TO THE GENERAL PUBLIC.

It has become a common practice in this city in recent years for the general public to open and use the fire hydrants belonging to the city, without first procuring permission from the proper authorities to do so. Where hydrants are opened without a spanner, the top is soon worseround, and their repair has been a source of constant expense to the city. Also, where the hydrant is not tightly closed after using, as has frequently been the case, water escapes to the great damage and injury of the streets and gutters.
