THE MARKETS

Wall Street Review.

New York, April 9.—There was a noted speculative movement in the stock market today which is universally attributed to the operations of an important combinaion of wealhy western men who were important factors in the constituent companies going to make up the United States Steel corporation, before it was organized. While there was no actual news accompanying the movement there was an abundance of rumors, which centered mostly about Louisville and Nashville, which was again the leader of the market in point of activity and sustained strength. The rumors reached the stage of an alleged formation of a community of interest project for the whole southern field, which would supposedly take in the Southern railway, Illinois Central and possibly minor competing systems. Louisville, while occasionally reacting, forbed up to the top level to 5 points over last night in the final dealings and closed within a shade of that. The Southern Railway stocks were also lifted forcibly to the top level at the last. The rest of the market showed the effect of realizing at the last and some important stocks closed with net losses, notably New York Central, Manhattan, Chicago and Northwestern stocks and Rock Island. Some of the minor railroad stocks which have recently advanced were also sufferers. While a large number of important stocks were included in the advance, which movement was by no means universal many prominent stocks were neglected and sluggish, United States Steel stocks conspicuously so. There was also the usual assortment of violent movements in high priced industrials which are closely held by concentrated interests. The electrical stocks and New York Air Brake made wild advances and almost equally sensational relapsse. The rise of 6½ in New York and New Haven was unexplained. Total sales today, 992,200 shares. Some of the active speculative bonds were affected by realizing and the market was generally irregular. Total sales, par value, $5,535,000. United States 5's advanced ½ and the 3's coupon declined ⅛ per cent. on the last call.

The Heywood Oil company pays its third 4 per cent. quarterly dividend April 15, on its entire capitalization of $800,000. This is a total of 12 per cent., or $96,000. It has also expended $120,000 in equipment. Every dollar of the above amounts was obtained from the sale and delivery of oil by tank cars in Texas and Louisiana.

The April statement of the Higgins Oil & Fuel Co. shows that this company, though capitalized at only $2,500,000, has assets worth, at a very low valuation, $4,308,000. A dividend of 4 per cent. on the entire capitalization was paid in January, and five-year contracts with the Santa Fe, Southern Pacific, and other railway companies will enable Higgins to pay large and regular dividends.

All stocks purchased will be transferred on the books of the companies.

Investigate and compare our financial standing, reliability and past record with others in the business. Call or write for information. Remit in any convenient form. Orders will be promptly and accurately executed. GOOD LOCAL REPRESENTATIVES WANTED.
