THE WEIGHT OF SARAH

SKETCH OF THE CORN-FED GIRL OF FOREST CITY.

The Scranton Drummer and the China Egg-A Carbondale Man Who Met an Engaged Girl-Mistake of a Deacon-Enterprise of the Susquehanna Water Company.

Special to the Scranton Tribune.

Susquehanna, April 12.-Among the people waiting for train 12 on Thursday night were a Forest City pair, who attracted much attention. He was a tall, awkward fellow, about 20 years old, and was evidently very new in the husband business.

She was a pretty, red-cheeked little girl, not a day over seventeen, and he thought her just too sweet for any-thing. With his arm around her they sauntered up and down the platform, entirely oblivious to the looks and remarks of their fellow-travelers.

"B'gosh, Sairy, how much d'you s'pose you weigh?" said the swain as they came to the scales in the baggage

"La! Rufy, how'd I know?" giggled the blushing bride.

'Sposen we try," said "Rufy," and suiting the action to the word, she stepped upon the scales, with his great arm still clasped closely around her. The obliging baggageman weighed

her, and announced the result as one

hundred and sixty-five pounds. "B'gosh, Sate," said the astonished benedict, "I ought to know your heft, but I swon 'fl thought you weighed within ten pounds as much as me!" "O, I'm corn fed, Rufy, and was raised in the beech woods," sweetly murmured "Sairy," as she stepped down from the scales, lovingly patting the arm which added about forty pounds to her weight.

Pratt, of New Milford, who is on Governor Stone's staff, will go to the Charleston exposition next week with the governor's party. Manager Clark, of the Binghamton street railroad, says that the system will be extended to Hallstead, in the near future, if the right of way is given and encouraged by friendly co-operation by people along the line.

A VERY HARD EGG.

Scrantop "drummer" jumped from a train at Nineveh and shouted to the proprietor of the lunch counter to give him a hayd-boiled egg and a piece of mince piel He ate the ple hurriedly, and was attempting to break the egg, when the conductor gave the signal for starting.

What in great Caesar's name is the matter with this egg?" he yelled. "Is it rotten?" asked the proprietor.

"Rotten? No: but I can't make any impression on it, and the train halfway out of the yard;" and he made a dash for the back platform of the rear caf, which he just succeeded in reach-

On the Carbondale flyer, Wednesday a well-known Carbondale agent, noticing a pretty girl in a seat, went over in her direction, and smilingly asked: "Is this seat engaged, Miss?"

"No, sir, but I am, and he is going to get on at Herrick Centre." "Oh-ah-indeed - thanks - beg pardon-" and Mac picked up his feet and went into the smoker to be alone

Worthy of Consideration.

An editor's opinion is always worthy of consideration, for he is accustomed to giving a matter due consideration before expressing his ideas of it. David R. Forbes, editor of the Sun. The farmer said nothing, but reached down, picked up an over-ripe pumpkin and fired it right at the deacon's head. "There!" he exclaimed, "by the time you get them 'ere seeds out of your hair you'll find out how my folks is!"

PARAGRAPH PICKUPS,

The Susquehanna water company has purchased Comfort's pond, a natural body of water in Thompson township. When the contracts in Philadelphia and Paterson are filled, the Eric will have seventy-five new, up-to-date locomotives.

Three weeks have passed and no new candidate for county or state office has materialized in Susquehanna county. What means this stagnation in business? It is reported that some of the Phila-

delphia citizens' movement tactics are likely to be seen in Susquehanna county politics during the coming fall. The Philadelphians are expected to open a "bar'l."

The Great Bend chamois factory is doing a rushing business. Wedding bells will soon ring out joy

ously in Susquehanna. The three candidates for county superintendent of makeds are doing

nissionary work. It is expected that the Erie superinendent of stores will remove his office from Susquehanna to Meadville, about Whitney.

Underhill, the 'varsity's crack pitcher, is temporarily out of the game, owing to a bad ankle, and Stevens and Kofer are doing splendid box work in his absence. The latter is a Freshman, and a brother of the famous "Cap" Kofer, one of the best catchers who ever stepped on a

college diamond. The Triangle club gave its last out of town performance of the season Saturday, April 12, at New York. The elub has scored a big hit this year with the "King of Pomeru," and will produce it here, the night of the Georgetown ball game.

After this the parents or guardians are at no additional expense, except a small sum to keep the pupils in proper clothing and such additional pocket money as they may desire to give. It is recommended that this be given in limited amounts, and that larger sums for traveling, if such be desired, be placed under charge

of the superintendent. "As to the time on board ship? About two years are required. During this time two cruises will be made by the Saratoga to Europe in summer and two to the West Indies in winter. On the European cruises the ship will visit England, France, Gibraltar and Mamother, Mrs. Margaret Leipham, at deira, and perhaps some port in Scotland. In the winter four or five of the best ports in the West Indies will be visited. To such pupils as have sufficient money opportunities will be given to visit London and Paris and other important cities near the ports at

which the ship will anchor. "The studies on board include navigation, seamanship, arithmetic and geography. While at sea, the pupils are required (first and second classes) to take sights and keep the position of the ship, under charge of the navigator. In port, and especially Philadelphia, they are taught the theory of navigation, commencing with the entering class.

"In seamanship, they are taught the theoretical, both as to steam and sailing ships, while in port; the practical, as to sailing ships, while at sea. In arithmetic, they are advanced to the point where all navigation can be worked.

They begin study at 9.30 and study until 11.30. Dinner over, they study comes recreation time, and each amuses himself in his own way.

Between the regularity of the life and the out-door exercise the boys grow fat, though not "sassy." The discipline of a school-ship

most excellent for lads whose wild ways are a source of anxiety to their parents. When they first come aboard the usual stages of home-sickness are gone through with, but after it wears off the boys are, as a rule, content and happy in their lives.

The greatest menace to the ship's liscipline are the prayers of fond mothers, when the ship is in the home port for extra leaves of absence for her boy

When the ship sails there is on board vast quantity of what is known as 'sea stores." "Sea stores" consist of candy and cake and other unwholesome things brought down on the day of sailing by relatives and "best girls, When the "sea stores" are gone the general health on board is much better.
