

ROYAL Baking Powder is indispensable to the preparation of the finest cake, hot-breads, rolls and muffins.

Housekeepers are sometimes importuned to buy other powders because they are "cheap."

Housekeepers should stop and think. If such powders are lower priced, are they not inferior?

Is it economy to spoil your digestion to save a few pennies?

The "Royal Baker and Pastry Cook"—containing over 800 most practical and valuable cooking receipts—free to every patron. Send postel card with your full address.

Alum is used in some baking powders and in most of the so-called phosphate powders, because it is cheap, and makes a cheaper powder. But alum is a corrosive poison which, taken in food, acts injuriously upon the stomach, liver and kidneys.

excommunicated him and appointed another Greek Catholic priest in his stead. This was on February 14, last. Rev. Ardman refused to vacate the pastorate and rallying around him a large number of the parishoners, pro-ceeded to establish a new Greek church, independent of any hierarchy. It is designed that his new church shall have a political as well as religious creed.

George Siniawa, Samuel Rusen, Joseph Fechnia, Alex Towaskavich, Harry Blauzar, Simon Hamernik and Parre Polka representing those of the congregation who did not want to desert their faith and ally themselves with the new religion, went into equity court and sought an injunction restraining Rev. Ardman from using the church and its appurtenant property for his new religion and directing him to give over possession thereof to Bishop Hoban in trust for the church trustees.

HAVE THEIR OWN BISHOPS.

In the old countries, the bishop stated, the Greek Catholic priests are subject to their own bishops, who in turn are subject to the pope. In this country, where there are no Greek bishops, the Greek priests are subject to the Roman Catholic bishop of the diocese in which they locate. The Greek priests in this country enjoy the privelege of reading the mass and offices in Greek and may be married. In all matters of faith and doctrine they are amenable to the bishop. Their congregations are to have charge of the temporal affairs of the church. These statements were shown to be

authoritative by copious quotations from papal buils and letters of the sacred congregation of the propoganda at Rome. The bishop also testified to the articles of union between the Roman and Greek Catholic churches.

Rev. Ardman was excommunicated, Bishop Hoban stated because of his refusal to subject himself to discipline for his editorial on the assassination of President McKinley. The bishop was cross-examined at length by Mr. Hand with a view of showing a dissimilarity in the two churches.
