The riotences between the miners and operaers stood on the viaduct and hurled torsit is stated that the president has not yet decided what action he will take in response to the suggestion, Senator Hanna, of the Civic Federa ion, when interviewed to-night, proessed to know nothing of the New

ton last night, where he met Frank P Sargent, chief of the locomotive fire men. Regarding the general strike situation, he said everything was progressing satisfactorily; that more were coming out each day and that the idle men are behaving themselves well In emphasizing the latter statement, Mr. Mitchell said the chief of the Wilkes-Barre police told him that during the twenty-one days the strike has been on, there have been fewer arrests than during the same number of days prior to the suspension of work. Among the arrests that were made not one was a miner. The national president had no comment to make when informed that the New York board of trade had decided to ask President Roosevelt to take up the task of trying to end the great struggle.

Water in the Schuylkill Mines.

Wilkes-Barre, June 4 .- The Assoclated Press correspondent was informed today by a mining official who has positive information on the situation that most of the mines in the Schuylkill region are accumulating water. The Reading company's collieries located in that region are the chief sufferers. The collieries of the Lehigh Valley company and individual companies in the same territory are also slowly filling. In the Hazleton, Wilkes-Barre and Scranton districts, the conditions are not so bad, only a mine here and there showing high water.

The Susquehanna Coal company, at Nanticoke, south of here, which has been successful heretofore in holding its men, is reported to have lost all its firemen. Their places were filled by other men whom the company had for such an emergency.

There was to have been what the miners call a "scab serenade" at Miner's Mills, a small settlement near this city," tonight, but it was called off by orders, it is said, from strike headquarters. The strikers had planned to hold a big torchlight procession and parade through the town, stopping at the home of each workman who refused to quit work and serenading him and his family with funeral airs, led by a fife and drum corps. It was feared that some disorder might occur, and two district officials went to the town this afternoon and persuaded the local leaders to cancel the affair. Mr. Mitchell denied that he had ordered it stopped, saying that he only knew of the affair through the newspapers and that he took no action in the matter.

Henry Clay Shaft Filling.

Shamokin, June 4 .- Because they refused to man the pumps and fire-rooms the fire bosses at Henry Clay shaft, operated by the Philadelphia and jority. Reading Coal and Iron company, were discharged today. The mine, which has been idle since Monday, is filling with water and in a short time, unless the water hoist is operated, will reach an upper level and flood the Sterling colliery, owned by the same company.

The water in Excelsior and Corbin colliery slopes, owned by Andrew Robertson & Co., is ascending the workings, as no men have taken the strikers' places.

. Two non-union men were hung in effigy near Green Ridge colliery, but he strikers kept away from the company ground. Borough council decided not to ention in Maryland.

York board's action, but it is intimated in official circles that if a commissioner is appointed the president will look to the senator to undertake the tusk. -----

THE CANAL PROJECT.

The Subject of Discussion in the Senate Yesterday.

By Exclusive Wire from The Associated Press

Washington, June 4 .- Discussion of the project of constructing an isthmian canal was begun by the senate today.
