

Tired

It is a good thing to be tired when it's the healthy all-over tiredness which is the result of exertion. For this tired condition brings its own compensation in sound, refreshing sleep.

Generally the woman who feels tired and worn-out all the time is advised to try some tonic which can do no more good than act as a temporary stimulant. The woman's need is deeper than this.

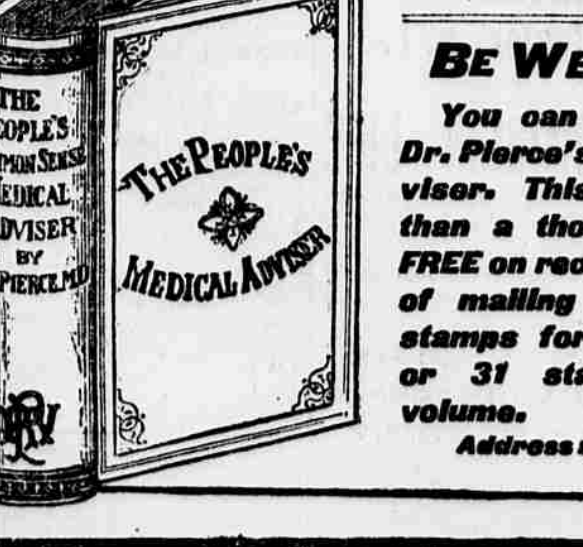

The first step toward health and strength is to cure the womanly diseases which waste and weaken the body. Dr. Pierce's Favorite Prescription cures these womanly diseases; it makes weak women strong and sick women well.

Four years ago my health began to fail, writes Mrs. Nellie M. Reynolds, of Glenwood, Washington Co., Oregon. "I had a heavy dragging weight in the region of the uterus, pain in back and legs, could not lift anything heavy, rest at night very poor; stomach deranged. One physician said I was overworked, another said I had congestion and falling of uterus. He treated me nine months and said I would not be well until I had passed the change of life. I was only twenty-seven years old then."

Reference is made in the letters printed above to correspondence with Dr. Pierce. This privilege is open to every sick woman without cost or fee. Dr. Pierce invites any suffering women to consult him by letter, free. All correspondence is strictly private and sacredly confidential.

In a little more than thirty years, Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., assisted by his staff of nearly a score of physicians, has treated and cured hundreds of thousands of weak and sick women.
