The Tribune's great Educational Contest has been open just two weeks, and yet the list of contestants is not full. Thirty-three scholarships are offered, ranging in value from \$45 to \$1,700, and five of these are still without claimants.

It is not surprising that some of the young people do not realize what is within their reach, as it is so easy to say that an education covering four years, and including not only tuition but in some cases also board and room is offered, but it is hard to grasp the full significance of a scholarship covering through the Tribune's Educational Contest, not only one but several young persons will obtain just such educations, and that for the work of but a few short summer weeks. The contest has but twenty-three weeks yet to run, and at the end of that time the contestants who have secured the largest numbers of points will have an opportunity to select any school or college in the entire list offered by The Tribune, and will be entitled to all the benefits going with each, as has been so fully described in these columns.

### Ten Scholarships of Three Years or More.

In order to secure one of these great scholarships the contestant will not necessarily have to finish at the top. Anywhere within the first ten places will ensure a scholarship covering at least three years, as among the scholarships there are four covering three years, five covering four years, and one covering five years. Several of these also include board, room and other incidental expenses.

Just imagine that for what canvassing you are able to do for The Tribune between now and October 25, you may receive educational advantages covering from three to five years, as well as your board and room! Surely there is no young man or woman in Northeast Pennsylvania who does not believe they can get among the first ten if they really try.

### Every Contestant Will Be Paid.

A very important feature of the contest is that every young man or woman who does any work at all for The Tribune during this contest will be rewarded for what they do. Thirty-three scholarships is a very large number, but there will probably be more than this number of contestants, and those who fall to get within the first thirty-three will receive back in cash ten per cent. of all the money they collect for The Tribune.

The Tribune does not ask anyone to work for nothing. It is perfectly willing to pay for all work done, so that whether you get a special reward or not you can rest assured that you will be a "winner."

### Special Honor Rewards.

A feature of this year's contest which is evidently going to prove popular is the offering of special honor prizes to those who do the best work each month. The first of these, which is to be given to the contestant who secures the largest number of points during May, is a handsome gold watch, of the latest design, fully warranted

for twenty years. From present indications Mr. A. J. Kellerman will be the happy possessor of this, unless some one makes an unexpected spurt. Still there are two weeks yet in which there may be many changes.

A gold watch will not be offered every month, but something equally valuable and useful will be selected. These gifts will be announced from time to time as the contest progresses. However, this will be the only opportunity to secure a gold watch, and those who would prefer this gift should lose no time in bringing in their points.

**The Strike and the Contest.**  
Some of the contestants are inclined to be a little discouraged over the strike situation, fearing that it will be hard to get subscriptions while the strike continues. It may make the securing of points a little harder, but the contestants must not lose sight of the fact that every worker in the contest is confronted by the same condition. There is not a contestant located outside of the coal districts, and where one loses a subscriber because of the strike, there will be the consolation of knowing that every other contestant is confronted by the same condition.

**What the Contestants Did Yesterday.**  
There was very little change made in the standing of the contestants yesterday. The first four leaders retained their positions. Maxwell Shepherd advanced from sixth to fifth place and is now but three points behind his fellow townsman, Herbert Thompson.

**What a New Contestant Might Do.**  
A glance over the table shows that there are great opportunities before a new contestant. As the list stands this morning, one new subscriber, counting twelve points, would place a new contestant in eighteenth place, in line for a special reward valued at \$125 or more, while two such subscribers would give the one just entering thirteenth place, and if this position was maintained to the close, a scholarship valued at \$230 or more would be the reward. The possibilities within reasonable reach of any active young man or woman are much greater than this, and can be easily figured out by those who are interested.

### DUNMORE DOINGS.

Meeting of the Borough Council.  
Board of Health Met for Reorganization Last Night.

The council met in special session last night, with all members present except Mr. Brogan. The awarding of the bond issue was to have taken place, but on request of Dennis, Fryer & Co., who were unable to present a bid, the matter was deferred until May 28.

A resolution, introduced by Mr. McAllister, provided for the making of a contract with the Dunmore Electric Light, Heat and Power company for lighting the borough streets for a term of five or ten years, at the best terms obtainable, the contract to be executed by the electric light committee and the burgess, and presented at the next meeting of council for ratification.

The property owners on Mawn street offered to grade that thoroughfare, if the borough would allow them the use of the borough teams. Their request was granted and the teams will be at their disposal on Tuesday next.

The tax levy for borough uses for 1902 was fixed at ten mills. Mr. Conroy introduced the subject of an ordinance taxing people from outside the borough for doing business in town the first year, but it did not meet with the approval of the rest of the members and was voted down. The council will make appropriations for the fiscal year on May 28.

### Board of Health Reorganized.

At the reorganization of the board of health, which met last evening, Byron Brady was elected president and Peter Conroy, secretary, for the ensuing year. T. J. Fadden and P. F. O'Hara, the present health officer, were candidates for the position. The vote taken was 3 to 2 in favor of O'Hara, and he was declared elected. T. J. Hughes and J. P. Fitzsimmons, the recently appointed members, were sworn and took their seats.

### SHORT PARAGRAPHS.

Isabella Bryder, the little daughter of Mr. and Mrs. James Y. Bryder, of Fourth street, suffered a broken arm yesterday as the result of a fall from the porch. The little sufferer is resting comfortably at present and no bad effects are feared.

### A LITTLE FINANCIER.

Ex-Congressman Cable, of Illinois, has a charming young daughter who is receiving her education in France. When she was several years younger than she is now her father took her on his knee one day and said to her:

**IN LOVE WITH CONVICTS.**  
Admirers for Men and Women Imprisoned for Crime.  
From London Times.  
"Although one would naturally think said a well known prison chaplain—that the path of crime was the least likely of all to lead to the altar, it is a very remarkable thing that some of the most notorious criminals I have known have been simply inundated with offers of marriage from unknown sympathizers and admirers. In fact such is the fascination of crime to persons of a certain class that it is almost safe to say that the more brutal and heartless the criminal the better are his or her matrimonial chances.

**BOWLING**

So infatuated was one of his lovers that she went to live in the neighborhood of the prison where he served his sentence, and was happy if she caught a glimpse of him on his way to the quarry. When she married him or not ultimately I cannot say, but it certainly was not her fault if she didn't.

The bowling tournament on the Hampe alleys is now in full swing and contestants are to be seen rolling for all they're worth at all times of the day and night. The tabulated scores up to last night show that in the individual contest Billy Hopkins is away in the lead. He has rolled twenty-four out of the required thirty games, and has an average of 197 to his credit, which is exceptionally high. In fact, it is considered to be the best bowling done in this city in many years.

Govee	1224	155
W. Tomlinson	1669	159-7-12
G. Davis	1297	158-1-2

In the two men team contest Hopkins and Moore have an average of 280 for twenty games, while Howard and Graves have 225 for ten games. In the five men team race the Backus team has an average of 839 as compared with an average of 808-3-5 held by the Hampe team, five games each. The Arlingtons will enter the team contest next week.

Interest in bowling is somewhat dying out because of the approach of hot weather and several of the alleys will be closed down for the summer shortly. There are some devotees of the sport, however, who never let the hot weather worry them and these are sufficient in number to warrant the proprietors of several alleys keeping open all summer.

The South Side team, which was the Jonah of the city league during the first series of games played, will probably finish near the head of the list this time. The team is at present tied with the Becker team for fourth place. The playing of the several members seems to be improving and a very creditable showing was made on Wednesday night last against the strong Franklin team. The score of 333 made in their first game came within six pins of being the high score of the night.

Canal Will Be Filled Up.

Harrisburg, May 16.—Orders were issued today that after July 1 the Pennsylvania canal would be filled up by the Pennsylvania railroad, and that above Harrisburg would be used for track laying in the yards.

... body and getting it ashore, where it was found to be the remains of little Arthur Burns, youngest child of Mr. and Mrs. Samuel Burns, of East Third street, and about four years of age. Little Francis Lottus, aged 4 years, son of Mr. and Mrs. John Lottus, who lived nearby, was also found to be missing, and known to have been in the company of the Burns boy shortly before, and a short search resulted in the finding of his body also, a short distance down the stream. How the little fellows came to be drowned will never be known precisely, but they are believed to have fallen from a boat which was fastened to the bank, and in which they were playing. They were both remarkably bright children, and heartily felt sympathy for their afflicted parents is expressed on every side. In the afternoon of the same day, Christopher Calahan, yardman for the Lehigh Valley company at this place, while attempting to board the caboose of a moving train, slipped and fell backwards, striking his head on the rail. He was immediately removed to his home on Harrison street, and measures taken to restore him to consciousness. The extent of his injuries is not known, but it is feared that he may be dangerously hurt.

TRADE MARK  
PORCH SHADES

Broadly speaking, "capable of being seen through," is the name of a new Patent Porch, Piazza and Window Shade, made of Liden Fibre, dyed in artistic and fashionable colors, which harmonize with any house.

They give perfect protection from the sun, yet afford a free circulation of air. They are very strong, as the best grade of seine twine is used for warp, and the warps are put very closely together; this holds the fibre flat and the shades do not warp out of shape.

The roll-up fixtures are the best that can be had. The pulleys are all of metal, not rough, wooden affairs as in bamboo, made perfectly and thoroughly japanned, and the cords that work through the pulleys are the most costly kind of maitre cord. This costly cord not only stands the weather better than any other sort, but it does not "kink" up like the cheap, rough native fibre cord used in bamboo screens.

The result of all these—a smooth, perfect, nicely colored, artistic, durable porch shade.

**TUNKHANNOCK.**  
Special to the Scranton Tribune.  
Tunkhannock, May 16.—Miss Florence Parks, a trained nurse from Wilkes-Barre, is the guest of Mrs. Elizabeth Spaulding, on Paterson street. Mrs. Stephen Robinson and mother, Mrs. Margaret Leighton, of Russell Hill, were in Wilkes-Barre on Thursday. Friday was a day of accidents in Tunkhannock. At about the middle of the forenoon, Willie Rose, while fishing from a boat in the Tunkhannock creek, lost about its masts, discovered the body of a small boy in the bottom of the stream. He succeeded, with some difficulty in recovering the
