KEMMERER'S BODY BURNED TO A CRISP

It Was Found Within a Short Distance of the Destroyed Blue Ridge Breaker.

The remains of Thomas Kemmerer, the fireman at the Blue Ridge breaker, at Peckville, which burned Sunday, was found about 1 o'clock yesterday The miners who had been looking for him from one end of the mine to the other, had found no trace of Kemmerer, and it was thought he had falely into the sump at the foot of the shaft and had been drowned. Both theories were incorrect.

Shortly after I o'clock a. m., Asa Scott and William Sears stumbled over the body, while walking along the mine track which led to the culm dump. The body was unrecognizable, being burned to a crisp. It is supposed Kemmerer, upon climbing up the ladder out of the shaft, made a dash through the flames and was so terribly burned that he fell some fifteen feet from the burning structure and his was almost cremated. They Demand Thirty-Seven and One Half Cents an Hour and an Eight-Hour Day.

The union plasterers, of this city, went on strike yesterday for an eighthour-day. All the union men falled to eport for work in the morning and about 10 o'clock a committee waited on Contractor Peter Stipp, president of the Master Masons' association, and presented a written demand.

This demand was for an eight-hourday and an increase of wages from thirty-three cents to thirty-seven and a half cents an hour. This is equivalent to the wage now paid for a ninehour day. The demand is that the eight-hour day go into effect on Monday, June 2.

Pending action on the demands the committee informed Mr. Stipp that the men will remain on strike. The question will be taken up this afternoon at a meeting of the Builders' Exchange to be held in the board of trade rooms,

MISS STONE'S LECTURE.

Diagram of Reserved Seats Will

Open Tomorrow Morning. Tomorrow morning the diagram for the lecture of Miss Stone at the Lyceum next Monday night, under the auspices of the Jackson Street Baptist church, will open at the Lyceum box office.

Inasmuch as Miss Stone has been riticized for accepting a proposal to go on the lecture platform, she has made statement of her reasons for so doing end her intention as to the use she proposes to make of the proceeds of her lectures. It is known to all with whom and for whom she has labored that she has never sought gain for herself, but has devoted herself and all that she has in ministering to those people to whom she has carried the gospel of Christ. Now that, without her seeking, Miss Stone has had put before her an unparalleled opportunity, ought she not to welcome and use it? Coming to her wn country after such trials and after

having awakened such an interest as never before in the history of the board has fallen to the lot of any missionary, be could not be the missionary of Christ which she has shown herself to be and keep silence now

The indications are that a great audience will greet here here.

OPENING OF THE BIG FOOD SHOW

Products of Thirty-two Firms Are on View at the Bicycle Club House-Lasts Two Weeks.

The biggest food show ever conducted n this city was opened last night at the Scranton Bicycle club under the direction of the National Food Show company, of Baltimore, and will coninue for two weeks.

No less than thirty-two manufacturers of various products are exhibiting their goods. Booths of uniform size and construction are ranged along both sides of the ball room and both reception rooms on the ground floor are ilso used by the exhibitors,

The show is bound to be a centre of attraction for both men and women for the next two weeks. The men are always interested in good things to eat and then there's nearly two score of pretty female demonstrators on hand. Lives there a man with soul so dead "that wouldn't enjoy drinking a cup of cocoa formed by the hand of a pretty girl with a winning smile and who wouldn't buy a box if she asked him to?

The women will be interested because of the infinite variety of the food products on exhibition. The searchers after novelties will find them in plenty. There is a salad oil made from peanuts that promises to come into general use: orange and lemon sugars for flavoring cakes; concentrated foods made from nuts and a number of others.

The show is being conducted under the personal management of W. B. Cheatham, the company's general manager. Admission is by ticket secured free from any grocer in the city. It will be open daily between the hours of 1:30 and 5:30 p. m. and 7:30 to 10:30 p. m. The companies exhibiting and the food products they are showing are as

Although 82 points were scored in The Tribune's Educational Contest yesterthere was comparatively little changing about of the leaders. Down to ninth place the contestants are lined up this morning precisely the same as they were yesterday. William Sherwood, of Harford, advances from thireenth place to ninth in this morning's table and all below him take a drop of one or more places. There were three new contestants to make their introductory reports yesterday, namely: Harry Danvers, of Providence, now in hirteenth place; Lee Culver, of Springville, now eighteenth, and Emanuel

Bucci, of Scranton, who is twenty-third. There are a number of ties, showing how keen the competition has become to retain or to better the position of the individual contestants. fights are for sixth, fifteenth, seventeenth, twentieth and the last places, the latter, by the way, being between

two brothers. We wish to again call the attention of the young people who have entered but have not yet reported points, that there is no time to begin like the pres ent, to start in, when the contest is young and there are several vacant places. They should remember that there are thirty-three scholarships offered, and in case of a tie at the close these who have registered their points first will be awarded the first choice of the disputed scholarship. All who fail to get as high as thirty-third place will be given back ten cents on every dollar they turn in, so that none will be unpaid for their time.

Paine's Celery Compound

for Their Loved Ones.

The Wondrous Medicine Quickly Expels All Garm Poisons from the Blood and Fortifies the Weak and Run Down System.

A busy city physician, enjoying a large annual income, remarked the other day that a host of young peo ple-boys and girls-were suffering this month from the after effects of winter

Dear parents, have any of your children suffered from an attack of the cruel monster grippe, during the past winter months? Are your boys and girls irritable, feverish, pale, or weak' Have they cold and clammy limbs' Is the blood watery, impure, or sluggish? Is the appetite poor and diges-tion weak? Has the rose tint of health faded from the cheeks? If any of these conditions are noted, be assured the dregs of deadly grippe are implanted

in the system. If your children are not blithesome happy, bolsterous, and strong in May, their condition calls for prompt action on your part. Their future-health and physical happiness or sufferings and early death-is in your hands, dear parents, and you alone are responsible to Heaven and the community of which you form a part.

When winter grippe has implanted eeds of virulent diseases, the first and most important work is to expel from the blood every trace of poison. is always successfully accomplished by the use of Paine's Celery Compound. This marvelous medicine after pur ifying the foul and stagnant blood, acts as a nerve food. It builds up the nervous system and nourishes all the

bodily tissues. Boys and girls with such a start in life as they always receive from Paine's Celery Compound, grow up as sturdy forest caks; they revel in strength and true life; they are fair to behold; they make the men and women most needed by our country. Do your part this month, dear parents, with promptness and honesty, and rest assured Paine's Celery Compound will not fail in its grand work of health building.
