REPUBLICANS WILL NOMINATE A CANDIDATE.

There Are Three Men Who Would Like to Serve the District in the Legislature and They Are Struggling for the Nomination to Be Awarded Today by the Voters-The Candidates Are Joseph Oliver, W. J. Thomas and Walter W. Simpson. Polls Open at 4 O'clock.

Primaries for the nomination of egislative candidate will be held this fternoon in the First district between the hours of 4 and 7 o'clock. A spirited canvass is in progress. The contestants are Joseph Oliver, president of select council; W. J. Thomas, also of the Fifteenth ward; and Walter W. Simpson of Providence.

The First district includes practically half of the city. Its representative will be one of two members who with the help of their colleagues, will have to look after the numerous and important legislative interests of Scranton at Harrisburg next winter. The fact that Scranton is now a city of the second class, in company with Pittsburg and Allegheny, which have large and influential delegations to enforce their claims, make it more than ever necessary in the judgment of thoughtful citizens, that the Scranton representatives should be strong men, with experience in parliamentary methods and able to impress their force upon the deliberations of the house. The unopposed renomination of Representative Scheuer, James and Philbin insures strong and experienced members from the Second, Third and Fourth districts and the First, it is recognized, should provide a colleague similar in those qualities which make for usefulness. The high standard of service set for many years by Representative Farr, culminating in the establishment of the West Side hospital, an institution in which all the people of the district are interested, and the need of securing for this hospital an increased appropriation, are recognized as calling for unusual care in the choice of today's

Each of the three contestants has points of strength and the nomination of any one of them would undoubtedly be followed by an easy victory at the polls. It was pointed out yesterday, however, by those giving thought to the district's future welfare at Harrisburg that but one of these candidates has had an extended acquaintance with parliamentary usages. This is Select Councilman Oliver. His friends yesterday called attention to the fact that he has been tried in the public service and found not wanting; that he is fearless, independent and untiring; and that his nomination would give to the First disrict a representative whom no faction, clique or clan could control but who would do his whole duty from the first day of the session to the last. His active and energetic work in behalf of organized labor through his position as nember of the executive committee of he Central Labor union was also emchasized. While all kinds of predicions were in evidence last night it was he general belief that Mr. Oliver's candidacy had gained largely and his friends professed hopefulness as to the

## Swarthmore College

Offers four courses of study leading o degrees in Arts, Science, Letters : Engineering. As a co-educational stitution it undertakes to provide ege life in a home setting, with an atmosphere in which manly and womany character may develop naturally and completely. It is a typical "small ollege." The student comes in closest personal relation with the teachers and enjoys the benefit of personal acquaintance and oversight of the heads of the institution.

It is ten miles from Philadelphia, in one of the most interesting sections of Pennsylvania. The site is one of great | cern. natural beauty. Two hundred acres of wood, field and shaded lawn, the picuresque gorge of Crum Creek, the distant view of the Delaware, lend a charming variety to the scene. There is ample opportunity for all kinds of

outdoor enjoyments. Its equipment includes modern laoratories, libraries, work shops, handsome new gymnasium, etc. Catalogue on application. William W. Birdsall, president, Swarthmore, Pa.

## A Spring Rendezvous.

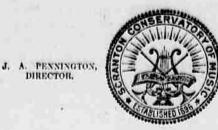

There is something invigorating and elaxing in new scenes and new contitions, and when one can take himself o such a marvelous resort as Atlantic City, there is a most marked change in his mental and physical being. First of course is the entire change of surroundings, then an exhilarating and healthful atmosphere, and last, but not least, delightful social life. There is a variety of scenes on the boardwalk, the rolling chairs, the dress parade, the bazars, and then the piers upon which every diversion has its following. The beach and its ponies, donkeys, sand nodelers, to say nothing of its wonderful surf, is in itself a grand attraction. endreds of hotels cater to the wants visitor in a manner befitting the metropolitan hostelry, and with such superb train service as the New Jersey Central offers between New York and Atlantic City in its double daily three hour service, there is little reason why this famous resort should not have a

CONSERVATORY RECITAL.

It Was Given in Guernsey Hall Last Night.

The forty-fourth recital by the Conervatory of Music, under the direction of J. Alfred Pennington, occurred last evening in Guernsey hall. As a rule, these recitals consist entirely of selections for from one to four pianofortes. Last evening, however, two vocal numbers were introduced.

After an ensemble class of eight players had rendered an Idylle by Gurlitt, Master Frank Laubach appeared as the first piano soloist, when he played a polka by Webb. This was his first ap pearance in a recital, and he did well Mary Ryan played the "Boys' Merry-Go-Round," by Gade, and "The Mill in the Valley," by Gaenschals, in a very pleasing manner. Master Ralph Goldsmith, of Green Ridge, was quite a favorite with the audience in the Promerade a Ane," by Wachs.

Eva Meixsell, of Hyde Park, gave the "Marigold Polka" with good phrasing and pedalling. Helen Hope-well, in the "Pastorella," by Gregh; Irene Chemberlin, in "Out on the Green," by Giese, and Norma Johns, of Taylor in the Mazurka in E flat, by Heins, played with a style and finish as to deserve special mention. All three have manifestly unusual talent, and the prospects of their becoming planists are flattering. The playing of Norma Johns was smooth, brilliant and showed uncommon musicianship for a child of her

The three young ladies who gave the closing solo numbers were Miss Rowena Hermann, of Dushore, Pa., who played the "Glockenblumen," by Morley, with excellent taste; Miss Mary Flower, of Gouldsboro, who played the delightful concert etude, the "Guirlandes," by Godard, and Miss Clara Browning, who rendered the difficult and well-known classic, the Ballade in A flat major, by Chopin. His two selections were "Daddy," by Behrens, and "Charity," The little fellow has a wonderfully sweet voice, and in the tender and sad little story of "Daddy" there was sympathetic quality which brought the tears. This pathetic tenderness was present in all of his singing and, child though he is, many a famous singer would envy him this power of singing to the heart. Master David was enthusiastically recalled, and sang "Sleep Little Baby of Mine," and the wellknown Welsh air, "All Through the Night.'

The usual illustration of the Faelten System of Fundamental training was given by Peter Naher, Emily Wilcox, Martha Richmond and Grace Underwood in several transpositions of the same piece, and the advanced ensemble closed the recital with the overture at four planes of "Romeo and Juliette," by Bellini.

# **ONLY ONE WEEK MORE**

THEN THE TRIBUNE'S THIRD EDUCATIONAL CONTEST WILL BE UNDER FULL HEADWAY.

Not Enough Entries Have Been Received as Yet to Cover the Scholarships-Why the Contest Begins Earlier This Year-A Descriptive Booklet Is Now Ready-Now Is the Time to Send in Entries So as to Be Ready for the First Day.

One week from Monday the third Educational Contest of The Tribune will open. This is a trifle earlier than the opening date of any previous contest. The first Educational Contest be gan on July 5, 1900, and extended to October 31 of that year. The second Educational Contest began on May 13 of last year and ended on August 31. This year's contest starts on May 5 and ends on October 25, covering just twenty-five weeks, or one week less han six months.

One excellent reason why this year's contest begins earlier than ever is that it this time of the year the students (to whom the contests especially appeal) have not yet become fully engrossed with the approaching examinaions and can get into "the swing" of the canvass and become familiar with the rules and conditions before the closing days of school. Besides this the earlier spring days are the most delightful ones of the year for being out of doors, and the contestant who expects to make any kind of a bid to win one of the scholarships offered as special rewards must put in most of his or ner work in the open air, making calls on friends and acquaintances. The May days are pleasant ones to get a start in, and then when the drowsy summer hours come, with blazing sun and dust-filled air, the work will be so systemacomplied with to a certain extent in tized that the walking will have gotten fown to the minimum

#### A Neat Booklet Issued.

The Tribune received from the press vesterday a neat little booklet of wenty-four pages, describing the contest in a summarized way, detailing the easons why the contest should appeal o the young people, giving the rules, the list of special rewards, a description of the institutions in which the scholarships are offered, with their value, and many other helpful hints. One of these books will be sent to any one who desires to learn about the Educational Contest. A large edition has been printed, and they will be sent to every own, city and village in Northeastern Pennsylvania within the next few days It cannot be too strongly emphasized hat the best time to begin is at the beginning. Already quite a number of young ladies and gentlemen have apolled to have their names placed on the entry list, so that when the contest pens they will have the advantage of peing supplied with subscription blanks and other equipment and can start right out, thereby gaining a lead over hose who may enter the contest later. So far, though, there have not been enough entries to fully cover the numper of scholarships, so that if there should not be any more entries and each of those whose names are now on the list should turn in but one point each, all would be entitled to scholar-

and have found them all to be in first There are thirty-three scholarships to class condition. The only important e competed for in this year's Educaimprovement which the committee will recommend will be the installation of tional Contest. In 1901 there were eight, and in 1900 only five. It will readily be a new heating plant in No. 25 school seen how greatly the idea has grown in the space of three years. The aggregate value of last's year's scholarships was about \$3,000. This year the total ash value of the thirty-three scholar-Scranton Art Lovers Are Attracted ships is nearly \$10,000. Last year there were but nineteen contestants, the last one having three points at the close. If the same conditions should prevail this noisseurs were attracted yesterday by a recent importation on exhibition at year the nineteenth contestant would get for his three points, worth \$1.25, a the store of Michaelian Bros., at 124 North Washington avenue. The Michaellan Bros, are among the largest Orischolarship valued at \$120 at least. There is another feature this year which should appeal to the ambitious ental rug importers in the country and young people who intend to work for control three wholesale and retail establishments, one on Fifth avenue, all they are worth. That is the Special

Honor Rewards. At the end of each calendar month the young man or young woman who has secured the largest number of points during that month will receive a special reward of considerable value as a reward for his or her zeal. This idea was conceived because it was thought that it would bring forth the best efforts of each contestant. As the contest will run into six separate months there will be six distinct chances for the contestants to earn something in addition to the scholarship they will receive at the end of the contest. These special honor re-wards will be entirely independent of he main contest.

PAINE'SCELERY COMPOUND

Cures a South Carolina Gentleman.

This Marvelous Medicine Is Heartily Indorsed by the Ablest and Best Physicians.

What a blessing it would be to hu-manity in general if all suffering men and women knew just what Paine'. Celery Compound is able to do.

The work that cannot be done for the sick and suffering by months of experimenting with the common medi-cines of the day, is successfully entired to victory by Paine's Celery Compoun. in a few short weeks

The cure of Mr. Murph proves fully the assertion made above. After years of failures, misery, agony, and despondency, Paine's Celery Compound made a "new man" of one who had become a mere wreck-one who was fast nearing the grave.

Have faith, sufferer! You have strong deliverer at hand able to rescue and save you. From today, let your tope be centered in Paine's Celery Compound and its mighty power to cure. It has never disappointed any sufferer; it will not fail in your case. Mr. R. H. Murph, Rich, S. C., under the direction of a kind Providence, was ed to use the medicine that "make sick people well." His testimony is strong and convincing. It shows un mistakably that Paine's Celery Combound is the true health builder for weak, weary, sleepless, and run down people at this season. Mr. Murph says "I have had nervous prostration for several years. I was troubled almost continually with nervous headache. could not sleep well, had become absent minded, and was run down in flesh and general health. A friend advised me to try Paine's Celery Compound. I used four bottles and am now in excellent health, and weigh more than I have for five years, all of which I owe to Paine's Celery Compound."
