Omaha, Neb., April 22.—The temperature at 7 o'clock this morning was 48 against 72 yesterday, a fall of 24 degrees. The general conditions were from one extreme to the other during the night, and temperatures in western Wyoming, Nebraska and western Iowa this morning were below normal. A light snow is falling in Montana and there was freezing weather in north-west Nebraska and parts of Wyoming. During the night there was a general precipitation of about .25 inch of rain. A heavy, but decidedly cool, wind prevails.

Lincoln, Neb., April 22.—A violent wind and rain storm visited Lincoln early today, bringing some relief from the extended drought and materially lowering the high temperature of the two preceding days. Minor damage was done by the wind in this city. The rainfall extended south and east nearly to the Missouri river, but was insufficient to be of great benefit. West of Lincoln there was only a marked fall in temperature. At Hemingford, in the northwestern part of the state, a snow-storm is prevailing.

Denver, April 22.—The crop outlook in Colorado has been improved by the rain and snow that have fallen in the last few days, but it is still feared that there will be insufficient water for irrigation in some localities this summer owing to an unusually light snowfall in the mountains during the winter. Vegetation is not far enough advanced to be affected by the recent sudden and marked changes in temperature, and on the whole the prospects are as good as usual at this season. The recent moisture in the eastern part of the state has improved the condition of the soil for seeding and planting, which are generally as far advanced as usual except in the south-central region and on the Arkansas-Plateau divide. As a rule, winter wheat is in good condition, and fruit trees sustained no serious damage during the winter. There was a light fall of snow here last night, but the weather is clearing today.

Kansas City, April 22.—About a third of an inch of rain fell throughout central Kansas from midnight to 7 o'clock this morning, according to reports received by the local weather bureau.

Wichita, Kan., April 22.—A good soaking rain fell here after midnight, following two days of scorching southern winds.

Crop Outlook.

The crop outlook in this section is good. The drought has not been severe, but the hard winds have been damaging.

Des Moines, April 22.—With heavy clouds hanging over the state there is every prospect for rain before night. The wind is blowing at a high velocity, carrying clouds of dust. No fear is expressed in respect to damage to crops. Crop Reporter Stage of the state service, says in bulletin issued today that the ground is in excellent shape, and that unusually good progress has been made this spring.

Milwaukee, April 22.—Record-breaking high temperature for April is reported from all parts of Wisconsin today. Unless there is a change soon, accompanied by showers, it is feared that the effect on the crops will be serious. There has been little rain this spring, and the ground is dry for a considerable depth. Reports to the local weather bureau show higher temperatures than yesterday at Wisconsin points, was 84 degrees, official, at 10 a. m. in Milwaukee.

St. Paul, April 22.—Rochester, in Southern Minnesota, reports a terrific wind blowing today, and no rain in sight. At Pipestone, in Southwestern Minnesota, light showers fell last night, accompanied by lightning, fog and heavy clouds today. The crops are in splendid condition. At Mayville, N. D., a severe snowstorm is prevailing. Seeding is delayed by the storm and business generally impeded.

Chicago, April 22.—The weather here is still unseasonably warm. At 10 o'clock today the temperature was 74 degrees, and was rapidly rising. It is predicted that the present high wind will continue but that probably by night showers will fall. The lack of rain has not affected crops.

New York, April 22.—The thermometer showed a temperature of 72 degrees in this city at 3 o'clock this afternoon. There was little breeze and the air was oppressive enough to cause at least one case of heat prostration. The stricken man was attended by an ambulance surgeon and then sent to his home.

Philadelphia, April 22.—This city and vicinity had the first touch of mid-summer weather today, when the United States weather bureau thermometer registered 88 degrees at 4 o'clock this afternoon. At 8 a. m. 59-degrees were recorded, and at 3 o'clock tonight the mercury stood at 76.

Cold at Salt Lake.

Salt Lake, Utah, April 22.—Freezing temperature and unusually heavy pre-

cipitations are reported to have occurred last night in many sections of the inter-mountain country. It is not thought, however, that any damage to fruit will result, as the lowest temperatures are reported from the desert stretches of Southern Utah and Nevada, where there is practically nothing to damage. In the fruit districts of Idaho, Colorado and Utah, the temperature did not sink low enough to do much harm and the rain and snow coming at this time of the year, will, it is expected, prove of great benefit. Further light frosts are predicted for tonight in some sections.

Cressy is expected to have no opposition for reelection at the annual meeting of the state committee here tomorrow to fix the time and place for holding the next state convention for the nomination of candidates for governor, lieutenant governor and secretary of state affairs. The girl was well preserved and about 140 lbs. and the finding of her body caused quite a stir.

The coroner of Montgomery county immediately started an investigation, and his incline is to believe that the girl committed suicide. There are no marks of violence on the body which was in a bad state of decomposition.

NICHOLSON MAY BE A MYTH.

General Funston Asks the Philippine Commission to Subpoena Him.

By Exclusive Wire from The Associated Press.

Denver, Col., April 22.—General Funston today telegraphed Senator Lodge, chairman of the senate committee on the Philippines, asking him to subpoena John Nicholson, who is said to have been a sergeant in the Fourth cavalry, and examine him under oath regarding the use of the "water cure." Nicholson is reported to have said at Norfolk, Va., that General Funston originated the "water cure" and practiced it almost daily for several months.

General Funston said: "I am inclined to believe that Nicholson is a myth. I know every non-commissioned officer in the troops of the Fourth cavalry that were under my command and there was no sergeant named Nicholson." In his telegram, General Funston, in his telegram, denies having seen, used or permitted the "water cure."

DECISION IMPORTANT TO BUSINESS MEN

Treasury Department Abolishes the Rules That Have Been Annoying in the Past.

By Exclusive Wire from The Associated Press.

Washington, April 22.—One of the most important decisions made in years in the treasury department was announced today, and will be welcomed by the business men of the country as abolishing an annoyance they have experienced in connection with government business. Heretofore the government has insisted, through the sub-treasuries, that all government checks and warrants not only must be fully and completely endorsed in the regular way, but also must be accompanied by a certificate showing the authority of the endorser so to endorse the check. This has frequently given rise to vexatious delay and a sort of red tape which has annoyed bankers and business men extensively.

The government heretofore has not deemed ordinary endorsements accepted by banks as sufficient, unless accompanied by this certificate of authority to endorse. By a ruling of the department, made today, sub-treasuries throughout the country are to accept government warrants and checks when endorsed, and endorsement guaranteed by the banks presenting the same for payment. This reduces the proposition to one of simple business caution, and hereafter the government will pay warrants much as a business man or banker would pay similarly endorsed paper.

COUNTERFEIT POSTAL CARDS DISCOVERED

Postoffice Authorities All Exercised Over the Presence of Bogus Cards in the Mails.

By Exclusive Wire from The Associated Press.

New York, April 22.—The postal authorities are exercised over the discovery of counterfeit postal cards in the mails from nearly every part of the United States.

Postmaster Van Cott said tonight: "We have received only a few of the cards at the New York postoffice. What bothers us is the fact that those received have come from so many different sections. Several inspectors are working on the case. The cards are a poor counterfeit."

The description of the counterfeit cards given by the postal authorities follows:

"Top of name lines runs together, genuine is spaced. Jefferson's face are coarse and broken, veins not uniform. Word Jefferson is light face, genuine is boldface type. It is a coated paper, not used for cards. The whole appears to be a copy from an old worn-out plate."

TWENTY UNACCOUNTED FOR.

No Effort to Recover Victims of the Steamer Fire.

By Exclusive Wire from The Associated Press.

Cairo, Ill., April 22.—No more bodies have been recovered from the steamer City of Pittsburg which burned Sunday. Practically nothing has been found to search for bodies. It is fair to assume that the total number on board at the time of the fire, passengers and crew, from all reliable statistics given from memory by officers and crew, was 20. There were 15 and it is known that 73 were saved, which would leave 29 to be accounted for.

The corrected list of the lost is fifty and there must be 20 bodies in the wreck or the river.

HIS DUTIES ARE LEGALLY DEFINED

Business Considered by Congress. Formal Discussion of the Bill to Temporarily Provide a Govern- ment for the Philippines—Mr. Rawlins Denounces the Measure. The Military Academy Appropria- tion Bill Passed.

By Exclusive Wire from The Associated Press.

Washington, April 22.—Senator Hawley, chairman of the senate committee on military affairs, today introduced a bill to "increase the efficiency of the army." The most important section of the bill is the following:

"Subject to the command of the president and general direction of the secretary of war, the lieutenant general shall exercise general command over the military forces of the United States, shall issue 'army orders' and direct inspection of the troops. He shall be charged with the instruction, training, discipline and distribution of the army, with the preparation and maintenance of detailed plans for the mobilization of the military forces, with the preparation and maintenance of schemes of offensive and defensive operations and with collecting and compiling military information. It will be his duty to see that the army is at all times suitably properly supplied and equipped, and that the munitions of war are of the best material and of suitable character. He will recommend suitable persons for promotion and for military honors and rewards. He will be assigned in his duties by, and his orders will be conveyed and executed through the agency of the general officers holding commands and the general staff of the army."

The above provision is intended to give the commanding general a legal status which at present he has not, and is understood to be in the interest of General Miles.

Other portions of the bill relate to details of the administration of the army. One of these provisions authorizes the president to direct that the funds appropriated for the quartermaster's subsistence or pay departments may be placed to the credit of the disbursing officers of either of these departments.

Baldwin, with a battalion of troops and a mountain gun, went to the assistance of Moore's party and drove off the Moros, who lost seven men. The firing was at eleven hundred yards range.

The Moro villages were flying red flags, meaning that they intended to fight to the uttermost.

Later, Sultan Paulo and a force of natives attempted to re-occupy the ground gained by the Americans, but the Moros were forcibly dispersed.

SMITH COURT DISSOLVED.

The General Will Be Tried by a Court Named at Washington.

By Exclusive Wire from The Associated Press.

Manila, April 22.—By orders from Washington, the court martial ordered to try General Jacob H. Smith, who was in command of the United States troops on the island of Samar, on the charge of conduct prejudicial to good order and discipline, has been dissolved. The members of the court which will try General Smith will be named at Washington.

Although the sentence is yet obtainable as to the reasons for dissolving the Smith court martial, it is understood that the president is desirous that he himself should review the proceedings of the court martial instead of having it reviewed at Manila, as would have been the case if General Chaffee were the court. It also is understood that the court will consist of the same members named by General Chaffee, so that there is no question upon that officer involved in the course adopted.

BISHOP NEUMANN'S TOMB IS OPENED

Final Act Preliminary to the Beati- fication of the Prelate—Re- mains in a Remarkable State of Preservation.

By Exclusive Wire from The Associated Press.

Philadelphia, April 22.—The tomb in which the body of Bishop John N. Neumann was placed forty-two years ago, was opened today by a special ecclesiastical court, the proceeding being one of the final acts preliminary to the beatification of the prelate. The disinterment was made in secret and was for the purpose of identifying the remains of Bishop Neumann and to ascertain their state of preservation.

Two witnesses swore that they witnessed the burial of the bishop and two physicians wrote a minute description of the remains. The evidence collected by the ecclesiastical court during its inquiry, which has been in progress for several years, will now be forwarded to Rome.

Bishop Neumann was born in Bohemia in 1811 and came to America at the age of 22 years. He was made bishop of this diocese in 1852. He died suddenly 1880.

The Very Rev. Joseph Wissel, of St. Peter's church, in which edifice the remains of the bishop lay, tonight gave a statement describing the state of the body of the bishop. The body, which was attired in the bishop's vestments, was mummified. The face was a little sunken and out of natural shape, but the rest of the body was in a remarkable state of preservation. The hands, which were folded across the breast, were perfect and the feet equally so, the flesh being hard and solid though of a dark gray color. Four physicians, the statement continues, examined the body thoroughly. It was viewed by all the members of the court and then was placed in a new coffin, sealed and replaced in the vault.

There is a legend of the church that the bodies of saints exhumed many years after burial show signs of extraordinary preservation. The body, it is understood, was not embalmed when first interred.

Physicians are now examining persons who claim to have been cured by miracles performed by Bishop Neumann. Today's ceremony is said to have been the first ever held in the United States.

SMALLPOX CASES.

Two Positive and One Suspected Dis- covered on Meade Avenue.

By Exclusive Wire from The Associated Press.

Meade avenue, North Scranton, has now become the center of the latest smallpox outbreak. Mrs. David Griffith and her child, who live on that street, were found to be suffering from the disease early last week. Yesterday morning Dr. J. W. Houser, upon investigation, discovered that the two children of Frank Etringham, who lives next door, are suffering from the disease.

He also visited the house of Matthew Connelley, who lives in the house adjoining the Etringham home, and found Mrs. Connelley to be very sick. She revealed all the primary symptoms of smallpox, but no positive diagnosis appeared as yet. Dr. Houser ordered both the Etringham and Connelley houses placed under quarantine.

He reports that all the patients at the emergency hospital are convalescing, with the exception of John Knaggen, who was taken there only a few days ago, and who will be kept at the hospital until all possible danger of their infecting anyone else is removed.
