THE MARKETS.

Wall Street Review. New York, May 8.—Stocks recovered from yesterday's weakness today, although there was considerable uncertainty manifested in the prevailing sentiment. A more cheerful feeling over the optimistic outlook is responsible for considerable buying by short sellers of yesterday, who proposed to sell on the day that a strike could not be avoided. The hesitation which developed in the market was due to a considerable extent to the action taken by the mine workers' convention, which presents an entirely new phase of the situation. The active coalers reflected no feeling after the announcement of the miners' "order to arbitrate," but they fell into comparative dullness. The high priced eastern colliers were advancing and a strong recovery after the demand for the readings had largely cleared out. The whole market fell into dullness in the latter part of the day, while waiting for the announcement of the reply of the anthracite operators to the offer of the miners. The result is that the day's transactions are not much over half those of yesterday. Outside the readings, the principal activity was in St. Paul, Union Pacific, the local traction and Southern Railway, Union Pacific and St. Paul were bought heavily for western export, the attraction being attributed to crop conditions. The referees' decision upholding the action of the New York franchise choice tax induced some active liquidation of the stocks of New York public utilities, but they were supported and rallied. The advances in Louisville and Southern railroad met realizing. Reports of an apparent contest between the two interests for control of the lands increased the disposition to sell. Illinois Central became strong, in contrast to its weakness yesterday. It was another proponent. The stock market was evidence of strength among various minor stocks, which are supposed to be the subject of a sharp advance by speculative pools, although their rumors continued to circulate of their prospective absorption or merging. Colorado Fuel was another proponent. The local market, however, recovered to well above last night. International Power fell nine points below the last sale price, but fully recovered. There was a sale of Lawrence and Anderson at 32, compared with the preceding sale at 30. This sale was before the collapse of the Webbs' stocks. The incidental statement by Dr. Webb that he had sold the road to A. L. Webb for \$8,000,000, the public this morning. Total sales, 626,000 shares.

The bond market recovered today in sympathy with the stock market. The local market, however, recovered to well above last night. International Power fell nine points below the last sale price, but fully recovered. There was a sale of Lawrence and Anderson at 32, compared with the preceding sale at 30. This sale was before the collapse of the Webbs' stocks. The incidental statement by Dr. Webb that he had sold the road to A. L. Webb for \$8,000,000, the public this morning. Total sales, 626,000 shares.
