

STRIKE SITUATION IS UNCHANGED

But Little Advantage Gained by Operators of Mine Workers Yesterday.

MITCHELL OBJECTS TO COAL AND IRON POLICE

Characteristics the Action of Companies in Protecting Their Property as "Tyrannical"—Strikers Are Arrested at Shamokin for Threatening Workmen with Violence.

Scranton, Pa., June 3.—There were no developments or incidents of special mention in the anthracite coal miners' strike today. The mine workers tried hard to bring out additional engineers, firemen and pump-runners, and the companies were equally earnest in their efforts to hold the employees that have remained loyal to them.

Objects to Police Protection.

President Mitchell said today: "In view of all the predictions of trouble yesterday, I consider the fact that the strikers kept the peace perfectly a great victory for organized labor. I have expected no trouble, and I still feel confident that the men will respect my requests and act within the law."

It is queer to see a lot of men, the majority of whom are absolutely irresponsible persons, armed in the name and honor of coal and iron police, stalking about the mines with guns in arm, while the strikers without have no thought of damaging the property of their employers.

Royal Oak to Be Sold. Shamokin, June 3.—Sheriff Samuel Deltrick, of Northumberland county, posted notices today announcing the sale of the Royal Oak colliery next Tuesday.

Hoodlums Burn a Barn. Wilkes-Barre, June 3.—A crowd of men and boys made it very unpleasant for the guards at the Stanton colliery of the Central Railroad of New Jersey tonight.

Mitchell Complimented Strikers. President Mitchell tonight gave out the following statement: "Detailed reports from all quarters of the anthracite field indicate that the number of engineers, firemen and pump-runners increased today and the probabilities are that it will be further augmented today."

Soft Coal Nuisance in New York. New York, June 3.—The city department of water supply, gas and electricity protested to the board of health today against the use of soft coal in the city.

PENNSYLVANIA MAY ADOPT THE POSTAL

Change in Telegraph Service Is Contemplated Along Its Lines.

Philadelphia, June 3.—It was officially stated today that negotiations are in progress between the Pennsylvania railroad and the Postal Telegraph company concerning the operation of the telegraphic system over the railroad company's lines.

The Western Union Telegraph company at present operates the Pennsylvania railroad telegraph lines, but the contract will terminate in about six months.

A vice-president of the Pennsylvania railroad admitted that a conference of officials of the two companies had taken place, but he said he could not anticipate the result of the meeting.

Asked if the contract with the Western Union was likely to be renewed, the official said: "While no agreement with any company has been reached, I fully believe that after December 1 the telegraph service along the Pennsylvania system will be in the hands of another company."

DESPERATION OF RIOTERS

The Chicago Packing House Teamsters Keep the Police Busy.

Chicago, June 3.—Chicago's police were given a strenuous life today by the striking packing house teamsters. From daylight this morning until long after dark tonight the bluecoats were kept busy dispersing trouble makers who congregated along the streets and in every conceivable manner placed obstacles in the way of the meat dealers who endeavored to move their supplies with non-union drivers.

In spite of the striking teamsters and their friends, thirty-three wagon loads of meat were delivered from the stock yards to downtown stations. Before the task was accomplished, however, a score of policemen and rioters had been injured and fully fifty persons had been placed under arrest.

Several of the injured were in such a serious condition that they were taken to hospitals. Two of the injured may die.

When the procession of wagons left the packing houses they were guarded by a heavy detail of police. As soon as the wagons emerged at the entrance of the yards, fully five hundred enraged strike sympathizers made a rush to overturn the conveyances. The police drew clubs and after a hard struggle succeeded in scattering the mob.

A fresh start was made, but before the wagons reached the downtown district, the mob augmented by hundreds of sympathizers, made another attack. In the fight that followed, rioters were drawn.

No person was shot, the police instead using their clubs indiscriminately and a dozen or more rioters were hurt before the march could be resumed.

When the central portion of the city was reached, clashes between the police and the crowd became numerous. Street car traffic was an impossibility and it was necessary for several squads of police to charge the crowds with batons before the wagons had reached the various downtown houses.

To add to the burdens of the police 1,300 drivers and their helpers emerged by the State street general retail department stores went on a strike today.

Before the rioting broke out the strikers had abandoned, several rioters were hurt and many arrests had been made.

COAL SUPPLY SHORT.

Dealers in Baltimore Have Hardly a Week's Supply—The Supply at Reading.

Baltimore, Md., June 3.—The coal dealers of this city report that there is hardly a week's supply of anthracite coal in Baltimore. None is coming to the city now, on account of the strike of the miners and none can be secured by the dealers.

Demand for soft coal has grown considerably as a result of the scarcity of the hard coal, and in consequence the price of soft coal has also been advanced.

Much soft coal is also being shipped to New York and other northern cities by Maryland companies and this in turn is causing a shortage of the supply.

For three weeks now not a carload of coal consigned to a Baltimore dealer has arrived here. No orders for more than a ton of coal will be filled by the large dealers.

Reading, June 3.—Inquiry into the subject this afternoon elicited the fact that the stock of coal at the leading manufacturing plants in the Schuylkill valley is surprisingly low.

A few furnaces have sufficient to keep them going for several months. Others, however, could not run more than a week or two without being compelled to bank up their stacks.

Unusually big shipments of soft coal are expected from western Pennsylvania and Virginia within the next few days to relieve the situation.
