THE PRESIDENT

Of the City Council, Wilkesbarre, Pa., Cured of Rheumatism.

Col. Wm. J. Harvey, a president of Wilkesbarre's city council, who will long be remembered for his great work for the city, was once a mere physical wreck, torn in every muscle and nerve from the frightful pains caused by rheumatism. He consulted the best physicians, went abroad, took mud baths, and almost every known treatment for the disease. A friend had had a very similar experience and Dr. David Kennedy's Favorite Rem-edy had cured him, so he recommended this great kidney medicine to Col. Harvey

and he is to-day a well man, hale and hearty. He writes straight to the point:

DR. David Kennedy,

Dear Sir:—This is to certify that I was permanently cured of rheuma-tism by the use of Dr. David Kennedy's Favorite Remedy. Wm. J. HARVEY.

Rheumatism is but another name for uric acid poisoning which is caused primarily by diseased kidneys. Cure your kidneys and the rheumatism disappears. For all diseases of the kidneys, liver, bladder and blood, rheumatism, dyspep-sia and chronic constipation, as well as sicknesses peculiar to women, Dr. David Kennedy's Favorite Remedy is unques-tionably the greatest medicine known to the medical profession.

It is for sale by all druggists in the **Now 50 Cont Size** and the regular \$1.00 size bottles—less than a cent a dose. Sample bottle—enough for trial, free by mail. Dr. David Kennedy Corporation, Rondout, N. Y. Dr. David Kennedy's Rose Jelly radical cure Catarrh, Hay Fever and Cold in Head. 50c.

Open Letter to Rev. Mr. Lansing.

To the Rev. L. J. Lansing, Scranton, Pa. Dear Sir and Brother: Together with several hundred of our townspeople, I had the privilege, on Sunday evening, of listening to your discussion of the merits and demerits (chiefly demerits from your point of view) of the present miners' strike, now on in these valleys. I must confess to you, I came away with a great sense of disappointment.

You began by assuring your hearers you proposed to consider the matter in you proposed to consider the matter in a calm, dispassionate and judicial man-ner. You began in a most admirable way, but you fell far short of doing justice to both sides of the question.

Respectfully, but decidedly, in the interests of truth and justice to all con-cerned. I must take issue with you on the following points, developed in your

1. By every word you used, every inference you drew, every impression you conveyed, every accent you made, you placed the entire blame for the present ontest on the miners. Against such a misuse of the facts and opportunity, I

must protest.

Waiving the point, for the time, as to the merit or lack of merit in the miners' request for an eight-hour day, a 20 per cent, increase for those doing contract work, the weighing of coal mined in certain districts, it cannot be disputed that an districts, it cannot be disputed that no class of men, feeling themselves ag-grieved, ever undertook a more sane, reasonable and Christian method for righting real or imagined wrong, than did the anthracite miners, before this strike was declared. They asked first for a conference with the operators; then for the mediation of the Civic Federation; then they appealed to impartial Christian arbitration. And ever and always, the operators would concede nothing, refusing to meet them half way. As a last resort, they struck. Now, in a dispassionate discussion of the question engaging you, while so unsparingly con-demning the misdeeds of the miners, ought you not to have spoken of the admirable and Christian way in which they endeavored, first to right their wrongs, (if wrongs they be), and in some egree have condemned the operators for

their un-Christian attitude. 2. To the intelligent and impartial lis-tener, your discussion was that of a special pleader for employers. I am far from saying you purposely made it such.
I believe it was unconsciously such. Such it was, at any rate. From the dawn of history to the present hour, is it not a fact that all the laws, customs and precedents of mankind-yes, the Gospel (?)—have favored the employer? Do they not still do so? In view of this, why should the employing class need a special pleader? Whom should the Christian church and its ministry champion those who are the favored or the un-favored ones? Those who are strong or those who are weak?

3. With Jeremiah lamentation, you be-wall the money losses involved in such contests. Yes: they are great. But, my dear sir, crises come to individuals, to organizations, to nations, when money losses, no matter how great, become in-significant compared with the rights of man involved. The progress of Chris-tian civilization for 2,000 years is marked by these losses, mankind counting them as dung compared with right and justice. If our fathers had not so counted dom would still be in slavery and serf dom. Men have been willing to make these sacrifices, yea, to sacrifice life it-self, that those coming after them may have what was denied themselves. The right or wrong of a question involving right, truth, justice, righteousness, can never be determined from a money standpoint, though you pile your dollars as high as Mount Blane, and climb to

its topmost peak. As a Christian minis ter myself, it grieved me to the heart t see you apparently so endeavor to settle hearers. Finding so much ignorance, error 4. Finding so much ignorance, not, in and wrong in strikes, ought you not, in a fair discussion, to have pointed out some of the benefits strikes have some of the benefits strikes have wrought for mankind? This you did not even attempt to do in your wholesale

You could have shown how they de velop brotherhood; how they have righted wrongs and injustices; how they have been the means of bettering the conditions of the strikers' children and children's children; how they have compelled the community to think and ex-amine and judge; how they have done a thousand things that have made for hu-man betterment, if for fifteen years you have gained any real knowledge on the

deavor to provoke lawlessness. But I object to having the lawless of ten twenty, one hundred or one thousand imputed, by inference, as you did Sunday night, to the 150,000 peaceable miners of these valleys, I read every once in a while of Presbyterian clergymen who ought to be behind prison bars. But you would object to having any one estimate the character of the ministry of your church by those who are false to both God and man.

7. You had a great deal to say about miners never paying their bills to those merchants who have carried them through a strike. Undoubtedly there are such miners. But I refuse to believe they make a majority or even a respect-able minority. By inference, you led us to believe all miners leave such bilis unpaid. A judicial mind would have been sure to guard against such an inference. 8. You called upon the community to assert its rights and settle the strike. But you did not tell us how we can do it. By inference, I judged your method to be that of "unconditional surrender" of the miners. My brother, you lost a great opportunity to say a telling word for Christian arbitration. From your address, my dear sir, carefully and intelligently followed, I gathered the unmistakable impression that you are fitted with all your fifteen years'
