councils, a joint session was held, last night, to receive the annual message of the recorder and elect a city clerk, duties emaining unperformed since Monday by reason of the contention over the re-organization of common council. By mutual understanding City Clerk Lavelle called the roll of both councils, and President Joseph Oliver was elected chairman of the joint session.

There were thirty-two commoners and eighteen selectmen present, and all oted with enthusiasm to continue Martin T. Lavelle in the office of city clerk, which he has so ably filled for more than twenty years. He was nomnated by Mr. Chittenden, and the nomination was seconded by Mr. Regan Mr. Keller and several others.

When Chairman Oliver formally declared Mr. Lavelle elected for another term of two years, there was a sponaneous burst of hearty cheers and cries of "speech," "speech."

The man who once refused to let the ouncils increase his salary and who is told by the estimates committee each recurring year that he can have more pay any time he asks it, showed a further indication of his innate modesty by blushing like a school girl as he ssayed to speak his appreciation of the councils' action.

"Mr. Chairman and gentlemen of the councils," he said, in a tone of deep arnestness, "I thank you sincerely for this substantial evidence of your es-teem and confidence. I attribute my election to your friendship rather than any particular qualification I may possess. Councils have always accorded me the most considerate treatment, and my relations with them have always been of the most pleasant character am deeply grateful to you for your kindness tonight and trust no action of mine will ever cause you to regret

At the conclusion of the meeting the members of both branches came to the city clerk to shake his hand, and speak ome word of compliment. The reading of Recorder Connell's message then took place. Clerk Lavelle was forty minutes in reading it. The members paid close attention to the reading, despite the fact that it had been printed in the daily papers. When the reading was concluded, Mr. Chit-

tenden moved that it be received and filed and its different recommendations referred to appropriate committees. The motion prevailed and then the meeting

THE TROUT SEASON .- The brook trout reason opens next Tuesday and already local fishermer are getting their lines and rods in readiness.

ANOTHER EXAMINATION .- On May 6, 1902, the United States Civil Service commission will conduct an examination for a copper plate map

SIGNED WITH NEW YORK.-Jack Dunn, of this city, the well known base ball player, hus rigned with the New York team as short step. Ite played third base with the Baltimore team. In the Second Inspection In the Second Inspection district court appoints John G. Hayes, superintendent, and John D. Griffiths and M. J. Garvey, practical miners, In the First and Second Inspection districts as last year.

HURT IN THE MINES .- Frank Morris, aged designated in the act of 1801 and in accordance 19, residing in Howard place, was slightly in-jured by a fall of roof in one of the Delaware and ing "miners examining bounds," consisting of on mines yesterday. He was removed to the nine miners actually engaged in the mining busi-news i their respective districts and who have had Lackawanna hospital.

Dunmore; W. P. Griffiths, of Taylor; William Major, of Mcosle; William Merrick, of Greenwood.

LIGHTING THE PARK .--- Arrangements have been perfected for the light induced with with electricity this coming summer. The south-ern end of the park, which has been practically completed, will be brilliarly illuminated with are and incandescent light.

MAKING TOUR OF INSPECTION.-Second Vice President II. G. Young, of the Delaware and Hudson company, accompanied by Master Me-chanic Stock and Chief of Construction McMartin, are making a tour of inspection of the com pany's system in this part of the state.

LITTLE DISCHARGED.-Magistrate John T. Howe yesterday decided that the evidence in the eriminal likel soit brought against Richard Lit-tle, editor of the Scrantonian, by Peter Lipa-wicz, of North Scranton, did not warrant the holding of the defendant and he accordingly dis-charged him.

PRICE SETTLED UP.-George Price, of Peck-ville, who gave a worthless check on Sunday last in payment of a police court fine of \$15, camdown yesterday morning and settled up, paying also for the cost of issuing the warrant for his arrest. He contended that he gave the check in good faith believing he had money in the bank.

Auction Sale.

On Thursday, April 10, at 9 a. m., to continue until April 12, the contents of the Irving Hotel, consisting of furnishings of 100 bedrooms, recently refur-nished; bedroom suites, carpets, iron and brass beds, mattresses, springs, bed linen, linoleum, bar fixtures, chairs, two cash registers, safes, hotel omnibus, miscellaneous household goods. E. M. Strong, Auctioneer.

For Lunch-Hanley's.

Whether you desire a cup of coffee, or a hearty lunch-Hanley's noon service satisfactory. Popular prices prevail at #20 Spruce street.

Fight Fight and the second

The cost of a lot and the erection of two ourses, such as 1 have indicated, would not ex-ceed \$60,000. Taking into consideration the mount of rent now paid by the city, and the additional increase in rental at the expiration of Boards to examine candidates for the leave with the Scranton Bedding company, I believe the most desirable thing to do is to issue mine foremen and miners' certificates were appointed by court, yesterday, in

bonds in the sum of \$60,000 for these much-needed improvements. This, course, if pursued, would be in the interest of economy, as shown by the orders reading as follows: While the act of 1901 provides that Lackafollowing figures, viz.: Engine house No. 4, rent now paid per wanna county shall constitute one inspection dis-trict, it contains no reference to the examining Vear boards for mine foremen and for miners. In Hook and Ladder house, rent now paid appointing these boards we shall therefore pre-serve the territorial integrity of the districts as

We are paying for the care of police horses as follows: As board of examiners of candidates for mine foremen in the First Inspection district for the

Total\$\$300.00 SAVING TO TAXPAYERS.

These horses can be kept for \$10 per month,

Five New Places in the Bureau of Fire Filled Yesterday by Director of Public Safety. Director of Public Safety F. L.Worm-

ser issued an order yesterday afternoon appointing the following permanent en-gineers for the several engine com-Engine company No. 1, John J. Kelley; Engine company No. 2, Max Rosar; Engine company No. 3, Thomas H. Allen: Engine company No. 4. Henry Heinz; Engine company No. 5, Har-

and that from the proceeds of the sale a suitable site be purchased and a hose house creeted thereon for the proper housing of Hose company No. 4, at a point as indicated above. The same order provides also for the appointment of John Suins call man of That the appointment of engineers of steamers should be made permanent is of utmost import-No. 1 engine company, as permanent man to succeed Daniel J. Slowe, who ance to the efficiency of the bureau of fire can-not be questioned. At present, an ordinance of councils fixes the salary of each one of the fire has resigned to accept a position as foreman at the Scranton Pump works. Louis Cohen, bunk man, is appointed engineers appointed at \$230 per year for man-ning the engines. This atrangement has proved very unsatisfactory. In some cases, these engipermanent man at No. 4 engine house,

neers, who are elsewhere employed during the day, cannot respond to an alarm of fire in the day-time, thus leaving their engines without an The engineers who have been anpointed will receive a salary of \$720 per annum, or \$60 a month, and will engineer in case of fire; bestdra, the engines are not receiving the care they ought to have, as devote their whole time and attention to their duties. The engineers who have previously been serving have rethese engineers have not the time to devote to the cleaning and cating for them. I have in-

ceived only \$200 a year, and were on duty only when fires were in progress. The new men will be expected to keep Roses and their engines in first class repair and in this way their services will be eapecially valuable.

Of Unexcelled Merit.

vice Henry Heinz, promoted.

report to me regarding chimneys, says: "With roper care and attention on the part of citizens, many disastrous fires might be prevented." During the fall of every year, many fires re

all from the obstructed condition of chimneys While many of these fires are trivial, some prove disastrous. The cleaning of flues at regu-lar intervals would obviate all this trouble. In speaking of cellars, the superintendent says:

condition of the cellars of many of ou isiness houses is a serious drawback to the department when endeavoring to extinguish a fire centring therein. This difficulty has been experienced on numerous occasions during the pas Provision should be made requiring merchants to keep their cellars free from rub-bish and to provide suitable openings, thus giving the freemen free ingress and egress. In addition, there should be a thorough in-spection, with a view of securing a rigorous en-

orcement of this provision.

SCHEDULE OF LOSSES. There can be no question as to the desirability of an orlinance requiring the Board of Under-writers to furnish a schedule of losses on buildings and personal property by any fire within thirty days after the same shall have occurred. In the reports from the cities from this and other states I find such losses enumerated. The bureau These horses can be kept for 810 per month, the same as fire horses, a saving of \$290 The tax necessarily layled to provide for the interest and sinking fund on this loan of \$90,600. The tax necessarily layled to provide for the interest and sinking fund on this loan of \$90,600. The tax necessarily layled to provide for the assuming its liquidation in thirty years, would assuming its liquidation in thirty years, would and the small sum of no reason why it should not be con-addred at this time. While I do not beflieve that the owning of the fire alarm telegraph sys-et the second of this model of the model of the interest and sinking the constant sum of the small sum of \$200 for thirty years, the city would find it-

FOR DISORDERLY CONDUCT.--Vito Gelmeno, who charged him with disorderly con-duct, claiming that he had called him vile names. Alderman Ruddy fined Vito \$5 and costs. JAMES RENNIE INJURED.-James Remaie, aged 26, a driver employed by Nealis, the livery-man, fell off a wagon which he was driving in North Scranton yesterday and received a bad edit have, of Mcode; William Merrick, of Greenwood. callty are not what they should be. This is ow-ing to the fact that the fire houses in that sec-tion are not preperly distributed. In the three were retained they could be of as-

Lich are not preperly distributed. As the houses are now located, Hose company No. 1, Providence Square; Hose company No. 2, corner of North Main avenue and Providence road; Hose company No. 6, on Oak and Brick streets, and Hose company No. 7, on West Mar-ket street, in the third ward, you will readily see that there is absolutely no protection in case of fire for the larger portion of the First ward. I would recommend that Excelsior hose the first street is absolutely no protection in the street is absolutely in in the street is absolute the street is absolutely in the street is absolutely in the street is absolute the street is absolute the street is absolute the stree

case of fire for the larger portion of the First ward. I would recommend that Excelsion hose house be vacated and a house rented for fire pur-pezes, somewhere near the intersection of Nirth Main avenue and Parker street, thus increasing the efficiency of the department in the Providence section of the city. In my estimate of expenditures for the fiscal year of 1902, I have included an item of \$300 for the rental of a hose house for this purpose. I would also recommend that the house and but in which Hose company No. 4 is now housed be sold and that from the proceeds of the sale a suitable

covered no sign of the penalty slip being re-moved. I then made inquiry what other require-ments besides the engine, ladder truck and hore

I was then furnished with a list of recommen dations made by Inspector W. H. Johnson, dations made by inspector w. R. Johnson, m. duly, 1520. I immediately answered to the Un-derwriters association every recommendation and furnished a copy to inspector Johnson, who was on the ground and made an inspection at the time, and was evidently pleased with the ins-proved condition of the fire department.

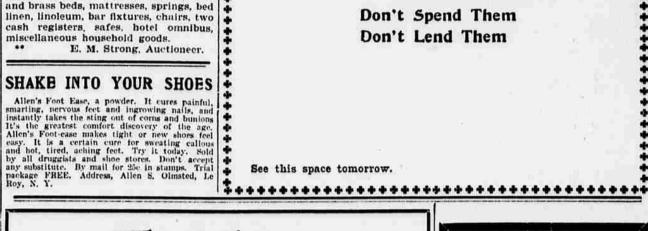

IRRELEVANT REQUIREMENTS.

This is evident from the fact that all of our previous work was acceptable to the inspector and the new requirements and additional work demanded from us in the schedule of recommen-iations of October, 1991, were all additional feat-

dations of October, 1991, were all additional feat-ures and were entirely irrevelant to the earlier requirements, which, as I have stated, were evi-duity acceptably met by us. The new damands cubraced in the schedule of October, 1991, call for a central fire headquar-ters, protecting shutters on the Mears building and the removal of the wooden cupola on this structure, and the extension of the fire limits, The item covered by these recommendations, as I understand it, had nothing whatever to do eriginally with the imposition of the 26 per cent. 12 A. M.

See this space tomorrow.

A question everyone is interested in. The season's waists show a great variety of style, the color almost without exception being white.

A new pattern is made, yoke front and back, with box pleats stitched flat, broad shouldered effect.

Decidedly chic for morning wear.

The dainty lawn and India mull waists are designed with broad shoulders, blouse front, long waist and tight fitting back. Collars and cuffs are soft, graceful, trimmed like waists. Insertion, embroidery, lace and hemstitched with laid in tucks are combined in those waists, making them a collec-tion absolutely above comparison.

The advance stock received last week are now on exhibi-tion. Come in and see for yourself.
