

CLEVELAND'S Superior Baking Powder

Makes delicious home-made biscuit. No biscuit or cake you buy at the baker's or confectioner's equals in freshness and flavor those you can make at home with Cleveland's Baking Powder.

When you do your own baking, using Cleveland's Baking Powder, you know just what goes into your food; that it is pure and wholesome and has no poisonous alum in it. Home-made baking is easy and economical if you use Cleveland's Superior Baking Powder.

CLEVELAND BAKING POWDER CO., NEW YORK.

Imitation baking powders are cheap, but being made from alum are unsafe for use in food. Alum is a mineral poison.

INDUSTRIAL AND LABOR

HIGHER WAGES FOR THE D. L. AND W. SHOP HANDS.

Large Number of Men and Boys in the Motive Power Department Receive an Increase That Averages Nearly Eleven Per Cent—But for General Manager Wehrum, of the D. L. and W. Co., Scranton Would Have a Large Foundry Established Here.—The Board.

In pursuance of the plan inaugurated by the Delaware, Lackawanna and Western Railroad company when they put their shopmen on a piece work scale working basis, where merit warranted it, they have increased the wages of a large number of employes in the motive power department all along the line.

Both the piece and time workers among the machinists, helpers, boiler-makers and other motive power men have had their wages increased to the number of four hundred and forty-six. The increase to machinists and helpers amounts to 6 per cent., to apprentices to 23-100 per cent., and the average increase to all men raised amounts to 19-100 per cent. over their previous wages.

The increase to apprentices is made on the following lines: Previously they received the first year, .06 per hour; second year, .08 per hour; third year, .10 per hour; fourth year, .12 per hour; and now the rate paid is .08 first, .11 second, .14 third, and .17 fourth.

Deal Fell Through.
Sometime ago Conrad Schroeder and Mrs. Mina Robinson decided to secure an option on the Lackawanna Iron and Steel company's foundry. They planned to equip it with modern appliances and carry on the business of business giving employment to 150 men or more and thus supplying to some extent the void caused by the removal of the steel company's plant to Buffalo.

The option was secured, the price being \$30,000. After consulting with the proposed plan and purchase the property. The acceptance of the offer was inadvertently delayed and it is understood to have reached General Manager Wehrum of the steel company just one hour later than the time fixed.

He promptly sent a reply stating that the company's original offer no longer held good and announcing that if the foundry was to be purchased the price would be \$35,000 instead of \$30,000. This so incensed Mrs. Robinson and Mr. Schroeder that they decided without further ado to give up the idea of purchasing the place.

THE MARKETS

Wall Street Review.

New York, May 7.—Today's stock market reflected an unavailing effort to contend the downward tendency. After yesterday's revolution at the semi-demonstration on Monday, some reactionary tendency was natural to retrace the normal balance of things, but this tendency was reinforced by the decidedly sceptical sentiment over the prophecies of the anthracite rail settlement.

These prophecies continued very confident from sources with every means of authoritative information, but the fact contradiction of the rumors received from Scranton, where the miners' delegates were in convention, caused confusion and uncertainty among the "tips" designed to influence the stock market. As a matter of fact, heading which was accepted as the index of the anthracite situation, was lifted a shade from its position today, the maximum gain of the crop and the weakness of the grain market were a help to the grain carrying railroads, but the fact contradiction of the rumors received from Scranton, where the miners' delegates were in convention, caused confusion and uncertainty among the "tips" designed to influence the stock market.
