H. & R. Revolvers

Can be depended upon. Nickel-plated or blued steel—made right—finished perfectly—accurate shooters. Sold by

Foot & Shear Co.
119 N. Washington Ave.

LOTS

for sale. Three lots, 120 feet on Linden street, corner of Taylor avenue. Chance of a lifetime, and you won't see it till it is too late. Stop and think for a moment. Only 200 yards from the \$1,400,000 electric power house now being built by the Pennsylvania railroad. Go and see them at work on the building. Sewer, gas, water, electric light; seven blocks from the Court House and six blocks from N. Y. Ave. Park. Linden street is a well-served street. Store and dwelling on corner would rent for \$750 a year; two double dwellings on the other two lots would rent for \$1,500 per year. With a string of industries along Rivington Brook from Market street to the upper steel mill will make Linden street one of the busiest streets in the city. Remember, \$2,000 will buy the three. We will buy them back in 60 days, with interest, if you are not satisfied. \$1,000 cash. They are worth \$1,000.

Real Estate, Connolly Building.

PERSONAL.

In Broadhead, of Binghamton, N. Y., was visiting his family in Moosic over Sunday.
The engagement of William S. Brain, of Quay avenue, to Miss E. E. Lewis, daughter of A. T. Lewis, of Electricville, has been announced.
Postmaster Ezra H. Rippe left yesterday for

A Summer School of Music

will be a new thing for Scranton. But since there has been a CONSERVATORY here, several new things have been brought to the attention of the public. Eight weeks of piano, study and song from June 10 to August 10. J. Alfred Pennington, Director.

Carlinson, S. C., where he will attend the exposition as a member of Governor Stone's staff.

Miss Elsie Chase, a teacher in the Alameda Preparatory school at Pittsburgh, has been forced to leave her duties temporarily, because of a slight attack of typhoid fever. She is at her home in Dunmore.

J. S. Schuster, district passenger agent of the Central Railroad of New Jersey, and John R. Welsh, traveling passenger and freight agent of the Ontario and Western railroad, spent yesterday in New York.

Ex-Sheriff Charles Robinson, ex-Senator Stadler, of York, Pa.; Emil K. Schupp, of Victor, N. Y.; Frank Rollins and A. R. Gould left yesterday for Maryland and Pennsylvania, where they will spend today fishing for trout.

WYOMING CONFERENCE.

Annual Session Will Begin Today at Waverly, N. Y.

The annual session of the Wyoming conference of the Methodist Episcopal church opens this morning in Waverly, N. Y., and will continue for one week. Today's session will be largely devoted to routine business.

Bishop Merrill will preside at the sessions, and Rev. J. B. Sweet, formerly of this city but now of Oneonta, N. Y., is the secretary. Tomorrow night, the anniversary of the Missionary society will be observed, and Stephen L. Baldwin, of New York, will preside.

Thursday, Friday and Saturday will be largely devoted to lectures by Dean Wright, though on Tuesday afternoon the semi-centennial of the society will be observed. The anniversary of the Mission and Preachers' Aid societies will be observed on Friday and Saturday nights respectively.

Bishop Merrill will preach the sermon on Sunday morning, and at 2:30 on that afternoon, the ordination of deacons and elders will take place. A special Twentieth Century Movement service will be conducted on Sunday night.

The question of redistricting the conference will come up for discussion on Monday, and on Tuesday next the ministerial appointments will be announced.

NOW IN NORTH SCRANTON

Case of Small-pox Discovered in That Part of the City—Mrs. Thomas Griffiths the Victim.

Small-pox has now invaded North Scranton for the first time since the present outbreak began.

The latest sufferer from the disease is Mrs. Thomas Griffiths, of 427 Meade avenue, whose case was diagnosed last evening. Lieutenant Palmer, in charge of the police in the North Scranton precinct, was notified by telephone at 9 o'clock last night to place the house under strict quarantine and he did so. With Mrs. Griffiths in the house is her young husband. The couple were but recently married.

The cases of small-pox in the emergency hospital give promise of ultimate recovery, though the case of Mrs. Griffiths is of an especially serious nature.

JENKINS VS. McLEOD.

Strong Possibility of Wrestling Match Between Them Here.

There is a very strong possibility that a wrestling match between "Big" Tom Jenkins and Dan S. McLeod, for the championship of the United States, may be pulled off before the Scranton Bicycle club within the next thirty days.

President Connolly has taken an active interest in arranging for the prospective event, and has a committee of club members out securing subscribers to a paper which contains an agreement to take at least one ticket. It is proposed to offer a purse of \$1,000, providing the match is pulled off in this country, would have to be a little bit high, and it is proposed to fix a uniform price of \$5 each. It is believed that there are at least 200, and probably twice that many, men in this city who would not hesitate to pay that sum to see such an exhibition of wrestling as a match between McLeod and Jenkins would present.

The price of tickets for the match, which would undoubtedly prove to be one of the best ever pulled off in this country, would have to be a little bit high, and it is proposed to fix a uniform price of \$5 each. It is believed that there are at least 200, and probably twice that many, men in this city who would not hesitate to pay that sum to see such an exhibition of wrestling as a match between McLeod and Jenkins would present.

HE BROKE HIS NECK.

Casimir Levitski Fell Down Stairs of Hotel in Jessup.

Corner Salty was notified yesterday morning that a man named Casimir Levitski, of Jessup, had died from a broken neck, about 2:30 o'clock. He took the first train going up the valley, and made a thorough investigation. Levitski boarded over a saloon kept by Martin Lobesky, and the investigation made by the coroner satisfied him that the former had been intoxicated and had fallen downstairs, breaking his neck. He said last night that the statements made that Levitski had been pushed downstairs were absolutely without foundation in fact.

So confident was the coroner that there was no foul play connected with the case that he decided not to conduct an inquest. Levitski was 28 years old and unmarried.

PAST COMMANDERS MEET.

Grand Officers of Knights of Malta May Come Here on May 3.

At a meeting of a number of the past commanders of the Knights of Malta held last night in the parlors of Anthracite commandery, in the Guernsey building, it was decided to petition the grand commandery officers to visit this city on May 3 to confer the past commanders' degree.

A number of the past commanders have not received this degree as yet, and it is proposed to make the visit of the grand commandery officers the big event of the year, if the invitation is accepted.

I herewith announce to my friends and acquaintances and the Republican voters of Lackawanna county that I will be a candidate for the office of county commissioner, subject to the decision of the Republican primaries. Respectfully,
Charles F. Wagner.

April 15, 1902.

REFERRED TO COMMITTEE

THREE NEW SCHOOL BUILDINGS ARE ASKED FOR.

Board of Control Can't See Its Way Clear to Erect That Number of Buildings This Year and Has Referred the Matter to the Building Committee for Solution—Entire Board to Visit No. 39 Building Which Is in Course of Construction in First Ward.

There was a lengthy discussion at last night's meeting of the board of school control over the proposition to erect three new school buildings during the coming year. The matter was brought up by President John Gibbons, who had relinquished the chair to E. J. Langan. Mr. Gibbons called the attention of his board to the dilapidated condition of No. 11 in the Twentieth ward, which was erected nearly thirty years ago. He said it was erected at the same time that No. 8 in the Eleventh ward was. They were exactly the same kind of buildings, erected at the same time and under the same contractor. Mr. Gibbons was a member of the board at the time.

The building is antiquated and not suited to modern school purposes. He moved that a new eight-room building, the cost not to exceed \$5,000 a room, be erected. Mr. Gibbons said he had in his hands with the building committee last week he had been surprised at the condition of Nos. 11 and 8, and he moved as an amendment to Mr. Gibbons' motion that No. 8 in the Eleventh ward be replaced by a new eight-room building. This amendment Mr. Gibbons accepted as part of his own motion, and W. J. Welsh, of the Ninth ward, then made another amendment to the effect that a new eight-room building be erected in the Ninth ward, on the property recently purchased from the Home for the Friendless. He said there is no yard in the city where the necessity for additional facilities are so imperative as in the Ninth.

GIBBONS OBJECTED.

Mr. Gibbons opposed the Welsh proposition because he thought he saw an attempt to kill his proposition. He said that the resources of the board during the coming year would not enable it to pay for No. 40 and erect three new schools. He thought that the Ninth ward could afford to wait until next year for a building. Mr. Barker placed the necessity for a new building in the Ninth ward. E. J. Evans said to take such a step now would be to place a burden on the district it will be unable to carry. It was suggested that buildings be erected in the Twentieth and Ninth wards this year and that the Eleventh ward wait until next year. Finally the whole matter was referred to the building committee for consideration.

A dispute having arisen between Architect E. H. Davis and the Dunmore Lumber company as to the manner in which certain work on No. 39 should be done, the board of school control, which is in charge of the building committee, laid the matter before the board for settlement, saying the old building committee had wrestled with the matter all winter. It was finally decided to have the entire board proceed to the school at a time to be fixed by the chairman, and to be settled, and then examine the work and hear the statements of the architect and contractor, all work to be suspended meanwhile.

The secretary announced that the district had received \$180 from the Lackawanna township school district for the tuition of certain pupils who are attending the city schools, and \$100 as the district's share of certain school fund properties recently sold.

OFFER TO SETTLE.

P. G. Walsh, delinquent tax collector in the Fourteenth ward for the years 1898-99, having failed to settle his duplicates and being no longer a resident of the city, his bondsman made a proposition to Solicitor D. J. Reedy to settle the duplicate for \$75. The proposition was referred to the finance committee, in connection with the solicitor.

The central examining board of New York, which conducts examinations for entrance into the various colleges, asked permission to conduct examinations in the High school after the close of the school term and the request was granted.

E. E. Evans asked for a report from the high and training committee, with reference to the pupils from outside the district who are attending the High school. He said there is about \$1,800 due the district from these pupils, and as it is drawing close to the end of the term, the matter ought to be settled. Chairman Jennings said that a great deal of work has been done on the report and that the committee will endeavor to have it ready for presentation at the next meeting.

Chairman Barker, of the teachers' committee, reported recommending the removal of the school to next Saturday. He also reported the teachers who had been absent from the recent institute without permission, some of whom were sick. There was a sentiment among some of the controllers not to dock the teachers for the days they were sick, but the matter was finally referred to the committee for further consideration.

NOT A SHAKESPEARE.

During the discussion, Henry J. O'Malley caused much merriment by a characteristic speech, in which he referred to himself as "not a Shakespeare," and to Chairman Barker as "a Messiah."

The question as to the proper date for closing the schools was again brought up, Mr. Jayne saying that if the schools are kept open until June 12 the teachers will be compelled to give five days' services for nothing. Mr. Jennings said Mr. Jayne's basis for figuring was wrong. The teachers were allowed half a day for ten months' institutes, which leaves the five days for them to teach which Mr. Jayne referred to in his remarks. In reply, Mr. Jayne was under the impression that the teachers received a full day for teaching.

Chairman Roche, of the building committee, said that John Harris, the engineer of the board, who receives a salary of \$100 per month, had been offered a salary of \$150 a month by a company that is anxious to secure his services, but that he would stay with the board for \$125 per month. His salary was increased that amount.

John H. Phillips presented a petition for a kindergarten in the Fifth

ward, which was referred to the kindergarten committee. A communication from Dr. W. E. Allen, superintendent of the bureau of health, advised the board that he had directed that pupils on both sides of the 400 block on Franklin avenue be kept out of school for a time, on account of the presence of small-pox in that block. President Gibbons called attention to the meagre facilities for holding commencement exercises in the High school auditorium, and moved that the high and training committee secure the armory or some other suitable place for the exercises. The motion was adopted.

PRISONERS GOT AWAY.

Patrick Burke and Charles McHugh, Two Short-Term Men, Escape from Guards at the Park.

Patrick Burke, of 424 Railroad avenue, and Charles McHugh, of Dunmore, two short-term prisoners from the county jail, escaped from their guards yesterday afternoon, while on their way to N. Y. Ave. park, and have not yet been captured.

Burke was serving a sixty day sentence for being drunk and disorderly, while McHugh was up for six months on a charge of vagrancy. A gang of about fifty prisoners is at work cleaning up the southern end of the park, and Thomas Jones had charge of eight of these. While Jones had his back turned, Burke and McHugh took to their heels and made for the bridge which crosses the Roaring brook near the old rolling mill. They were fairly across this before their escape was noticed, and were soon lost to sight in the south Scranton.

Descriptions of the two men have been given to the police, and every effort is being made to locate them.

LIVERY AND BOARDING STABLE

Modern Establishment Opened by Peter N. Haan.

Peter N. Haan has opened one of the largest and most modern livery and boarding stables in the city at 1415 Mulberry street, and proposes to do a general business of that character, as well as all kinds of teaming and dray work.

Mr. Haan has been engaged in teaming and draying for some time, and his business has grown so rapidly that he has been unable to properly display this class of goods. A new and elaborate suite of offices is being fitted up in the rear of the old store, and here will be installed the cashiers and clerical employees. The pneumatic cash system, with its thirty stations, will come here.

This firm has for some years been doing a wholesale business of no mean proportions, and this department has now been installed in the basement of the new store. The basement of the original store will be used for the storage of reserve or surplus stock.

On the second floor, and approached by a flight of stairs leading from the rear of the new part of the store, is a room 45x75 feet in size, in which it is proposed to establish, within a few months, a ladies' tailoring and dress-making business on an extensive scale. This department will be in charge of a skilled modiste and the trade of all ladies desiring fashionable gowns made by skilled operators, will be solicited. The special feature of the Connolly & Wallace store is its individuality. It is unlike all other stores in the city. Dry goods and only dry goods are dealt in, and there is an air of quiet distinction and exclusiveness about it that is found in only a very few stores.

LIGHT IS SPLENDID.

The light in the new part, as well as in the old, is splendid. Light is an almost absolute essential in a dry goods store. In many New York stores little girls have to be employed to run out into the daylight with samples and match them with goods in stock. Such methods are not needed in the Connolly & Wallace store. A flood of daylight pours in upon the silk and dress goods counters, rendering the purchasing of goods a pleasure and not a bugbear, as it is in so many instances. Throughout the store the touches of the artistic hand of Mr. Hurlbut, the decorator, are visible. It has been said that the most artistic effects are better produced by allowing simplicity, rather than elaboration, to hold sway, and Mr. Hurlbut's work amply demonstrates the truth of this assertion. The splendid artistic results produced by an adherence to this rule can be seen in the four magnificent windows which the firm now has at its disposal. The enlargement of the store has necessitated the engagement of a number of additional salespeople and the total number now employed is nearly 125.

OPENING OF NEW ADDITION

SPLENDID STORE OF CONNOLLY & WALLACE.

They Have Taken Possession of the Storeroom in the Addition to the Connell Building and Also Part of the Second Floor, Giving Them Now a Total Floor Space of 28,000 Feet—All Parts of the Big, Roomy Store Are Well Lighted—Arrangement of Departments.

With the opening of the large new addition to their already large and splendid store in the Connell building, on North Washington avenue, Connolly & Wallace now have one of the finest stores devoted exclusively to dry goods and ladies' wear to be found in this state.

The new addition referred to was opened on Saturday last and comprises the basement, ground floor and a part of the second floor of the new portion of the Connell building, which has recently been completed. It more than doubles the size of the original store, showing now a total width of 90 feet and a total depth of 150 feet on the ground or main floor. Counting the basement, the firm now has 28,000 square feet of surface area at its disposal.

No new departments have been added on the main floor, but, instead, all the old ones have been enlarged. Regular patrons of the store, who know the complete assortment of various lines formerly kept on sale in this store, will appreciate fully what this means.

The dress goods and silks have been placed in the new addition and there are now 100 feet of counter room devoted to the sale of these goods. Another department installed in the new store is the ladies' muslin underwear, waists and skirts which will have, under the new arrangement, three times the counter room formerly devoted to it.

CLOAK AND SUIT ROOM.

In the rear of the new store is the new cloak and suit room, 45x75 feet in size, where a corps of able saleswomen have ample opportunity to properly display this class of goods. A new and elaborate suite of offices is being fitted up in the rear of the old store, and here will be installed the cashiers and clerical employees. The pneumatic cash system, with its thirty stations, will come here.

This firm has for some years been doing a wholesale business of no mean proportions, and this department has now been installed in the basement of the new store. The basement of the original store will be used for the storage of reserve or surplus stock.

Paine's Celery Compound

THE GREAT SPRING MEDICINE.

While It Drives Out the Seeds of Deadly Diseases It Quickly Builds Up Flesh and Muscle.

A Truly Wonderful Restoration After Failures with Other Remedies.

MR. E. J. PATTERSON, says:—

"I Owe My Life to the Wonderful and Speedy Curative Powers of Paine's Celery Compound."

Thousands of families today mourn the loss of near and dear ones who, when sickness first came upon them, were forced to use other medicines instead of the great disease banisher, Paine's Celery Compound.

We earnestly appeal to the relatives and friends of the suffering, to break away from the bondage of medical etiquette and dictation, in order that the suffering ones may have a surer and happier hope of a new life.

The one remedy known to medicine that can bring vigor, strength, and permanent health to the weak, run down, rheumatic, neuralgic, dyspeptic, and those burdened with kidney and liver troubles, blood diseases, and derangements of the digestive organism, is Dr. Phelps' great medical prescription, Paine's Celery Compound.

Weak, run down, sleepless, and despondent men and women will find inspiration and comfort in the following letter written by Mr. E. J. Patterson, of Sheridanville, Pa., who was fully restored to the blessings of life after use of the great medicine that truly "makes sick people well." Mr. Patterson says:

"I was greatly troubled with insomnia and felt as tired in the morning as when I went to bed. I finally lost my appetite, and could not bear to even look at food. I was so weak that I almost despaired of getting well again. Before I had used one bottle of Paine's Celery Compound, I felt like a new man. My brain has become clear, my sleep refreshing, and my appetite excellent. I no longer find work a pleasure, instead of a burden. I owe my life to the wonderful and speedy curative powers of Paine's Celery Compound."

DIAMOND DYES
