## THE MARKETS

Wall Street Review.

New York, April 21.-There was another day of very active and varied speculation in stocks today, but the campaign for the advance received rather a severe check. The leaders of the campaign for the advance recovered their position to some extent late in the day by a vigorous buying movement in Southern Pacific up to 60% c and in Reading and Manhattan which were lifted respectively 416 and 376 over Saturday. This induced a general covering movement in the whole market and in substantial railies which materially reduced the losses but still left prices generally below Saturday. The result of the day's operations in the market showed the importance of the outcome of the crop situa-The reports of hot winds in the winter wheat belt did not seem to greatly affect the grain market, but the simple racial of temperatures touched at points in Nebraska, Missouri and Kansas was sufficient to cause a reflection of anxiety in the stocks of the roads running through that region. The weekly statistics of railroad traffic reporting a decline in the merchandise movement to the southwest, were regarded as a correboration of the threat of harm to the crops. Seattered reports of showers may have had to do with the late rally in the market. The leave granted to the state of Washington to file suit against the Northern Securities company, is what was refused to the state of Minnesota in the previous attempt. The question of the legality of the company is now selt to be started towards a final and definite decision. The strength of Reading and Manhattan was due to buying by the same brokers who were lieavy sellers of Union Pacifis and St. Paul. There were rumors of absorption of Reading in Pennsylvania's interest. The movement was forestadowed by the circulation of arguments on the intrinsic value of the property. The market closed active and about steady. New York Air Brake, international Power, the Electric stocks, Keokuk and Des Moines and Nashville, Chattanooga and St. Louis made sensational and unexplained advances. Total sales today, 1,93,800 shares. The heavy selling of Union Pacific convertible bonds was a feature of the hond market. Total sales, par value, \$60,55,000.
