**MANUAL TRAINING SCHOOL IS NOW ASSURED.**

School Board Unanimously Adopted a Resolution Accepting Mrs. A. R. Smith's Liberal Gift—School to Be Erected on Adams Avenue—Mr. Jennings Explains Why Some Members of the Graduating Class Will Not Receive Their Diplomas on the Stage.

As exclusively announced in yesterday's Tribune the manual training committee of the board of control last night presented a report announcing an offer of \$50,000 made by Mrs. Abbie R. Smith for the establishment of a manual training school in this city, and recommending the acceptance of the offer with its accompanying conditions. The committee obtained publications from a number of cities in which manual training schools have been in successful operation, describing the methods pursued in detail. These were carefully examined, but the committee, believing that the merits of the system could only be determined by a personal inspection, decided to visit several schools in which manual training is being taught.

They visited the schools at Hoboken, N. J.; the Pratt Institute in Brooklyn, N. Y.; the Manual Training High School and others in Philadelphia, Wilmington, Del.; Baltimore, Md.; and Washington, D. C. They found these schools established in the various cities and report that they are a very important part of modern education.

The object of these schools is the education of all the faculties and not the training of any particular group. To bring thought and labor together, to make the thinker a worker and the worker a thinker. The committee report as being heartily in favor of the manual training school for the city of Scranton, and is highly gratified with the result of its visit.

The committee unanimously endorses the proposition received from Mrs. Smith, and asks to be given the privilege of preparing a suitable set of resolutions, the same to be suitably engrossed and presented to the generous donor of this munificent gift.

The formal offer as presented by Mrs. Smith is self-explanatory and reads as follows:

**MRS. SMITH'S OFFER.**  
Scranton, Pa., June 9, 1902.  
To the Board of Controllers of the City of Scranton School District.  
Gentlemen: Desiring to carry out a known and expressed intention of my late husband, I hereby offer to the city of Scranton school district, upon the terms and conditions hereinafter stated, a suitable building and equipment, on such plot of land as may be deemed convenient, accessible and advisable by your body, and which has been discussed by your committee, for the purpose of a Manual Training school for the use of the children of the city of Scranton, at a cost of \$50,000.

First—The said city of Scranton school district shall donate a plot of land eighty feet by one hundred and fifty feet (80x150 feet) for the purpose of erecting thereon a building and equipment, on such plot of land to Henry Beilin, Jr., Charles H. Welles and Thomas Sprague, trustees, to hold said land until the erection of said building or buildings, and upon the completion of said building or buildings the land not used or necessary to the use and occupation of said school shall be deemed absolutely sold to the city of Scranton, at a cost of \$50,000.

Second—The plans and specifications for such building or buildings shall be approved and accepted by the said trustees and the manual training committee of the city of Scranton school district.

Third—The said building shall be known as the "William T. Smith Manual Training School."

Fourth—The said building and equipment shall be used as a manual training school or such school as is analogous thereto or for the education and instruction of the youth in such building, and in such manner as is now intended to be covered by a manual training school.

Fifth—The said city of Scranton school district shall appropriate at least the sum of five thousand (\$5,000) dollars for the support and maintenance of said school and the instruction of the children.

Sixth—The said school shall be kept open and instruction in the branches therein taught shall be given each year for the minimum period required by any act of assembly now in force, or hereafter to be adopted regulating the term of instruction in the public schools of this state.

Eighth—In the event of the neglect, failure or refusal of the city of Scranton school district to keep and maintain the said building and equipment open for instruction for a period of two consecutive years and appropriating the stipulated sum for a period of two consecutive years, then the land in use for such building or school shall revert to the donor, and all buildings thereon and all equipment thereon belonging or part thereof shall revert to me, my heirs or assigns.

Very truly yours,  
Abbie R. Smith.

Magistrate John T. Howe is in Lebanon attending the state convention of the Red Men. He will return on Thursday.

Attorney Homer Green, of Honesdale, Wayne's choice for congress from the Wyoming-Susquehanna-Wayne district, was at the Jersey last night, en route for the Republican state convention at Harrisburg.

**FIRST DISTRICT DELEGATES.**  
Chosen by Convention That Refuses to Instruct for Pattison.

The Democrats of the First Legislative district met in Cosgrove's hotel yesterday afternoon for the purpose of selecting delegates to attend the Democratic state convention to be held at Erie. Thirty-three delegates were present. John M. Casey presided, and W. A. Lynott and John Gaffney acted as secretaries.

After the preliminaries were gone through with, the following candidates were balloted for: P. F. Egan, John P. Mahon, P. E. Flynn, E. J. O'Malley and Richard Jennings. The first four were selected, the delegates voting for four at one time. A motion was made that the delegates be instructed to vote for Robert E. Pattison for governor, but the motion was tabled.

The delegates were empowered to name their own alternates, and the convention adjourned to meet again at the call of the chairman and secretaries to name a district candidate for the legislature.

**AFTER THE OLEO SELLERS.**  
A Number of Them Have Been Recently Arrested.

S. J. Stevens, the local agent of the state department of agriculture, has for weeks been making a determined effort to round up the dealers hereabouts who have been selling oleomargarine without a license or selling it in disguise for butter.

The following have recently been arrested and fined \$100 and costs after hearings before Alderman Kasson: Michael Yuhas, 121 Broadway; Thomas Barkowski, Minoaka; John Panko, Second street; Fred Hug, 1514 Pittston avenue.

H. B. Sweet, of 109 Penn avenue, and Louis Shoreca, of 141 Robinson street, were held in bail for their appearance at court.

tees for certain lots, pieces or parcels of land situate, lying and being on Adams avenue, in the Ninth (9th) ward of the city of Scranton, in the county of Lackawanna and state of Pennsylvania, bounded and described as follows, to wit: Said lots being together eighty (80) feet in front on Adams avenue, the same in the rear, and one hundred and fifty (150) feet in depth, with the privilege of using ten (10) feet in front of the lot for a vault, porch, piazza and bay-window, and for no other purpose; for the purposes and upon the conditions contained and expressed in the proposition of the donor.

The above resolution was unanimously adopted by a rising vote after Chairman T. J. Jennings, of the committee and F. S. Barker, Jr. voiced the sentiments of the board in the matter.

An extended discussion was precipitated by Mr. Langan who announced that a committee of eight or ten members of this year's high school graduating class had called at his house in his absence and requested that all graduates were to receive diplomas, they were not to be allowed the privilege of receiving them on the stage with the other graduates. Mr. Langan had not been present at the meeting of the high and training committee when this matter was decided but he believed that the graduates in question were justified in talking over on the discrimination shown them.

**INCORRECTLY INFORMED.**

T. J. Jennings, chairman of the high and training committee, declared in a most emphatic manner that Mr. Langan had been informed that the graduates in question did not pass the examinations in January when the graduating class is decided upon. They have since, through the extreme leniency of the committee, he said, been given chance after chance to attain to the required standing and after three or four and five trials have finally succeeded in making up all conditions, some not until a week ago.

It would be unfair to the other members of the class, he said, to class these other pupils with them on commencement night. The slight technical question as to be given diplomas only through the kindness of the committee and to allow them at this late date to take their places with the regular class would be to upset arrangements which have been in progress for months. Mr. Langan expressed the hope that the committee would be satisfied with the explanation.

A little later on Mr. Jayne arose and moved that the pupils in question be allowed places on the stage.

"If they are not entitled to diplomas, don't give them any," he said, "but if they are going to get them, don't humiliate them by not letting them make a public appearance."

Mr. Christmas warmly seconded Mr. Jayne's motion. Mr. Jennings pulled a bunch of papers off his desk and announced his intention of reading the standing of the graduates in question so that the board could know the real facts. Mr. Jayne would be responsible for the parading of these pupils' work before the public, he said.

Mr. Jayne thought that the reading of the work was unnecessary, and called for the minutes. Mr. Jennings moved that the whole matter be laid on the table. This motion was adopted by the following vote:

Yeas—Francis, H. J. O'Malley, Eynon, Phillips, Murphy, Roche, Dr. O'Malley, Wright, Hand, Robinson, Walsh, Jennings, Schreiber, Barker, Langan, Rief, Leonard, Gibbons—18.  
Nays—Christmas, Jayne, Evans—3.

**PLANS FOR NEW BUILDINGS.**

The building committee presented a report recommending that the plans for No. 8 and No. 11 schools be referred to the committee for further consideration and that the plans for No. 12 and No. 13 be referred to the committee for further consideration and that the plans for No. 14 and No. 15 be referred to the committee for further consideration.

On motion of Mr. Welsh Architect Duckworth was directed to prepare plans for a two room annex to No. 33 school.

Mr. Hand, for the flag day observance committee, recommended that pamphlets explaining the significance of the day be distributed among the children of the several schools on Thursday. He announced that arrangements have been perfected for a band concert to be given on the court house lawn on Saturday night by the Lawrence and Bauer's band. The recommendation of the committee was adopted.

The pay roll for the present month was passed subject to the approval of the officers and teachers who were directed to have their reports in by Thursday night. The officers of the board were directed to negotiate a temporary loan to meet outstanding obligations.

**THEY WANT TO KNOW.**

**Auditing Committee Holds Up Deceptive Bills.**

The joint auditing committee of council refused last night to approve of two bills presented by Herman Barrings for services rendered for the city by certain detectives in his employ. The bills were both approved by Recorder Connell.

One is for \$550.80 and is for services rendered in an attempt to run down the perpetrators of the dynamite outrages during the recent street car strike. The detectives employed on the case are designated by numbers and the itemized bill calls for payment for railroad fares, subsistence and other things. The other bill is for \$225.00 for services rendered in securing the evidence on which the raid on the Eureka Reading club was based some months ago.

Common Councilman P. F. Calpin made the motion that the bills be held over until further information about them is secured. When asked what objection to them is raised, he said:

"All I can say is that in the words of Mayor Mulvaney, of Bridgeport, 'we want to know.'"

**POLICE ARE VERY ACTIVE.**

**Making Every Effort to Find the Murderer of Mary Quinn—Result of Coroner's Inquest.**

In line with instructions from Recorder Connell to spare no effort or expense in the hunt for the murderer of Mary Quinn, Superintendent Day has detailed four men to work with Detective Deller in unravelling the mystery.

Every little circumstance that might give a clue to the perpetrator of the awful crime is being thoroughly looked into. Nothing has as yet developed that gives any hope of running down the culprit, the police work away, zealous night and day, determined to exhaust every possible means of success before they give up their search. Mysteries equally as deep have been fathomed and it is their determination to fathom this one if thoughtful, tireless work will do it.

At present only one man is under suspicion. He lives in the community where the murdered girl resided, and was well acquainted with her and her family. His conduct since the murder is the main thing which turns suspicion in his direction. Something other than the gut may explain away the suspicious conduct. Unless the crime is fastened on some other person before many days, the suspected party will be called upon for explanations.

The adjourned inquest in the Quinn case was conducted by Coroner Sultry in the court house last evening. But one witness was examined. His name is Frank A. Howard, a photographer employed at 225 Lackawanna avenue.

He testified to having returned to the house of a relative on Quay avenue the night the woman was found, in company with his wife, a short time before the assault occurred, and said he noticed a number of young men and women in the vicinity.

The next morning, when he learned of the murder, he visited the scene and found the club used by the assailant. It was lying in the grass, some distance from where the body was found. His testimony did not throw any light on the case, and the jury, after some deliberation rendered the following verdict:

"We, the undersigned jurors, find that Mary Quinn came to her death on Tuesday morning, June 2, 1902, as the result of a fractured skull, inflicted at the hands of a person or persons unknown to us. Suspect—Fred Lidstone, Peter J. O'Donnell, W. R. Hughes, John W. Howell, John J. Brennan, John McHale.

Banquet Last Night at Volunteer Firemen's Headquarters.

Half a hundred of the boys who ran with the old Crystal machine had a banquet last night at the Volunteer Firemen's club house, on Spruce street, in commemoration of the twenty-eighth anniversary of their organization.

D. J. Newman, president of the company, was at the head of the table and acted as toastmaster. Addresses were made by a number of the prominent members, including ex-Recorder James Moir, Dr. P. F. Gunster, Dr. H. N. Dunne and John J. Loftus.

The banquet arrangements were looked after by a committee consisting of Secretary Charles R. Hinelein, Theodore Fahrnholt and David Martin.

**The Danger Period for the Nervous and Broken Down in Health is Rapidly Drawing Nigh.**

**Paine's Celery Compound**  
Banishes All Symptoms of Disease and Nourishes the Nervous System.

Paine's Celery Compound has saved thousands of people from nervous prostration and collapse brought on through sleeplessness, weakened nerves, and impoverished blood. The great medicine has made thousands well. It has conquered weakness and ill health when everything else has failed.

This is the time when nervous debility and nervous prostration begin to manifest themselves. The coming hot weather will only add fuel to the fire of suffering and disease.

If there is mental depression, loss of energy, lack of vivacity, dizziness of the eyes, blanched cheeks and lips, confusion in the head, defective memory, loss of appetite—all these are direct indications of coming nervous collapse, and call for the immediate use of that nerve feeder, strength giver, and blood enricher, Paine's Celery Compound. This Heaven sent prescription is a peerless remedy for your dangerous troubles. President T. J. Shaffer, of the Amalgamated Association of Iron, Steel and Tin Workers of the United States, writes from Pittsburg, Pa., as follows:

"In 1899 I was compelled to abandon my profession because of nervous prostration consequent upon exposure, hard study, and overwork. A number of physicians declared I would never recover, but I tried Paine's Celery Compound, and in less than a year increased in weight from 145 to 215 pounds. During the recent strike of the Steel Workers, finding myself ready to collapse, and fearing a recurrence of my former trouble, I returned to my former friend, Paine's Celery Compound, and already am feeling more vigorous and able to meet and discharge the duties of my office."
