HON. WM. MORRISON Passes away

Ex-Mayor of Carbondale and One of the Town's Foremost Citizens Succumbs After Three Weeks' Illness, His Interesting Career.

Hon, William Morrison, ex-mayor of Carbondale, alderman of the Third ward, one of the most prominent figures in the business life of this community and foremost citizen, passed away last evening at a few minutes after six

Death was due to pneumonia, superinduced by an attack of grip which prostrated Mr. Morrison about three weeks ago. A week ago pneumonia developed: Mr. Morrison's corpulance was a factor ngainst his recovery and the disease progressed rapidly.

Career of Hon. William Morrison. Hon. William Morrison was one of the rew proinfient men in Carbondale who passed away in recent years who was conspicuous figure in the public eye almost until the eye of his death.

conspicuous figure in the public eye are most until the eve of his death.

Though only in his sixtleth year, he lived measuring his increasing energy, industry and activity, many years more, and was longer identified with the city's development than many an aged pioneer who long sines retired from busy pursuits to the quiet of reclining years. Ever since he left the Grammar school and wrestled with life's problem. William Morrison exhibited that theless energy that vigor and robustness that remained with him until his prostration a few days ago. His extraordinary physique indicated these haracteristics, characteristics that made him one of, the strongest figures in the life of Carbondale for the last quarter of a century or more.

Mr. Morrison descended from one of the oncer families of Carbondale, and It pioneer families of Carbondale, and it was a source of pride to the deceased to feel that he was a matiye of the town with which his father was so closely identified in whose early development he was an important factor. Bartholomew Morrison, his father, came to Carbondale from Ireland, just seventy years ago, twenty years before Carbondale became a city. He had the sturdy manhood and strong characteristics that were transa city. He had the sturdy manhood and strong characteristics that were trans-mitted to his son and developed under his rigorous, withat tender, parental care. The senior Morrison's activity in the de-velopment of the town carried him into politics and for years he was a justice of the peace, whose sound common sense ap-plication of the law and justice made his activities sought and valued even by lawopinions sought and valued even by law-yers who were versed in the law.

Like his father, Alderman Morrison in-

clined naturally to politics and when in 1874, when only in his thirty-first year, he was elected to the highest office in the city? He was chosen as mayor on the Republican ticket. Because he was strong and unswerving in his opinions he left the office of mayor with some enemies even among those who had been his friends, but to whom he refused to yield on questions on which he took what he thought was the right stand, and even though his resolution injured himself and others of This was one of his stronghis friends. est characteristics, his firmness and out-spoken mind for what he believed right. On the death of the late Michael Lof-tus, Mr. Morrison was appointed by Gov-ernor Hastings to the office of alderman of the Third ward. At the following elec-tion he was victorious over ex-Chief of Police William Gordon, the Democratic nominee. Mayor of Carbondale and al-derman of the Third ward were the prinanized influence in the Democratic party.
William Morrison was born in Carbondale, March 1845, in proximity to his present bone, and was therefore in this six-tieth year. He obtained a common school politics that he made his way to the of-fice of mayor. Subsequently he went into the ice business, which he conducted

name after he disposed of it up to the present.
It was during this time he was engaged in the ice business that Mr. Morrison put to the test the remarkable strength and endurance of his extraordinary physical make-up. He worked day and night with regularity of succession and caused his friends to marvel that he could retain the untiring industry was so strongly characteristic of him and he was of such strong purpose that when he set out on a mission he accepted all the conseences to himself without the least ought. In this case he saw opportunities of accomplishing certain results that would give him the start he wanted financially, and he strove to the end regardless of the chances that others might think he was taking in the way of lessening his physical forces After disposing of the ice business in after eighteen years service, Mr. Morrison became a furniture dealer and

Physicians are calling attention to the Att that influence or grip has come to the In the larger cities there has been a marked increase in diseases affecting the organs of respiration, which increase is attributed to the prevalence of influenza. Persons who are recovering from grip or influenza are in a weak condition and peculiarly liable to pulmonary dis-

Dr. Pierce's Golden Medical Discovery cures coughs, bronchitis, lung "trouble" and other diseases of the organs of respiration. It is the best tonic medicine for those whose strength and vitality have been exhausted by an attack of grip.

undertaker. Five years ago he sold out his furniture business, which was located on North Main street, but continued the business of directing funerals, claiming as big a patronage as any one in the same following in Carbondale.

During these years Mr. Morrison's business shrewdness led him to putchase real estate which proved a profitable investment. The most impertant of his acquirements were tracts in Simpson, the first sale of which he made to the silk mill companies whose factories are located thereon at the present time. Recently he sold another site to the Fell

cated thereon at the present time. Recently he sold another site to the Fell Brewing company, which is being improved by the erection of a modern brewery. While holding these lands he made several attempts to locate industires thereon, which would be of material help to Carbondale. Mr. Morrison also holds considerable property througout the city and is among the moderately wealthy.

Mr. Morrison was a member of St. Rose congregation and was a faithful son of the church in which he was reared. The only fraternal organizations to which he belonged are the Catholic Knights of belonged are the Catholic Knights of America and the Knights of Columbus. She wept bitterly, which had a good deal to do with the accused sister telling as freely all she had to do with the salacious case

When Mrs. Heap's attorney, Hon. John F. Reynolds, learned of the Scud-der girl's confession to her sister, he advised his client to waive a hearing and enter ball, which she did.

Later in the evening, Bonnetti after being released on bail, went before Alderman Jones and had a warrant sworn out for the arrest of Mrs. Heap, on harges of blackmail and subornation of perjury. The warrant will be served by Constable Neary, who arrested Mrs. Heap earlier in the evening on the other charges

On her way to the alderman's office last night, Mrs. Heap expressed a willingness to the constable to settle the charges against Bonnetti for \$200. This is the sum which the Scudder girl and Mrs. Heap were trying to extort from Bonnetti. Bonnetti has retained Attorney F. W.

Monoghan to defend him. At the hearing in Alderman Atkinon's office yesterday morning, Mrs. Heap and the Scudder girl both swore night to the case of Mike Bonnetti, who that Bonnetti broke into the house a week ago, but was driven off by Mrs. Heap, at the point of a revolver; that when he returned Sunday evening, he knocked the girl down in Mrs. Heap's absence, for the purpose of committing before Alderman Jones on the charge of an assault on her. Scranton's Shopping Center

Announcement

During the months of July and August Connolly & Wallace will follow the custom established by them two years ago, and will close their store at noon on Saturdays.

ILL YOU share with us the privilege of inaugurating in Scranton shorter hours for business? During the hot months of July and August shopping in the morning will help very much. Will you bear this in mind? Besides, the store service is better then. The most willing hands become tired by the end of the week, the clearest heads grow heavy. It is, then, not what salespeople would like to do do, but what they can do.

If a Saturday half holiday (which is virtually a full day, from 12 noon to 9.30 p. m., our usual business hours on Saturday), of rest and recreation will bring our people back on Monday morning to the store fresher and stronger, we shall be fully repaid for the day of business we give up each week.

We have closed in this manner now for two years, and so far we have heard no criticism of the move, plenty of endorsement.

Our effort to bring about a shorter working week during the hot months for the thousands of people employed in stores, must soon bear fruit. Other stores are beginning to fall in line and it is only a question of time before it will be general. It means so little to the women who shop. It means so much, so very much to those who work.

The women of Scranton can do much by helping the earlier closing movement. It now depends on them. The merchants are willing. All you have to do is to stop shopping at 12 o'clock noon on Saturday. Is this a hardship? Would not a little thoughtfulness in planning your day's work accomplish it? And is it not worth while?

Think what it means in the way of simple pleasure to the women and men who serve you and supply your needs in the thousand and one calls you make on them. In the simple matter of every-day living, just consider what this small act of thoughtful consideration from you means. At home at noon on Saturday. A whole day in which to freshen themselves, to throw off the cares of the day, to prepare in leisure for any little festivity they may have on hand.

You, who have all your time at your own disposal, can hardly realize all that this half holiday means. But try to imagine yourself in their place. Picture yourself as going through their routine for one day. Then you will know. Cannot we instantly bring about a general early closing movement by all stores? What a fine thing it would be if every store were actually deserted of shoppers at the magic hour of 12 noon on Saturdays during July and August.

Some customers, conversing in the store a few days ago on the Saturday half-holiday subject, remarked that "Connolly & Wallace lead and the others follow."

It matters little who leads in the early closing, the big thing is that a store can close nowadays at noon on Saturday and lose none of its business.

We are glad that some other stores have decided to close, because we believe it is the right thing to do—that customers are as much benefitted in the better service they receive from the salespeople as the salespeople are benefitted in a physical and mental way.
